

Hillsborough County Transportation Surtax Projects Plan 2020

October 21, 2019

Street Selection Overview

Street Selection

The City selects streets to be resurfaced based on its Pavement Management Plan, a five year pavement resurfacing program, in combination with an assessment of the condition of the underlying sanitary collection system. Rather than resurfacing individual streets in various neighborhoods, Plant City's approach is to complete streets on a neighborhood basis.

The street resurfacing projects for the Hillsborough County Transportation Surtax Projects Plan 2020 include:

- 7 neighborhoods
- 40 Streets milled and resurfaced
- 2 Streets to be designed and permitted for paving
- 9.79 centerline miles
