

FOWLER AVENUE STREETScape WORKSHOP

WEDNESDAY APRIL 12, 2017

5:30 PM TO 7:30 PM

MOSI (Museum of Science and Industry)

4801 E. Fowler Avenue, Coleman Science Works 3D Theatre

The Tampa Innovation Alliance is building a plan to transform Fowler Avenue (from N. 30th St. to N.56th St.) into a welcoming parkway. The project team will present future visions of Fowler Avenue with a focus on providing safer travel for all users in the university area. We want your input on a preferred concept, so please join us!

And while you're at this meeting...The Hillsborough MPO and the Tampa Innovation Alliance will be applying for a Community Aesthetic Feature Permit this year to enhance the appearance and create gateways at the I-275 interchanges at Fowler Avenue and Busch Boulevard. View display vision boards full of images depicting ideas, and weigh in on what you'd like to see implemented for the makeover of these interchanges.
