

## Did you know 15th Street has one of the highest severe crash rates in our county?

We want to work with you to raise awareness and help bring these crash rates down.

Please join your neighbors, local churches, friends, and staff of the University Area Community Development Corporation on **JUNE 3, 1pm-4pm** to help make 15th Street a safer place to walk, bicycle, drive, and catch the bus. Activities may include:

- using chalk to create a colorful mural at the intersection of 15th and 124th Street
- placing planters to outline a safe walking path where sidewalks are currently missing
- setting up a temporary mid-block crossing with cones and ropes to help people cross 15th Street
- bicycle light installation center (no charge!)

Please sign up to volunteer:
