

# Q1 A sense of place and community: Embrace and support the rich history, cultural diversity, and unique character of our neighborhoods across our vibrant city.

Answered: 723 Skipped: 0

	NOT IMPORTANT AT ALL	NOT VERY IMPORTANT	SOMEWHAT IMPORTANT	VERY IMPORTANT	EXTREMELY IMPORTANT	TOTAL	WEIGHTED AVERAGE
Importance	1.38% 10	3.04% 22	13.69% 99	30.71% 222	51.18% 370	723	4.27

## Q2 (Optional) Please comment on why you rated this statement this way or state what you feel should be included in the Comprehensive Plan as it relates to this statement.

Answered: 207 Skipped: 516

#	RESPONSES	DATE
1	Coming outside of my home and spending money should be enjoyable	6/3/2022 4:37 PM
2	Nothing worse than generic suburbs. I grew up in Orlando, LoL.	6/1/2022 11:38 AM
3	I think it is important so everyone in Tampa feels welcome in the community. I think one of Tampa's best qualities is how diverse it's population is, so I think that is something that should be emphasized.	6/1/2022 8:39 AM
4	While more and more people populate Tampa our native culture needs to be preserved.	6/1/2022 8:39 AM
5	More important is safety in your community.	5/31/2022 8:19 PM
6	To forget history is to be bound to repeat the past, on top of this, Tampa is loved because of its culture and diversity, as well as humans in general love to learn about the places they visit or live, and Tampa has such a rich history it must be shared. Additionally it helps us tie back to our roots, so to say and remembering how far we have come as a city and society. Its always good to be in touch with your community, to live is to love and we are all we have.	5/31/2022 4:26 AM
7	why wouldn't we ?? We want Tampa to be a unique place not like everywhere/anywhere else in America	5/26/2022 12:50 PM
8	Its my opinion, that the character of all Tampa neighborhoods need to be maintain. The over-building as in downtown Tampa, Westshore, West Tampa, off Nebraska Ave. and etc. should not be defined as future planning.	5/23/2022 5:46 PM
9	Black people in the black community of Tampa have contributed to Tampa since the beginning and it's very important to show the impact of blank ingenuity and support to Tampa growth	5/23/2022 1:23 PM
10	Tampa is rich in history and neighborhoods are diverse, however continuing to accept cookie cutter developers and the buildings including houses depletes the history.	5/22/2022 12:24 PM
11	How do you define a neighborhood? In a digital world neighborhoods may take on a different meaning. Don't be so imprecise in creating your scenarios.	5/19/2022 4:30 PM
12	Enhance what makes Tampa unique not just for residents but visitors as well	5/17/2022 1:56 PM
13	But not in a way that makes it impossible to grow and plan properly	5/15/2022 5:41 PM
14	Tampa has unique characteristics that differentiates the City from others - giving it a specific identity. If that identity is lost the city will become less interesting and enticing.	5/14/2022 1:29 PM
15	Our cultural diversity and history is what made Tampa. We need to preserve it.	5/14/2022 10:12 AM
16	Solve homelessness before it becomes unsolvable. Build affordable multi-use non-car-dependent neighborhoods. Implement limits on rent increases and make it more difficult for landlords to evict people.	5/13/2022 9:06 PM
17	Developers are shoving long term residents out of their homes. Tampa is diverse and existing folks are forced to leave because of gentrification.	5/11/2022 8:32 AM
18	Culture and diversity is needed for balance. Right now it's being pushed out by new construction snd high rents for people moving here from other states not caring for the people who have lived here their entire lives. It's sadly not about culture or diversity, but about profitability.	5/11/2022 7:51 AM
19	Do not tear down neighborhoods for roads	5/10/2022 7:39 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

20	I don't want Tampa to feel like any other city, I want it to feel like home and a point of pride. Austin did this well when they boomed.	5/10/2022 7:08 PM
21	Several neighborhoods have their own Comp Plans. It's essential that these are included as add-ons into the City's Comp Plan, so that the neighborhoods have some protection.	5/10/2022 2:47 PM
22	I am a transplanted resident from NJ and spent my summers soaking up the community and cultural interaction growing up. Longing for "the good ol days" of tradition and lively communities I moved my family Down South to find that again in Tampa, Fl. <3	5/10/2022 2:29 PM
23	Because it has never been included.	5/10/2022 11:34 AM
24	Without a sense of place we are missing the whole point	5/9/2022 6:01 PM
25	Ybor city is extremely historic and the monuments and history should be protected.	5/9/2022 10:35 AM
26	part of what makes a city attractive is diverse neighborhoods	5/7/2022 5:24 PM
27	People need to be able to socialize more, and have more venues readily available to do so. Loneliness can be very hard to deal with. Especially in a big city of over 2.5 million people.	5/7/2022 1:57 PM
28	As long as it's authentic, I don't have a problem with inclusivity. I think people from different cultures and specific neighborhoods should have a say.	5/6/2022 11:06 AM
29	Where is historic preservation in the plan? How about culture?	5/6/2022 10:54 AM
30	A comprehensible sense of place facilitates engagement which fosters citizenship and social connectivity. Feeling like you belong means you are invested and can give back.	5/6/2022 10:37 AM
31	Tampa has many diverse neighborhoods each with their own character and they need to be preserved. Unbridle growth without plans to maintain the unique character of the neighborhoods is not the way to proceed.	5/4/2022 5:40 PM
32	Being able to weigh in beyond and have a say beyond just electing someone to speak and make decisions for us is extremely important to me.	5/4/2022 12:45 PM
33	The media does a pretty good job of trying to divide us so it is important to acknowledge cultural diversity and differences. The goal would be to become one as a community.	5/4/2022 6:40 AM
34	I think we need to appreciate the history of the city (whether good or bad) and learn from it. We need to celebrate the different cultures that are here.	5/3/2022 5:52 PM
35	Each neighborhood should be able to maintain their current character without fear of rezoning. Rezoning shatters character. Residents buy into a neighborhoods current look and feel not what future residents may want or need.	5/3/2022 1:03 PM
36	Create state protected areas representing our architecture and historical buildings and parks. Creating murals are public works are also super important. Art work, statues, memorials, etc are good examples in my eyes.	5/2/2022 11:21 PM
37	I live in Seminole Heights and in the 60's FDOT ruined our neighborhood by installing 275 right through the middle of it. Now, 60 years later Seminole Heights has returned but many of the residents do not realize that. I think it's important for residents to know our history.	5/2/2022 4:18 PM
38	They are the heart of the City	5/2/2022 2:56 PM
39	neighborhoods are important they should be the focus of the comprehensive plan. High density does not invite unity, but keeps folks at a distance. Density in the correct places	5/2/2022 11:33 AM
40	As former Chairman of Ybor City, I worked with the City and my constituents on Ybor2020. I feel in love with our community when I came here for a job in 2005. Tampa is def. growing, and as I was born and raised on the East Coast of Florida....I saw first hand How "Miami" sprawld up the Coast of Florida. Tampa should never ever yearn to be Miami or even buildings that have a "Miami" flavor to it. We are TAMPA....we are the last big city in Florida, that has retained its's Florida charm. -Grant Connor Mehlich	5/2/2022 11:17 AM
41	Our financial, emotional, social, familial investments in our neighborhoods are huge. We choose our neighborhoods based on their character. We want the character of our neighborhoods to be protected!!	5/2/2022 9:04 AM
42	Community is a very important foundation.	5/2/2022 8:54 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

43	No one cares. People think community means you can walk down the street to a bar or store. It is not. Most of our residents still think they are living up north.	4/29/2022 11:56 AM
44	We have all types of people in the City and Diversity enriches our City.	4/29/2022 8:35 AM
45	I just moved to Tampa. I love the Riverwalk and streetcar. It is an excellent way to keep community connected. I have a suggestion to turn N. Franklin into a Lincoln Mall like Miami. No cars restaurant and retail stores shops , water fountains and sculpture. It would be a great way to bring the downtown back.	4/27/2022 9:05 PM
46	we are a diverse community and should work to make it be better for all	4/27/2022 8:04 PM
47	I think if the history, culture, and character of a location gets lost in the process of growth and development, then it detracts from the vibrancy of a place. Also, without those characteristics, places can become very sterile and end up looking exactly like every other new development.	4/27/2022 11:12 AM
48	Expansion of Historic Districts in Tampa are vital to embrace and support the rich history of our city. Too many neighborhoods are being ruined by new, contemporary residential construction which is demolishing our beautiful, historic homes.	4/26/2022 1:39 PM
49	It is very important to protect and enhance what makes Tampa a special place.	4/26/2022 10:43 AM
50	We Have To Embrace all areas of our culture, history, future of our children. Diversity and the characters of all neighborhoods combine can and will enrich all of The City of Tampa. If the City of Tampa is the most vibrant community than those who are the history of our City of Tampa continue to shift, relocate and spread to our neighborhoods per County To County. Many of those who visit come from far and so close from a county line in Florida or of the map. I say all this Yes! City of Tampa is a sense of place that should include in the future Vision Plan all cultural events with unique association of all who stay connected with our community.	4/25/2022 5:56 PM
51	Whether it is old growth trees or historic buildings, comp plan should provide protection-- assuming State Legis allows.	4/25/2022 1:45 PM
52	I do not want to leave buildings that are run down just because they are "historic". They must be up kept and I think that mixed-use buildings can better serve the community than stand alone old buildings.	4/24/2022 10:28 PM
53	Each Tampa neighborhood has its own unique history and flavor- we should honor and celebrate that. I think Hillsborough County Public Schools should dedicate a unit in history classes or social studies classes for elementary/middle schoolers so we can learn our city's history; I certainly didn't learn about Tampa when I was going through the public schools here.	4/24/2022 3:27 PM
54	If we only had one neighborhood so everyone has their own community	4/23/2022 2:21 PM
55	To know about new people and their cultures	4/23/2022 2:13 PM
56	Diversity is what makes a city great.	4/23/2022 2:11 PM
57	Prioritize Florida residents	4/23/2022 1:38 PM
58	History is one immutable aspect of better citizenship when incorporated into a diverse community of neighborhoods where people are recognized and respected for their different interests, talents, and skills.	4/23/2022 1:31 PM
59	Diversity is key to our future	4/23/2022 1:01 PM
60	Diversity is key to our future	4/23/2022 10:44 AM
61	Cities are only as great as the neighborhoods that form them.	4/21/2022 10:21 AM
62	I have lived here since 1987. I take pride in that i want a safe and clean place to live. Not to mention fun in the sun. I was here before Riverwalk and a lot of great additions to my city.	4/20/2022 3:24 PM
63	What I love about Tampa is the rich history, cultural diversity and unique character of our neighborhoods. I am concerned that with some of the current development that these are getting lost. I live in Ridgewood Park, where historic homes and large oak trees are being torn down and replaced with large rectangular structures that extend very close to the lot line and in some cases have a garage in front, even though we have alleys. The loss of these trees means a loss in the shaded canopy, which provides shelter to the outdoors, minimizes the heat-island effect, and brings biodiversity to our neighborhoods; the loss of the historic homes	4/20/2022 2:00 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

is a loss in character, charm, and craftsmanship: the historic front porches are a place to enjoy the outdoors and to interact with your neighbors whether it be a simple "hello" to a neighbor walking, biking, or driving by or through a neighborhood sponsored porch party event. The loss of these unique characteristics are likely to cause a loss of community as neighbors retreat indoors from their tree-less and yard-less lots to escape the hot asphalt in front of their homes.

64	We need more housing rather than placing restrictions on housing for the sake of "neighborhood character."	4/16/2022 7:09 PM
65	Increased awareness of the historical places and people should be incorporated into every planning decision.	4/16/2022 4:44 PM
66	For example ybor has turned into a cesspool.	4/15/2022 8:23 PM
67	If you want to foster a sense of place and community, realize these come naturally when people stay in a neighborhood for a long time and have spontaneous, positive interactions with each other. The government only needs to step out of the way.	4/15/2022 5:06 PM
68	Vibrant city can never lose its vibe and be called vibrant. I'd like to live nowhere else but Tampa bay. And I came here not too long ago.	4/15/2022 1:50 PM
69	A sense of place and community will lead to greater happiness.	4/15/2022 12:02 PM
70	It is the soul of our home.	4/15/2022 8:06 AM
71	The existing layout of a lot of the older neighborhoods are great for walking and developing better connections. I would love to see the city continue to enhance these areas.	4/14/2022 7:22 PM
72	We send our babies off to fight wars to defend this place. These drab, no-wheresville places, these hot wide streets that imprison us in cookie cutter houses. I always think about creating and nurturing a sense of place as creating a place worth defending. In addition, Tampa is one of the oldest cities in Florida with one of the most significant historic stories. It is outrageous that we are not uplifting, embracing, and at a minimum protecting historical places and stories.	4/14/2022 10:43 AM
73	It's very important to reduce the impact of gentrification on the diversity and culture of the city	4/14/2022 10:02 AM
74	So we don't become generic	4/14/2022 9:47 AM
75	We need to preserve our community character. Already developers have taken hold and impart their vision in the name of profit, which is the opposite of community. We need more design standards imposed which will help impart TAMPA PRIDE!	4/13/2022 10:59 AM
76	we can't just be "any city usa". Focus on what makes Tampa unique and grow it - inclusive, tree canopy, access to water, parks and nature, great schools and business climate	4/13/2022 10:04 AM
77	Tampa's history is rooted in the achievements of people of color. The City should honor the past by highlighting, elevating, and supporting black and brown communities across Tampa that, to this day, keep the city thriving.	4/12/2022 10:36 AM
78	Maintaining neighborhood identity and support to keep them maintained and improved must be equitable for all. From south of Gandy to New Tampa and all of the neighborhoods in between we are more than just our downtown.	4/6/2022 3:10 PM
79	A positive sense of place is what binds people emotionally to cities.	4/5/2022 5:37 PM
80	As Tampa is growing so rapidly it is critical that we preserve what is distinctive about our city so that it is not just a cookie-cutter big modern metropolis. This is best for residents, tourists and other visitors alike.	4/5/2022 4:02 PM
81	Tampa is a city full of diversity. It is vital that this be priority in order to preserve the colorful history we have.	4/4/2022 3:28 PM
82	Tampa can be very divided on racial/cultural lines. Celebrating them all instead of only a few could help us build a more cohesive future.	4/4/2022 2:02 PM
83	It is essential. The history, diversity, and character are what make Tampa such a special place to live.	4/1/2022 10:14 AM
84	Diverse, cultural neighborhoods are attractive.	3/31/2022 2:52 PM
85	As a diverse individual it brings comfort knowing Tampa embraces that diversity	3/29/2022 12:56 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

86	It's vital to the lifeblood of our city and what makes people move/visit in droves	3/29/2022 12:55 PM
87	It is extremely important that development is done in such a way that historic residents are able to stay in their homes and enjoy the enrichment of their generational neighborhoods.	3/29/2022 10:33 AM
88	I just feel diversity should be embraced and cherished. ALL viewpoints are important.	3/28/2022 11:13 PM
89	It should not even be up for discussion - any city/county should be doing this.	3/28/2022 4:35 PM
90	Tampa has a long diverse history that should be highlighted	3/28/2022 4:01 PM
91	Modernization is key now in the world. Bigger buildings to make Tampa even more important than it is now.	3/24/2022 11:16 AM
92	A sense of community binds people together and creates an atmosphere where people can thrive and achieve their full potential	3/24/2022 6:13 AM
93	Trying to preserve these single family home neighborhoods close to downtown is absurd. Tampa is growing up. Higher density residential is needed within all of Tampa proper. Save the shingle family home lots for the suburbs.	3/23/2022 6:50 PM
94	A city's history is what makes it unique, interesting and inviting. Historic Preservation not only keeps a sense of place it is one of the most sustainable things you can do - fix it, don't put it in a landfill.	3/23/2022 8:56 AM
95	Make tampa a more unique place with ethnic neighborhoods and restaurants. Give them a distinct character.	3/23/2022 5:39 AM
96	This cannot be done by government. It requires intentional effort by people within the community.	3/22/2022 7:06 PM
97	Stop ruining Ybor Historic District	3/22/2022 3:52 PM
98	Yes irs important but understanding history is not nearly as important as equal justice immediately.	3/22/2022 3:32 PM
99	Preserving Cultural Diversity and the Unique Character should be a primary focus of the comprehensive plan, specifically for East and West Tampa communities. Both East and West Tampa have a unique character and culture that should be protected. People in those areas need more access to Healthcare, parks, and public transportation while preserving the community.	3/22/2022 2:35 PM
100	Everyone deserves the sense of belonging that comes with community. No matter if you've just moved here or if you've lived here your whole life. I think a great way for folks to feel community to ensure everyone has a safe place to live no matter your income level. There should also be easy to access public transportation solutions that link every Tampa neighborhood together.	3/22/2022 1:24 PM
101	Tampa is so unique among Florida cities, and I'd love to see our culture grow and thrive	3/22/2022 1:08 PM
102	Cigar city should be preserved	3/20/2022 11:56 AM
103	Tampa has a rich & unique history across many neighborhoods. This should be encouraged and supported.	3/19/2022 4:33 PM
104	This matters, and will be more easily achieved through a reasonable public transportation project.	3/19/2022 12:43 PM
105	Just make sure that historic buildings and neighborhoods are protected.	3/19/2022 10:10 AM
106	The history, diversity and the character of Tampa is what makes it special	3/18/2022 4:01 PM
107	Knowing, celebrating and sharing the city's history and cultural diversity are some of the most fascinating aspects of living and working in Tampa City!	3/16/2022 9:30 AM
108	We are better together! Let's share each other's cultural and experiences (good and bad) to make us better!	3/16/2022 8:34 AM
109	Ybor City and surrounding areas are rich in Tampa history! These days, that "charm" is what people want and keeps them coming back. Let's go forward ... by going backwards with beautiful and interesting stores, restaurants, colors, signage and cultural happenings!	3/15/2022 8:42 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

110	Ybor City Historical District	3/15/2022 7:42 AM
111	I feel like history is what created us and our world today so we should definitely embrace the culture and in learning the knowledge of our history	3/14/2022 9:57 AM
112	Tampa is extremely diverse and the way the city looks should reflect and celebrate this	3/14/2022 8:56 AM
113	Lots of Tampa's charm comes from its history and the culture that has developed from it (architecture, food, etc.) and I think that without those things it will become even more tourist-centric and lose its personality.	3/11/2022 6:11 PM
114	Affordable housing is being eliminated	3/9/2022 5:56 PM
115	History and cultural should be embraced. Each neighborhood is different	3/9/2022 10:57 AM
116	A dynamic, innovative city requires the perspectives of many different people and groups of people. Mature difference of opinion is a good thing. The moment a city homogenizes is the moment it becomes stagnant, complacent, and uninteresting.	3/6/2022 9:33 AM
117	Tampa's history and culture makes the city great and we should preserve it. But I also don't want it to stand in the way of progress. For example, if Ybor needs some buildings demolished to build mixed-use-zoned apartments, we should do so.	3/5/2022 12:15 PM
118	I favor growth over preservation	3/3/2022 4:32 PM
119	depends on culture - no more \$ for sports and we have teams, and it cost tax money that normal residents cant afford. Improve roads and transportation, traffic is horrible only to get worse.	3/3/2022 9:54 AM
120	It's extremely important for the city to represent as many cultures that are represented as possible. It will also make it a more appealing place for people to live.	3/1/2022 11:46 AM
121	It is important to me, but it is not important to the Mayor and city staff. Does the unique character of neighborhoods include, but not limited to; trash, horrible roads, drainage problems, no green spaces, horrible architecture of buildings, cheap apartment units that will need to be torn down in 10 yrs, and not enough single-family homes in South Tampa? Instead of concentrating on cultural diversity, how about diversity of ideas and thought!	3/1/2022 10:31 AM
122	Preserving our history is important.	3/1/2022 8:22 AM
123	I do think we need to maintain the history and integrity of neighborhoods. One thing I am noticing is that in and around historic areas there are lots of town homes going in that don't align with the history and vibe of the area. It's would be nice to maintain consistency while still upgrading and modernizing.	2/28/2022 11:10 AM
124	History and character are what make cities unique. Without them, the city is nothing special.	2/26/2022 4:13 PM
125	Love the historic charm and character of certain neighborhoods of tampa like Hyde park and ballast point.	2/25/2022 8:53 PM
126	Tampa has not done a great job with preserving many of its historic neighborhoods or structures, especially in neighborhoods where minorities are the majority. This is especially true in Central Park, Tampa Heights, East Ybor and West Tampa. Telling their stories and preserving the history behind these neighborhoods is imperative.	2/25/2022 2:09 PM
127	Housing that is affordable - definition of affordable should be affordable to someone who is making minimum wage and there should be major support for housing for those who are on a fixed income which is even lower than the minimum wage would even pay.	2/24/2022 7:03 PM
128	I think this is limited to places like ybor. You aren't going to celebrate the unique character and history of suitcase city and SOG. Plus are you going to use the gentrified culture of places like Seminole heights.	2/24/2022 6:29 PM
129	Exponential growth is threatening out historical and culturally diverse neighborhoods the most. Protecting them needs to be central to our vision.	2/24/2022 4:17 PM
130	Much of the history and culture that exists here in Tampa is due to minority and people of color communities, particularly in low income areas that are now being gentrified. Embracing and supporting this goal will need to include engagement and participation of these crucial communities that are the founders and root of history and culture in this City.	2/24/2022 10:35 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

131	I was born and raised Tampa, it saddens me to see people getting pushed out of the community that they have lived all their lives due to the changes.	2/24/2022 8:56 AM
132	From historic districts to promote the history and evolution of culture in Tampa to public art, providing a sense of place provides pride and identity in a city. A definable landmark is key (the St. Louis Arch, Eiffel Tower, Statue of Liberty).	2/24/2022 7:56 AM
133	The history, cultural diversity and unique character of Tampa's neighborhoods are what make Tampa such an interesting and vibrant place in which to live. Tampa is a city comprised of immigrants from Spain, Cuba and and Sicily who settled here over 100 yrs ago. Hispanics are the largest minority in the state and in Tampa also. They have created a rich historic history of diverse cultures, traditions, cuisine and restaurants. Because of this latin culture and influence from Tampa's past, today many people from Latin America continue to come to Tampa and settle here. This needs to celebrated and appreciated. Nonetheless, Hispanics do not hold many top positions in local government----city or country and that needs to change!	2/24/2022 1:40 AM
134	People are coming here because of who we are and what we have to offer, let's continue to be our authentic selves as a community.	2/23/2022 1:48 PM
135	We wouldn't be here without the history- in its reality not white washed.	2/23/2022 1:36 PM
136	Many vibrant communities across the nation have embraced their history/culture. Therefore we should do the same because ours is uniquely entwined throughout our neighborhoods.	2/23/2022 12:38 PM
137	people like to live in areas that suit their own personality/income/interests/ethnic backgrounds...	2/23/2022 11:57 AM
138	Several areas of Tampa are losing their rich, unique culture. This gentrification has negatively affected Tampa's minority communities. I would hate for Tampa's culture to become watered down like numerous cities across the U.S. such as Harlem. The unique culture is what will continue to draw people to this city.	2/23/2022 11:44 AM
139	The unique character of many of our neighborhoods is single family homes with a short drive to anywhere. Overloading our city with multi family units creates more traffic and takes away from the appeal many of us love.	2/23/2022 11:35 AM
140	Currently it seems the city gives developers whatever they want and it continues to ruin the charm of our community especially since they usually cut down all the trees.	2/23/2022 11:34 AM
141	While this is important to the keeping the integrity of of our community intact, this effort cannot supersede the need for better mass transit, affordable housing, better roads, and the need to be economically prudent.	2/23/2022 11:13 AM
142	Tampa has multiple historic neighborhoods that have rich history, and it would be a shame to see them disappear due to modern and expensive structures being built.	2/23/2022 9:35 AM
143	Various neighborhoods around Tampa have such different history that could be represented as so much more. (Eg - some kind of placards up about Ballast Point near the pier sharing the history)	2/23/2022 6:40 AM
144	Tampa is only what it is because of the unique neighborhoods within. Don't sell out our city to overpriced, poorly built high rise "luxury" apartments and condos. We need affordable housing for our working class, young families, and ethnic citizens that give Tampa the diversity many cities lack.	2/23/2022 12:46 AM
145	Keep Tampa vibrant, and green, and clean! Please don't allow it to become a large city so full of people that the sense of "community" becomes history.	2/23/2022 12:08 AM
146	We need code in place that preserves and enhances the uniqueness of Tampa's neighborhoods. Our weak land development codes need serious teeth if Tampa wants to stop looking like Anywhere, USA.	2/22/2022 10:03 PM
147	Without embracing our history and identity as a city it give us little respect for our past and our character you need to preserve, reuse. Repulse some of our existing landmark building in all areas of Tampa and our unique neighborhoods. A mansion on bayshore, a bungalow in Seminole heights. A shotgun style house in Ybor. What make us unique makes us one of a kind	2/22/2022 9:42 PM
148	We have a rich history and the architecture representing that history is in jeopardy for any areas outside those designated as historic preservation neighborhoods. I would like to see city	2/22/2022 9:41 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

planners take a closer look at how the historical review process is functioning. I'm not against new housing, but tearing down historic houses in New Suburb Beautiful, Beach Park, and Palma Ceia, among other areas, is not the wisest approach. There are many communities across the country that value hundred-year old homes and put a premium on them, but those types of buyers are not even getting a chance with investors snapping up properties. It might be worthwhile enacting some restrictions on how many developed properties a single investor can acquire.

149	It is what makes these south Tampa neighborhoods unique.	2/22/2022 9:22 PM
150	I own a 113 yr old home it's historical and with all these over building it's ruining things like who agreed to WestShore Pointe Apartments to exit off Prescott it a one car lane road it's horrible rethink everything your allowing	2/22/2022 8:18 PM
151	Citizens need to be encouraged to participate and in turn their needs should be addressed.	2/22/2022 7:44 PM
152	Zoning for multi use spaces	2/22/2022 7:21 PM
153	Stop over crowding our quaint communities thru out Tampa. We are becoming a concrete JUNGLE!!!!!!!!!!!!!!!!!!!! LEAVE SOME TREES, & GREEN GRASS!!!!!!!!!!!!!!!!!!!!	2/22/2022 7:16 PM
154	Defining the different neighborhoods and their characteristics.	2/22/2022 5:12 PM
155	I fully support preserving our history!	2/22/2022 4:45 PM
156	Continuing including all walks of life , areas that areas of poverty , where there is food deserts	2/22/2022 3:45 PM
157	All of these aspects are important but we must save our history! Stop allowing historic homes and buildings to be torn down! We are losing all of the character, charm and history of our neighborhoods!!	2/22/2022 2:46 PM
158	Not like our voices really matter in any of these but I would rather see the city fix our horrible crumbling roads, sidewalks and congestion before they "try" to make these other false promises happen. We are so behind on transportation and infrastructure in this city...really sad and alarming.	2/22/2022 1:44 PM
159	We should do the most possible to build and preserve buildings that add to and preserve the culture of different neighborhoods also community planned murals.	2/22/2022 1:32 PM
160	It is very important, but if we are talking about "equity," then all we will be doing is maintaining a racist narrative and one that is not truly inclusive.	2/22/2022 1:16 PM
161	Each neighborhood is different. Neighbors need to be consulted about what they want, not told what they are getting.	2/22/2022 12:42 PM
162	new constructions are changing the neighborhoods character, bringing a lot of traffic, and change its peaceful environment. I am in favor of condos, but I am completely against huge building on residential areas which used to be made mostly of houses and condos. the city uncoordinated growth is also bringing a lot of homeless people. We didn't use to see panhandling even in traffic stop lights or around the neighborhoods. We cannot even have plants or decorations in front of our homes because they are stolen.	2/22/2022 11:45 AM
163	This statement can be interpreted 100 ways. It's not concrete. The city has been ruined by past mayors who advertised Tampa to the rest of the world, especially during past superbows, about what a wonderful place Tampa is. Great exposure, right? Now the city is so crowded and traffic is so bad it's miserable.	2/22/2022 10:38 AM
164	Tearing down old Tampa neighborhoods for new hugh, energy sucking houses with not enough room for even trees is decidedly again the better interest of earth and Tampa. Doesnt have the Florida feel.	2/22/2022 10:13 AM
165	The character and history of a city give it its identity.	2/22/2022 9:25 AM
166	We have a great deal of diversity in Tampa that should be acknowledged, appreciated, exhibited and taught to future generations .	2/22/2022 9:08 AM
167	Please create more opportunities to celebrate our regional diversity.	2/22/2022 9:03 AM
168	Tampa for years has been relabeling itself and it has missed out on embracing its history. One such change was removing sidewalk vendors off of 7th avenue and has yet to expand the outdoor sitting for restaurants.	2/22/2022 9:02 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

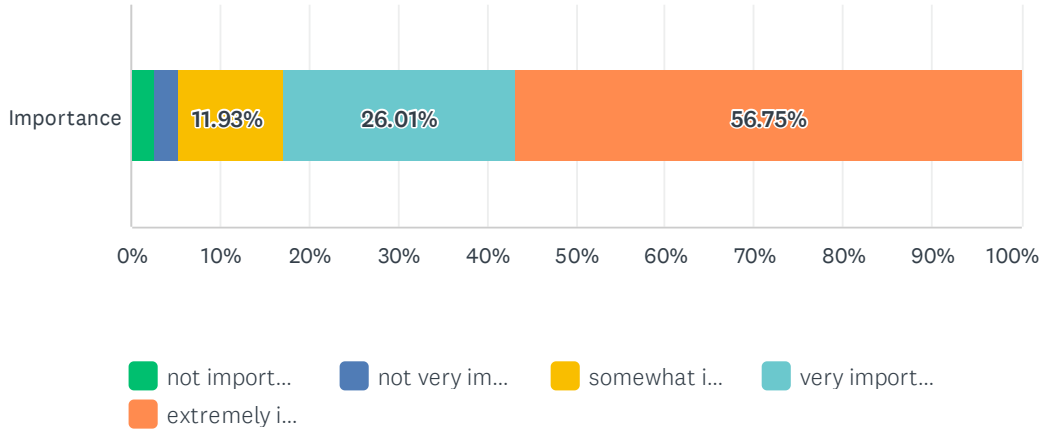

169	Preserving old buildings, because let's be honest our city isn't very vibrant anymore. It's becoming cheap and basic looking.	2/22/2022 8:47 AM
170	A city which doesn't actively retain, maintain and promote it's history is just a collection of people and buildings	2/22/2022 8:37 AM
171	The neighborhoods where growth should be small May continue w much of the same. But adds to the other areas where grocery be encouraged and is welcome we need to seriously evaluate the code to be more inclusive.	2/22/2022 8:14 AM
172	Most of the Tampa neighborhoods are nothing more than bedroom communities built without any cultural history	2/22/2022 8:13 AM
173	Cookie-cutter character-less cities can be anywhere. Why live anywhere when you can live in a vibrant community like Tampa?	2/22/2022 8:08 AM
174	Tampa's unique cultural history sets us apart from everyone else.	2/22/2022 8:04 AM
175	Without celebration of culture we'll have no identity	2/21/2022 9:08 PM
176	What makes Tampa so great are the people and the pride they take in their individual neighborhoods.	2/21/2022 8:42 PM
177	Tampa has so much history and character and it's quickly being wiped away by developers who are building houses that all look like white boxes and take up every billable square foot of the lot. We're losing our grand oaks left and right and that is irreplaceable in our lifetimes.	2/21/2022 8:36 PM
178	Tampa's history is one of diverse groups coming together to survive and its diversity must be protected and prioritized.	2/21/2022 8:11 PM
179	Preserving and enhancing our unique cultural inheritance is vital to maintaining Tampa's character over the long hual. We cannot survive on "good climate and low cost of living" as we become a larger, more populous metro.	2/21/2022 8:04 PM
180	True diversity demonstrates and drives the best in people, businesses and government.	2/21/2022 6:48 PM
181	Restoring and preserving historic buildings and sites should be prioritized	2/21/2022 5:54 PM
182	Tampa is unique and must stay that way, a combo of diverse history, nature, liveability	2/21/2022 5:49 PM
183	We live in Hyde Park. It is unique and adds character to the city of Tampa, as well as all the other surrounding neighborhoods - each has its own personality. Please try to limit development - where a home can be taken down and two - three go up in its place. This is already damaging some of our old, beautiful neighborhoods.	2/21/2022 5:42 PM
184	place matters	2/21/2022 5:39 PM
185	To have a safe clean environment is more important	2/21/2022 5:37 PM
186	This, including "a sense of 'identity of belonging to this place' and pride in it, is fundamental.	2/21/2022 5:37 PM
187	Why are you dividing neighborhoods based on culture? Focusing on too much diversity can backfire	2/21/2022 5:31 PM
188	we are a quiet community and not a bustling city	2/21/2022 5:30 PM
189	Because the history of the city if with the citizens that have lived there for generations. If they are pushed out the history is gone.	2/21/2022 2:26 PM
190	These attributes reinforce identity and this plan needs to include the community's past and present identity to truly serve the people. It is identity that makes Tampians different and unique from all others and this should be acknowledged and celebrated in the plan. Also, There shld be a balance between inclusion of a community's identity and achieving the public good. An identity with car centric mode shld not trump inclusion of multimodal for a quality transportation network. Dont let the identity of privileged communities trump doing the right thg for tampainans with less resources.	2/21/2022 7:08 AM
191	Modernize	2/20/2022 7:15 PM
192	I've lived here my whole life. This disregard to my childhood home and the culture that's been around my 53 years has me so upset.	2/20/2022 6:45 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

193	Keeping the charm is nice within the neighborhoods but improving the schools, infrastructure, and building more housing is more important to me.	2/20/2022 9:12 AM
194	It's important, but making unsafe areas more safe with growth and opportunity is ideal even if that means it looks a little different.	2/20/2022 1:29 AM
195	These qualities make up Tampa's soul, make us unique and separate us from other communities	2/19/2022 6:37 PM
196	develop African American history into the overall culture of the diverse city: history center, more focus on the Central Avenue Park to include lighting so the area is visible and welcoming at night. The City is missing out on a valuable tourism resource by not emphasizing the history of the historically African American Central Avenue business and entertainment district.	2/19/2022 6:00 PM
197	There's no shortage of generic, homogenized towns across the country. We don't need more cookie-cutter McMansions and bland apartment complexes. One of the things that makes Tampa so unique is our beautifully blended culture, our diverse history, and active waterside community.	2/19/2022 5:45 PM
198	Tampa has beautiful character. It should be preserved wherever possible.	2/19/2022 3:28 PM
199	What makes Tampa so wonderful is the different cultures and big cities that thrive are cities that embrace their cultures and celebrate them	2/19/2022 11:28 AM
200	I am a biracial female with a culturally diverse family. My children and grandchildren are also multiracial. Acceptance and inclusion are necessities in the community which I live in. Cultural diversity improves the community and enriches the areas history.	2/19/2022 10:37 AM
201	Stronger historic preservation policies and protection for structures. Policies which require proactive designation of appropriate structures to help protect them, to ensure they are rehabilitated in place or otherwise moved to a location. Policies which prevent demolishing by neglect should be put into place.	2/19/2022 12:51 AM
202	Our history is paramount but so is our future. We should be differential when it serves us but we can't let it take precedence over our immediate and long term needs as a community.	2/18/2022 11:17 PM
203	A city's diversity and history makes it an interesting place to live. It differentiates that city from other similar cities.	2/18/2022 7:58 PM
204	People, stories, and history make our city unique and are what make it interesting. We can learn also learn a lot by highlighting and understanding these things.	2/18/2022 7:05 PM
205	Connecting to the historical structures differentiate Tampa from other places. It gives Tampa a unique identity. Not to say we can't retrofit and modernize. But blend old with new is important.	2/18/2022 7:00 PM
206	I think protecting the heritage and culture of our city is important for future generations and to set Tampa apart from other places around the country.	2/18/2022 10:59 AM
207	It will be a balancing act to plan around keeping the history and cultural diversity from becoming self-segregation. Blending the cultures, history, and unique character is going to be key.	2/17/2022 7:45 AM

### Q3 A mix of uses along complete streets: Continue creating neighborhoods with easy access to jobs, goods, and services with a variety of ways to get to them.

Answered: 696 Skipped: 27

	NOT IMPORTANT AT ALL	NOT VERY IMPORTANT	SOMEWHAT IMPORTANT	VERY IMPORTANT	EXTREMELY IMPORTANT	TOTAL	WEIGHTED AVERAGE
Importance	2.59% 18	2.73% 19	11.93% 83	26.01% 181	56.75% 395	696	4.32

## Q4 (Optional) Please comment on why you rated this statement this way or state what you feel should be included in the Comprehensive Plan as it relates to this statement.

Answered: 217 Skipped: 506

#	RESPONSES	DATE
1	I love visiting Chicago because of the mix within the neighborhoods. You can walk or ride to get anything you need	6/4/2022 11:40 PM
2	More important is infrastructure.	5/31/2022 8:21 PM
3	As a growing community, we will be experiencing a population rise, so in all rationality, easy transportation and more residential neighborhoods are ideal.	5/31/2022 4:26 AM
4	we need to maintain and sometimes re-establish our street grids.	5/26/2022 12:50 PM
5	I don't want a packing facility next to a farm. Keep industrial separate.	5/24/2022 8:38 AM
6	Transportation access, roads that lead to major thoroughfares and instate highways must be maintain in the Central Tampa area, Hillsborough Ave., MLK Dr., Columbus Dr., 40th St., 22nd St. and etc. in my neighborhoods must be maintain for full access.	5/23/2022 5:51 PM
7	The mix use will provide a place for small businesses to continue to grow with in the community and neighborhoods of each Tampa therefore make shoes business and residential is very important East Tampa	5/23/2022 1:25 PM
8	Depends on the definition of neighborhoods. If you allow the continuance of multi tenant overpriced apartment complexes especially in south Tampa, you are not creating neighborhoods.	5/22/2022 12:26 PM
9	Easy access to hundreds of thousands of jobs downtown. Your kidding! Why not limit job growth in an area, spreading out the jobs for shorter commutes.	5/19/2022 4:34 PM
10	Provide a variety of streets sections with varying emphasis. When cars are dominant, consider trails instead of bike lanes and sidewalks.	5/18/2022 12:27 PM
11	It's important that we move all our neighborhoods to mixed use and walkable.	5/17/2022 6:48 PM
12	Mobility and mass transportation must be prioritized, especially in light of fuel prices approaching \$5 a gallon	5/17/2022 1:57 PM
13	We are not creating such neighborhoods yet. Maybe we should start	5/15/2022 5:42 PM
14	This is very important within more urban locations and corridors. This allows for greater efficiencies for infrastructure, commerce and a community identity for the urban neighborhoods.	5/14/2022 1:31 PM
15	Continue? You're building suburbs at an ever-accelerating rate. Stop all new construction of single-family homes and build exclusively multi-use neighborhoods, otherwise you will not create a sustainable city.	5/13/2022 9:08 PM
16	mixed uses along safe and accessible corridors will incentivize more sustainable mobility options	5/13/2022 3:57 PM
17	We need more sidewalks and bike paths and bike racks in order to navigate and get exercise in our various neighborhoods.	5/11/2022 8:34 AM
18	We definitely need better trans system to alleviate the traffic on the roads. We are moving at snail paces and I see dozen of auto accidents a day.	5/11/2022 7:54 AM
19	Improve public transit	5/10/2022 7:40 PM
20	Each neighborhood needs access to commerce. Not everyone can drive 20 minutes to get to	5/10/2022 2:48 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

	the nearest grocery store or gas station.	
21	Yes! Increase the love in the community. So many places are desserts of all three and it fosters independence in our younger community. Knowing that jobs, goods and services are not out of their way.	5/10/2022 2:31 PM
22	With tampa growing. We should have more access to major nearby cities such as Orlando and Miami. A bullet train or a better bus system would be amazing to bring to our city.	5/9/2022 10:36 AM
23	Consider the average age of the person living in the neighborhood.	5/7/2022 5:30 PM
24	Many people moving to Tampa say that Tampa had the worst traffic in the nation. Our streets need more lanes. Daily backups are a headache and make everyone miserable.	5/7/2022 1:58 PM
25	Variety is critical to healthy walking areas!	5/6/2022 10:54 AM
26	South Tampa does not have the capacity to grow more without drastically changing the neighborhoods that are in place. We do NOT want vertical growth in South Tampa (below Kennedy). The infrastructure in place now will NOT support a robust public transportation mode without destroying the character of established neighborhoods.	5/4/2022 5:43 PM
27	My commute is currently an hour in each direction everyday. It's not sustainable. I cannot get by without a car in this county.	5/4/2022 12:46 PM
28	I currently live in a food desert and without a car I am unable to buy groceries.	5/4/2022 12:44 PM
29	People need a sense that their neighborhoods are healthy. Having neccessities close is key.	5/4/2022 6:41 AM
30	In order for public transportation to thrive, people need to live near their work and where they play. Too many people rely on the car which should be unnecessary.	5/3/2022 5:53 PM
31	Yes, along the major roadways, but not into residential streets. Residential streets are for walking, biking, tranquillity and freedom from disturbance from vehicles wanting to get to a store, business, bar.	5/3/2022 1:09 PM
32	I strongly believe we need more diverse ways to move in our communities. Currently we live and die by the car. What I mean by this is if you want to go from point "a" to point "b", it doesn't matter how short that distance is you have to use a car. I feel this system is inefficient, costly, and dangerous. Creating walkable, bike-able, and public transit orientated city and towns can be a solution.	5/2/2022 11:24 PM
33	Neighborhood commercial/office within walking distance is a critical Transpo alt	5/2/2022 2:58 PM
34	we all strive or the good life. easy access to things listed are a positive thing	5/2/2022 11:34 AM
35	Expand the Streetcar system, Tell FDOT to stop buildings more roads and disecting our Neighborhoods.	5/2/2022 11:19 AM
36	Amenities are critical. Nearby amenities reduce the number and length of car trips.	5/2/2022 9:05 AM
37	If the Planning Commission and the Clty wanted this, they would allow for commercial in residential areas.	4/29/2022 11:56 AM
38	Better Public Transit. Frequent Buses. Expand the Streetcar system. Provide commuter rail across the bay area.	4/28/2022 12:07 AM
39	The continuation of the street car and Riverwalk excellent way of connecting everyone. I also this boats going between here and St. Pete should run regularly	4/27/2022 9:07 PM
40	not practical that all is w/i walking but w/i 5 miles makes sense	4/27/2022 8:05 PM
41	Variety is the spice of life! People need options because everyone's situation is different. Also, having options means I don't have to drive everywhere which would be a big win!	4/27/2022 11:12 AM
42	Need to have access to jobs	4/26/2022 9:26 PM
43	We need to rapidly expand our TECO streetcar line up beyond just Tampa Heights, but to Seminole Heights.	4/26/2022 1:39 PM
44	There is way too much growth at once.	4/26/2022 11:59 AM
45	It is important that people have the freedom and choices to have many ways to access the	4/26/2022 10:44 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

	important things in their life.	
46	Well, many times living and the importance of working to strive for a better life, has never been easy, nor hope for many Floridians who have no way to travel, who have traveled far on bike bus foot or shared rides, it becomes to overwhelming and feels like a burden. If many jobs of mini Cities of Tampa, with the City of Tampa than more more of us can complete a days work, increase the income for the revenues, also allow many of us not to feel we are stuck, why bother going to school, or get ahead, when it is too far to work a job i studied for but no way to get there or all my hard working money goes into traveling and day care.	4/25/2022 6:00 PM
47	Consider providing on street parking for delivery vehicles. Channel District has no such parking creating immense problems.	4/25/2022 1:47 PM
48	"Complete" streets for all users most important	4/25/2022 12:01 PM
49	Accessibility is super important for every citizen's quality of life. More and more people want to live in walkable cities including myself for the convenience and for a healthier lifestyle.	4/24/2022 10:29 PM
50	Super important. We should be connecting parts of Tampa through high speed trains, not just buses (which don't have the capacity / ease of access / buy-in from the public that a high speed train would).	4/24/2022 3:30 PM
51	Because it would help the environment to have them concentrated	4/23/2022 2:23 PM
52	People in the same place to make friends and connections and socially bond	4/23/2022 2:14 PM
53	Some places should have a mix and others shouldnt	4/23/2022 1:44 PM
54	How and how easily a city's residents get to their places of employment are a crucial factor in defining the overall wellbeing of any urban experience.	4/23/2022 1:39 PM
55	Walkability is unachievable through single use zoning. A mix of uses with safe, comfortable, and interesting pedestrian access is a must.	4/21/2022 10:23 AM
56	Who ever thought of the roundabouts had good vision. Keeps traffic moving	4/20/2022 3:25 PM
57	I live in Ridgewood Park which is in close proximity to the River Walk, Armature Works, and northern downtown area and theoretically within walking distance, except our neighborhood is not walkable. The sidewalks are sparse and non-continuous, and until the traffic calming project is complete, it's not safe for pedestrians or bicyclists, even after the traffic calming, it still may not be safe. I would be thrilled to never have to drive my car and support initiatives for pedestrian- and bike-friendly improvements in our neighborhood.	4/20/2022 2:10 PM
58	It cuts down on traffic, carbon footprint, etc.	4/19/2022 2:53 PM
59	Sure it should be included in the plan, but whats the practical means to accomplish this goal? Walkability and density are a good place to start.	4/18/2022 9:45 AM
60	We need more walkable neighborhoods rather than car-dependent ones.	4/16/2022 7:09 PM
61	The location and residential density of these neighborhoods is key to successful growth.	4/16/2022 4:45 PM
62	You drive to what you need in Tampa.	4/15/2022 8:24 PM
63	It is extremely important to create more space for people to live, as Tampa's population is still increasing quite dramatically. Urban sprawl will ruin this city. We need to structurally encourage people to bike, walk, or take the bus to work and school.	4/15/2022 5:12 PM
64	I have emailed about this when Buckhorn was mayor.. he probably was a lame duck back then I think.. October 2019 I believe it was.. we need to beat European cities and teach American cities. Steal the beacon of progress from New York and California.. this would be the finest of those beacons we will have here in sunny FLORIDA	4/15/2022 1:52 PM
65	We definitely need a lot more public transit and protected bike lanes throughout the city	4/14/2022 7:23 PM
66	Millennials want public transportation and walkable amenities.	4/14/2022 3:15 PM
67	We desperately need mixed use and walkable/bikable places distributed across the city. People flock to Ybor City and SoHo, why? Imagine if we recreated Ybor Cities across the county. St Pete has created lovely village centers where previously there were neglected	4/14/2022 10:43 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

homes and a corner store. Mixed use, dense walkable places are more sustainable, they're more beautiful, they create community and we need them desperately.

68	This is a nice idea, but it cant be done if it increases the cost of housing for existing or future residents. Afford housing should come first.	4/14/2022 10:03 AM
69	Currently developers are held to little or no standard to increase quality of life where they develop. Hold them to higher Standards incorporating mix use developments and walk ability.	4/14/2022 9:48 AM
70	Too many strip malls with parking out front have been developed. There are often no sidewalks. We need walkable, bikeable communities NOW.	4/13/2022 11:00 AM
71	15 minute city	4/13/2022 10:15 AM
72	With millions moving to Florida we can accommodate growth and protect rural and wildlands by drawing people into our city centers. We do this by making them a place to work, play, AND live.	4/12/2022 10:37 AM
73	As far as the City goes most neighborhoods are very established. This is important as our older neighborhoods redevelop and should be prioritized in redevelopment plans.	4/6/2022 3:12 PM
74	Does this mean creating additional neighborhoods or creating existing neighborhoods with easy access to jobs, goods, etc.?	4/6/2022 6:51 AM
75	While we need to continue "creating "neighborhoods along complete streets, we must also focus on restoring the vibrancy of the many small commercial districts we already have by implementing CSs. Please establish 15 – minute neighborhoods In which residence can acquire most of their daily living needs within a short walk or bike ride.	4/5/2022 5:43 PM
76	Creating neighborhoods makes me uneasy because it sounds like potential suburban sprawl. I am all about strengthening the urban core and the old Tampa neighborhoods and providing affordable housing in those areas, with walkable access to businesses and leisure activities.	4/5/2022 4:03 PM
77	I would say "a variety of affordable and convenient ways to get to them". There are a variety of ways to get around now but a car trip that takes 20 minutes may be an hour or more by bus.	4/5/2022 2:44 PM
78	We need 15-minute neighborhoods! Otherwise all we have is traffic, which only separates and divides people.	4/4/2022 2:03 PM
79	Access and local sense of being is important	3/29/2022 12:50 PM
80	It is extremely important that we can simply travel from one Tampa neighborhood to another without relying on the heavily-burdened i275.	3/29/2022 10:35 AM
81	Better public transit, not more, wider highways	3/29/2022 8:22 AM
82	It is important to fix zoning to increase housing density to create areas with a blend of residential and retail	3/28/2022 6:16 PM
83	I think unsafe traffic is the biggest issue in the city.	3/28/2022 5:16 PM
84	Change most places to mixed use. Remove mandatory parking minimums. Make bike lanes that are a different color and ideally have a concrete separator to protect from cars. Raise sidewalks so cars can't ignore pedestrians (notice how sidewalks dip down into the street), also a raised sidewalk serves as a speedbump. Not Just Bikes is a good YouTube channel on these matters.	3/28/2022 5:09 PM
85	Rail, bike paths, and buses (or large vans) need to be part of this city. The continued car dependence has to phased out. Part of the 2045 plan should include "no car" zones that are just dedicated to pedestrian/bike/scooters.	3/28/2022 4:38 PM
86	Having lived in many cities, having access to public transportation in order to access stores, other communities, and jobs is vital to the success of a city.	3/28/2022 4:05 PM
87	I would love to see education on this list.	3/27/2022 9:51 PM
88	These endeavors/"improvements" should not be funded by even higher taxes which will negatively impact the cost of living. Inflation is already negatively impacting quality of life for the lower and middle class.	3/25/2022 10:46 AM
89	A rail line that goes up and down Bayshore and connect to the rail downtown would be helpful	3/25/2022 5:08 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

90	This is not only beneficial for supporting small, community business growing real wealth, it's also good for the city to generate more funds without relying on tax hikes. Most importantly we need to put PEOPLE first in our cities, not cars.	3/24/2022 2:58 PM
91	"Complete streets" is a catch-all phrase in modern mobility; it can vary by street size, use, location and not all are viable for "mixed use".	3/24/2022 6:16 AM
92	There should be significant commercial space within every Tampa neighborhood so people don't have to drive.	3/23/2022 6:52 PM
93	I was a commuting cyclist during the 30-odd years of my working life in Tampa and continue to bicycle for exercise. I see continuing evidence of growing participation and interest in cycling for transportation and fitness.	3/23/2022 12:43 PM
94	Not having to travel far for work, shopping, etc. will help with traffic, quality of life and personal finances as gasonline and time are not wasted.	3/23/2022 8:58 AM
95	The focus should be reliable ways to access other than cars\personal vehicles.	3/22/2022 8:49 PM
96	The government does not create neighborhoods, developers do. The government can only incentivize certain types of development but that comes with trade offs.	3/22/2022 7:10 PM
97	The Comprehensive Plan needs to focus on neighborhoods that are connected, lively, and thriving—this requires improvements in infrastructure, public transportation, greenery, lighting, access to jobs—all within a reasonable distance to residents and their households. Trees need be added along the streets and sidewalks to provide shade, especially during the summer months.	3/22/2022 2:37 PM
98	Yes! It's very important we have safe places where people can walk and bike throughout Tampa. We should also develop areas with mixed use spaces that are in walking distance of residential areas to promote walking and biking and help take gas vehicles off the road.	3/22/2022 1:27 PM
99	We need to be a leader in Florida for walkability and transit. Tampa is a city on the rose, and of we grow in the right way we can do things better than Florida's typical dependence on cars	3/22/2022 1:09 PM
100	Hillsborough County is too spread out to expect to work live and work in the same area. Time and money would be better spent improving our roads.	3/21/2022 3:02 PM
101	Our lack of public transportation is a huge problem.	3/20/2022 11:27 AM
102	Slow the growth, there are too many people here already. We can't go anywhere as it is too dangerous with all these cars on the road.	3/19/2022 8:21 PM
103	All modes of transportation are critical to enhancing our City and providing multiple options (i.e. roads, bicycles, scooters, walking, bus, future light rail, etc).	3/19/2022 4:35 PM
104	GET US PUBLIC TRANSPORTATION	3/19/2022 12:43 PM
105	MORE PUBLIC TRANSPORTATION IS NECESSARY PLEASE! :) If we want to continue to grow and be attractive to young professionals and families we need easier ways to get around and enjoy all the things Tampa has to offer	3/18/2022 5:28 PM
106	More bike and scooter lanes, please	3/16/2022 8:34 AM
107	CURRENTLY PUBLIC TRANSPORT IS NOT ACCESSIBLE TO ALL, OR BUSSES THAT COME FREQUENTLY AND HAVE MORE STOPS	3/15/2022 3:03 PM
108	Fix surrounding areas of Ybor City to make it a desirable place to live and work	3/15/2022 8:44 AM
109	Mix use of residential and commercial with landscape and complete streets	3/15/2022 7:44 AM
110	We already have too many neighborhoods i am seeing way to much history dissappear just to put up a new housing complex or apartment building	3/14/2022 9:59 AM
111	With Tampa's growing population, Tampa should focus on the creation of public transportation in order to mitigate the awful local traffic problem. Additionally, we should do our part to reduce carbon emissions by reducing the number of commuters on the road.	3/14/2022 9:18 AM
112	Better public transit and walkable streets would make this city even safer for everyone	3/14/2022 8:57 AM
113	vitaly important to the health of our community	3/14/2022 7:58 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

114	These are the things needed to combat concentrated poverty and close the gaps in opportunity that we see between races, genders, income-levels, etc.	3/11/2022 6:12 PM
115	Florida transportation infrastructure cannot handle the population as it is. Until there are better roads and freeways all neighborhoods will be gridlocked.	3/9/2022 5:58 PM
116	Streetcar or rail system PLEASE PLEASE PLEASE - everyone who is 30 or younger wants this for OUR future	3/9/2022 4:02 PM
117	Mixed uses encourages people to walk. Neighborhoods should include a mix of looking grocery and shopping options.	3/9/2022 11:32 AM
118	I really don't enjoy driving and wouldn't have a car in Tampa if I had the option to walk or take better public transportation everywhere. It's better for the environment. Traffic would be better, streets would be more lively and beautified if tailored to pedestrians where as frankly, many streets in Tampa right now look like boring highways you can find anywhere else in this country. I'd love light rail or a further extension of the trolley system. Rapid bus transit, autonomous vehicles. All great too! Most importantly, mixed use and walkable neighborhoods create more opportunity and inter connectivity between all individuals because a car is not needed to complete basic activities or to stay employed, etc. Tear down our highways cutting off neighborhoods from a better quality of life!	3/6/2022 9:40 AM
119	Driving is no longer the cool thing to do. Millennials and Gen Zers (the future of our country) don't want long commutes sitting in their cars. They want to walk, bike, and feel the fresh air. The American city was built around the car and now it's hard to find a live/walk/play environment that doesn't also charge \$2,000 for rent. My belief is that these areas should be the norm and not the expensive alternative, just as they are in European cities. This will help make our citizens healthier, our communities stronger, and our cultures more pronounced. Here is a great video about Barcelona's superblocks that I would love to see used in Tampa. Essentially you ban cars from smaller inner roads and only allow them on the major arteries. Give the cities back to the people! <a href="https://www.youtube.com/watch?v=ZORzsubQA_M">https://www.youtube.com/watch?v=ZORzsubQA_M</a>	3/5/2022 12:28 PM
120	I support public transportation capabilities and walkable/bikeable cities.	3/3/2022 4:33 PM
121	I think sidewalk widening and making places pedestrian friendly needs to be a focus. Also, better mixed use communities would allow for less car dependency.	3/3/2022 2:42 PM
122	Stop with the bike paths along roads. it cost a LOT and still not safe. instead pave some nice trails in parks and other areas. cars and bikes do not mix well. stop mixing them... people can die.	3/3/2022 9:56 AM
123	Getting rid of "strokes", allowing for walkability and alternative transportation methods. Reducing parking minimums and horrible building codes that contribute to urban sprawl.	3/2/2022 8:03 PM
124	Bring in small businesses, not more cheaply built apartment units. We need pubs, little league parks, and restaurants on the water.	3/1/2022 10:32 AM
125	Note: Keep a separation between residential and industrial.	3/1/2022 8:24 AM
126	prefer to see existing neighborhoods invested in and improved rather than creating new ones	2/28/2022 2:17 PM
127	Without a variety of ways to get places, traffic becomes a nightmare.	2/26/2022 4:15 PM
128	Sidewalks are needed in many areas currently. I am in south Tampa & while there are blocks & blocks where you must walk in the street with cars because there are no sidewalks	2/26/2022 1:44 PM
129	Would like the trolley to be extended and expanded into additional areas like south of Gandy neighborhoods and midtown. Something like the "L" in Chicago.	2/25/2022 8:57 PM
130	Many of our neighborhoods provided walkable access to grocery, entertainment and jobs. Unfortunately over the past few decades with the addition of highways many neighborhoods were divided and some of the commercial businesses vacated. Quite a few of those structures still stand and could be rehabbed and used for future businesses. When people have walkability to destinations close to their homes, it increases the desire to be in that neighborhood.	2/25/2022 2:13 PM
131	this should be the highest priority. We need bike lanes and sidewalks that are wide and safely separated from the cars. The 3 ft side walks that end in the middle of nowhere and the painted on 3 ft bike lanes ON the side of the roads are suicidal, so no one uses them, no one bikes, no one walks. We need light rail and street cars through Tampa (that includes New Tampa) not	2/25/2022 10:31 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

just in downtown. Look at other cities our size, look in Europe. Built something modern, clean. Even Charlotte has lightrail now. We are not attractive to young active people. If we built it they will come.

132	Lifestyle in this busy world is increasingly important and time is valuable. Being able to live in a place that is also walkable to restaurants and shops is key in the future nucleus of our lives	2/25/2022 8:38 AM
133	Improve the public transportation in Tampa. It's horrible. It takes about 2 hours to get just a short distance. People funded it, so use the money!	2/24/2022 7:04 PM
134	Not sure what this means.	2/24/2022 6:30 PM
135	NO MORE BIGGER HIGHWAYS PLEASE!	2/24/2022 4:17 PM
136	We need more walking trails an biking trails from north Tampa (USF area) and Seminole heights/sulpher springs to downtown areas. There are many modes of alternative transportation the city can consider and offer. PLEASE CONSIDER A STREETCAR EXPANSION - this would benefit the youth in Tampa so much, especially university students!!!	2/24/2022 10:38 AM
137	My mother is a home owner in the community and she needs to be able to have access to the things she needs	2/24/2022 8:57 AM
138	Planned Developments that include restaurants, schools, libraries, parks, shopping and homes within neighborhoods reduces traffic, air pollution, and increases neighborhood pride and quality of life. Support more planned developments.	2/24/2022 7:57 AM
139	Transportation has to be the number one priority including improving the roads...current structure will not support this growth.	2/24/2022 6:40 AM
140	Tampa needs to improve it's transportation system. Tampa residents who don't own a car are very limited in which activities they can partake of.	2/24/2022 1:42 AM
141	Need more crosswalks on dale mabry!	2/23/2022 5:06 PM
142	As long as it prioritizes PEOPLE that are actually living here already & not displacing them for gentrification/capitalism.	2/23/2022 1:37 PM
143	Government's idea of a "mix useage" is generally very different fro the person who lives in that neighborhood.	2/23/2022 12:41 PM
144	Bringing in tech companies will not help with Tampa's homelessness issue. They need variety and accessibility.	2/23/2022 11:45 AM
145	Planning for appropriate amounts of grocery stores, gas stations and other necessities is extremely important when considering land use. Creating thousands of new apartments without considering the impact of grocery stores and others is a misfortune	2/23/2022 11:37 AM
146	My concern for El Prado is that no one lives in the area and doesn't understand the flow. I believe the plan in place now is much more dangerous that just leaving El Prado as it is.	2/23/2022 11:35 AM
147	Transportation is key to the progress of our community. It helps to reduce traffic accidents (safety), provide access to employment (financial health), and lessens gridlock so first responders can provide better services to the community. It also provides more employment options for those with limited transportation.	2/23/2022 11:15 AM
148	Careful with mixed use. Good to have when you're creating apartments and condos - to have that retail on the first floor. But not really the same when you're talking an auto shop or a car wash that backs up to a neighborhood	2/23/2022 6:42 AM
149	Progress isn't always progress.	2/23/2022 12:47 AM
150	No more "creating" neighborhoods! Let's take care of those we already have!	2/23/2022 12:08 AM
151	The current Comp Plan is inadequate since it allows single uses within mixed use designations. This needs to be corrected. Single uses need to be the rare exception.	2/22/2022 10:05 PM
152	I see our city eventually moving away from the car-centric environment and complete streets would be part of that paradigm shift. The city missed a major opportunity to create a complete street on Bay to Bay. Those of us who live in the area would like to be able to walk to area businesses without fearing for our lives. Unless there is a plan to buy up a lot of expensive real estate, there is no way to widen MacDill, Himes, Dale Mabry, or Westshore, so north-south	2/22/2022 9:48 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

routes will need to be traversed by more public transportation with a shift away from single passenger cars. I would actually like to see MacDill become a complete street. I think Columbus between Dale Mabry and Nebraska could also become a complete street, as should Main St. in West Tampa

153	We need to make a commitment to mass transit in educated ways. We need to find attractive ways to get commuters downtown to jobs. A monorail system that uses the center of existing interstates, large roadways and corridors...We need real engineers and city planners. The high rise that runs above Gandy was a major waste of money for 4 blocks. Run Dale Mabry, Kennedy, to the airport monorail.....	2/22/2022 9:47 PM
154	Side walks a must	2/22/2022 8:18 PM
155	South of Gandy can be developed as MIXED USE when high density is desired.	2/22/2022 8:08 PM
156	I live down in Port Tampa. Tons of houses and apartment complexes going up but no mix use. We need grocery, shops and restaurants	2/22/2022 7:56 PM
157	Sidewalks are nonexistent and often not maintained. Apparently not repaving streets is seen as a way to slow traffic down in housing areas.Traffic intersections and crossings are very dangerous for pedestrians in present day Tampa. Bike paths are inadequate. Mass transit system is insubstantial.	2/22/2022 7:49 PM
158	Need more services in South Tampa to support all of the residential development	2/22/2022 7:22 PM
159	CREATING WAY TOO MUCH HOUSING IN SMALL AREAS. SUCH AS , SOUTH TAMPA. SOUTH OF GANDY. STOP OVER BUILDING!!!!	2/22/2022 7:17 PM
160	Improve transit	2/22/2022 7:02 PM
161	Providing with the stores that are easy to get by bike or walking , more sidewalk for people to walk on , its dangerous for a lot people	2/22/2022 3:46 PM
162	The embrace home delivery of goods and work from home needs to be augmented with local, regional and state mass transit.	2/22/2022 2:45 PM
163	Stop focusing on cars. Start focusing on all other modes of transportation.	2/22/2022 2:10 PM
164	East access...ha...that is never going to happen in Tampa. It is not easy or quick getting around the city; especially south Tampa where apartments are being overbuilt and the roads cannot handle it. Nice try.	2/22/2022 1:45 PM
165	Small business's are the cornerstone of happy and thriving neighborhoods and business corridors.	2/22/2022 1:34 PM
166	Yes, we should rethink our zoning strategies in order to put people in close proximity to things without the need of having to spend billions of dollars in unsustainable transportation fantasies.	2/22/2022 1:18 PM
167	Sidewalks in existing neighborhoods should be addressed with rising traffic there is nowhere safe there walk.	2/22/2022 1:01 PM
168	I believe there needs to be areas of the city with greater access/protection for bikes and pedestrians. Bike lanes would be much safer if they had barriers or protections. Regularly closing certain streets and allowing pedestrians to walk in the road would be great for safety and better community events	2/22/2022 12:57 PM
169	the way the city is growing uncoordinatedly, we really need it. there are a lot of hit and run within the city, which is changing its characteristics so drastically. Neighborhoods aren't preserved at all. We only have temporary jobs for construction. We need more jobs. If the city approves a building to be built, at least made it mandatory to have business on its first floor. Do not create a concrete neighborhood without nothing to do or to go at.	2/22/2022 11:50 AM
170	People want cars. Period. We have a bus system. What a waste of money. They're virtually empty at the Britton Plaza station. Two people riding on bus with 50 seats!	2/22/2022 10:41 AM
171	Centralized commerical, shopping areas, and such should not be located close to residential areas. It makes the residential area more vulnerable to noise and congestion. Your home should be a sanctuary	2/22/2022 10:18 AM
172	Mixed-use neighborhoods are wonderful, but planning to make them pedestrian and bike friendly is imperative.	2/22/2022 9:26 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

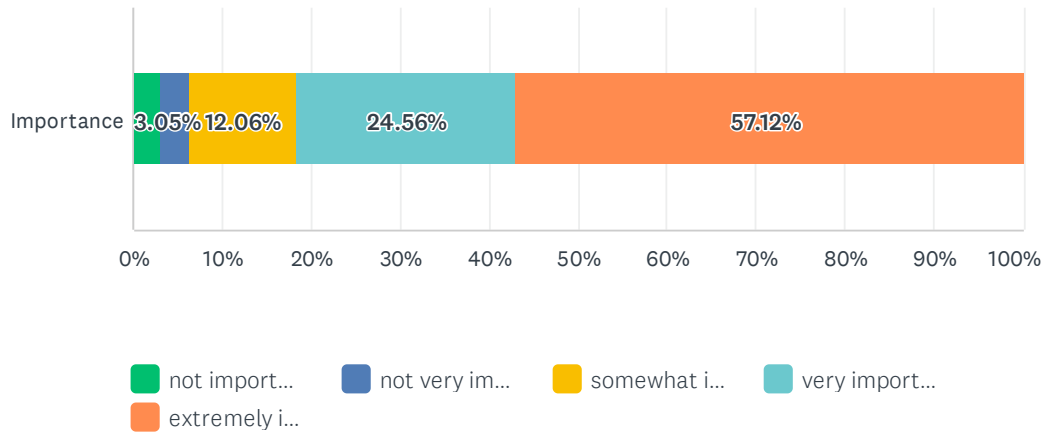

173	The only way to reduce our carbon footprint and save lives is to reduce the need for a car. Land use planning is desperately needed because our rate of growth will forever have us increasing capacity on all roads	2/22/2022 9:05 AM
174	I want the opportunity to walk or bike to restaurants and shops, but the roads are very dangerous and parking lots are hard to traverse.	2/22/2022 9:04 AM
175	There should be safe spots to bike, but most people are biking for leisure/sport, not commuting. I don't understand the push to reduce streets for bike lanes that will not be utilized. The last thing I want to do is show up for work sweaty or my child to school. There needs to be a few spots to park to enjoy the trails.	2/22/2022 8:49 AM
176	The less people have to travel the better for everyone: less traffic, pollution, accidents	2/22/2022 8:37 AM
177	The problem is now complete streets are still deadly streets. Until the city seriously imposes mitigation cost geared specifically for transportation in Lou of parking reductions we will never see this happen. Which comes first, the chicken or the egg?	2/22/2022 8:15 AM
178	This is not being done but should	2/22/2022 8:14 AM
179	If by complete streets you mean SAFE for bikers, walkers, children, and cars then yes. If you are just speaking of car-traffic then no. The lack of planning and prioritization for foot-traffic, light rails, etc. is literally some of the worst in the country... we've moved around a lot and this is the worst.	2/22/2022 8:10 AM
180	Diverse modes of transportation brings diverse types in the community together	2/22/2022 8:05 AM
181	City is letting massive apartments go up in South Tampa. These apartments are increasing density while also gobbling up much of the limited retail space. Increasingly we are losing options to dine and shop and having to fight more traffic to get to options elsewhere. City needs to have a mixed use policy on new buildings with some teeth. Don't let builders like Lum claim a shed for scooters makes a spot mixed use. Make the square footage significant and stuff non-residents will use.	2/22/2022 6:47 AM
182	With so many people moving here, you can't take away traffic lanes. You need to add lanes. Also most of won't bike during summer's intense heat & storms.	2/21/2022 9:46 PM
183	Resource deserts are real and sadly impact underserved communities more harshly	2/21/2022 9:09 PM
184	All city blocks and main thoroughfares connecting downtown, midtown and other points of interest should be required to have something for the community to engage with on the first floor. We cannot allow development that does not enhance the lifestyle of the community around it.	2/21/2022 8:38 PM
185	Very important. Walkable connected community that puts people first and not cars	2/21/2022 8:35 PM
186	We need to decrease our reliance on cars and increase walkability/bikeability.	2/21/2022 8:29 PM
187	Keep single family zoning protected!!!!	2/21/2022 8:19 PM
188	We need to end exclusionary zoning and single family zoning practices that make it impossible to integrate more fair zoning practices.	2/21/2022 8:14 PM
189	These words sound nice, but what does it really mean in real life? Creating new neighborhoods or improving existing ones? How do you create "easy access to jobs, goods and services"? These seem like market functions. "A variety of ways to get to them" Yes - how about vacating a street from automobile use (Ola, for example) and turning it into a greenline for peds and bikers. It would be nice if you could regularly ride your bike or walk in this city (to work, e.g.) without being killed.	2/21/2022 8:10 PM
190	The goal is shop locally and walk-ability is needed to encourage and build a lasting outcome.	2/21/2022 6:53 PM
191	Tampa's hubs should be made denser to accommodate future public transit to have true connectivity between communities	2/21/2022 5:56 PM
192	I mentioned to someone that we are in danger of becoming like Seattle - water everywhere and a few bridges to get us across. I think we will have to think very big - such as a few more crosstown(s) like the Selman. We have lived here for ten years and can already feel the density growth/traffic. Apartments are going up far faster than the roads can keep up with.	2/21/2022 5:48 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

193	Transit. Rail. Actual BRT. We need it.	2/21/2022 5:43 PM
194	access to transit is more important	2/21/2022 5:40 PM
195	the more walkable, and accessible, the better.	2/21/2022 5:37 PM
196	Stop with less lanes for traffic & more lanes for bikes!! You want to keep building more residences but reduce amount of lanes for the resulting increase in cars??!! Insane!!	2/21/2022 5:33 PM
197	i have super markets but need to travel for more things i want	2/21/2022 5:31 PM
198	"variety of ways to get to them"--strong transportation plan is critical to growing any vision for the future. No transportation, no bright future!	2/21/2022 11:18 AM
199	Bring Ray's and decriminalized marijuana usage to ybor city. Tech to channelside and river walk. Connect all of it.	2/20/2022 7:17 PM
200	No more new homes!	2/20/2022 6:46 PM
201	Mixed use development reduces car trips, makes jobs in our community, and improves walkability	2/20/2022 2:41 PM
202	I'm not sure if this relates to transportation infrastructure or mixed uses in neighborhoods which, while it created walkability, doesn't always work.	2/20/2022 10:58 AM
203	Love mixed use residential/offices over retail. Walkability is key	2/20/2022 1:50 AM
204	Need more comprehensive land-use categories to incentivize true mixed use development between transiting uses and inside neighborhoods.	2/19/2022 10:13 PM
205	I don't believe we need a pharmacy, gas station, grocery store within walking distance of each neighborhood, especially since the majority of people will continue using their car to get to these places	2/19/2022 6:39 PM
206	I like the building of complete neighborhoods to include green space, stores and other amenities to support live, work, play. However, I believe it would be more advantageous to include the current community members so original residents are not displaced.	2/19/2022 6:03 PM
207	Public transportation and communities with access to a selection of places to go and things to do within easy distance are a necessity.	2/19/2022 5:46 PM
208	More grocery stores are needed.	2/19/2022 3:29 PM
209	We need a walkable city, where each community has safe, walkable sidewalks that lead to grocery stores, shops and restaurants	2/19/2022 11:28 AM
210	Premium, fixed guideway transit, and a mix of complementary uses within TOD. It's past time.	2/19/2022 12:52 AM
211	We must adopt development patterns which reduce the distance in frequency of trips, especially car trips, to improve our quality of life and preserve our environment	2/18/2022 11:18 PM
212	Very important to the economic success of ALL residents, this to the success of the city as a whole. No one should feel left out.	2/18/2022 8:00 PM
213	Biking, walking, rolling, micro mobility, access to car travel for those who don't have it, access to places so you don't need a car. Equitable housing, land use, transportation, investment	2/18/2022 7:06 PM
214	Certain major crossroads should have more dense mixed use development. Even the suburban areas mini town centers can develop.	2/18/2022 7:03 PM
215	Access should be low carbon intensive (walkabilty and ebikes)	2/18/2022 1:57 PM
216	This would go a long way to reducing the need for personal transport and help the people of underserved communities be more independent and gain better access	2/18/2022 10:59 AM
217	Transit, transit, transit. Mixed-use development. Make it easy to not own a car in this city. Take a lesson from northern cities where it works. Charge a fair price for the streetcar and make it a viable option downtown. Have the HART system get out of the traffic patterns with dedicated lanes. How about some rail to get to other great places like the Manatee Viewing area at the TECO plant or out to Dunedin for some great Scottish influence.	2/17/2022 7:48 AM

## Q5 Housing and transportation choices for all: Prioritize the creation of housing and transportation choices that serve people across all incomes, ages, and needs.

Answered: 688 Skipped: 35

	NOT IMPORTANT AT ALL	NOT VERY IMPORTANT	SOMEWHAT IMPORTANT	VERY IMPORTANT	EXTREMELY IMPORTANT	TOTAL	WEIGHTED AVERAGE
Importance	3.05% 21	3.20% 22	12.06% 83	24.56% 169	57.12% 393	688	4.30

## Q6 (Optional) Please comment on why you rated this statement this way or state what you feel should be included in the Comprehensive Plan as it relates to this statement.

Answered: 211 Skipped: 512

#	RESPONSES	DATE
1	Reform house repair permitting - everyone who does any repair over 75\$ w/o a permit is breaking the law. It's not a safety issue in almost all cases. cut the red tape and free up the permitting dept for construction	6/4/2022 11:48 PM
2	We will always have families on different income scales and we must not disregard them and their contribution to society.	6/3/2022 4:38 PM
3	Don't need to force affordability. Some locations are simply more desirable. However, vast areas of overly expensive housing w/out transportation options is a disaster. Find spots to mix in affordable housing that is economically feasible ... that is does not require overly restrictive zoning or huge subsidies.	6/1/2022 11:41 AM
4	Safe, secure housing and transportation are a basic necessity! Without transportation, people cannot get to the supermarket, work, etc. Cars cost a lot of money many people don't have, and need costly maintenance. In addition, not everyone is able to drive.	6/1/2022 8:46 AM
5	More important is clean water & nternet access for all.	5/31/2022 8:24 PM
6	The people are what make this city, with out them, there would be nothing but just infrastructure. Communities thrive when everyone can be safe, happy and productive. We must all look out for one another, and that means in every way we can, making housing and transport more affordable, would provide more opportunities for every walk of life. We the people are like an investment, if the government provides with these items at more affordable prices, in turn we can help continue to make this city grow, metaphorically and literally.	5/31/2022 4:26 AM
7	Clearly housing and transportation are the 2 foremost planning issues holding Tampa back from being a GREAT city.	5/26/2022 12:52 PM
8	I work hard for what I have. Other should to.	5/24/2022 8:38 AM
9	I think the idea of light rail right now need to be placed on the back burner. Housing that is affordable with traffic access to major roads need to maintain. Over-development is bad and should not be recommended.	5/23/2022 5:54 PM
10	Affordable housing with beautification neighborhoods are important also transportation Tampa needs more rail system and mass transit in less cars on the road the future city should be a sign around mass transportation	5/23/2022 1:26 PM
11	Tampa is not equatable nor equitable in housing or transportation. Your focus and your allowance of such is greed especially in the last 10 years. You should be telling us what your visions are and how to stop your unconscious bias in your thinking	5/22/2022 12:34 PM
12	These are not zero sum games. There are down sides to the assumptions you are making. This is interference with market forces that have not been fully explored. Things like density can have terrible downsides.	5/19/2022 4:39 PM
13	Please focus on poor, low, and middle income housing. This is where the need is. Transportation should be more convenient and please put a shade cover on ALL bus stops.	5/18/2022 4:06 PM
14	Both need to be in the equation together for planning around the cost to live.	5/18/2022 12:28 PM
15	This would make the city a city, rather than a collection of dense suburban neighborhoods around a desolate, small urban core.	5/17/2022 6:49 PM
16	Housing needs must be balanced for all socioeconomic groups as well as a variety of transportation options	5/17/2022 1:59 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

17	This is extremely important but the delivery of this objective will be difficult due to the lack of priority within past decisions.	5/14/2022 1:32 PM
18	There's too much housing for the rich. Build exclusively for the poor and prevent the rich from buying houses.	5/13/2022 9:08 PM
19	Housing and transportation hold an above national average place in our county's household incomes. We need transportation options to open up more housing options.	5/13/2022 3:29 PM
20	Roads are way too crowded. Need more street lights	5/12/2022 11:41 AM
21	The current situation regarding development is so immoral. The environment is being ruined. The developments look like gulag no architectural design. Just greed from the developers.	5/11/2022 8:37 AM
22	We need more affordable housing as the high rents are pushing middle to lower income residents out. More and more seniors are on the streets. It's sad.	5/11/2022 7:57 AM
23	You have to manage TRAFFIC! This is a tough one to do when you do not invest in traffic reduction.	5/10/2022 6:42 PM
24	Several residents have told me that they needed to move out of the city limits because their rent increased by \$800 per month. This is not sustainable or equitable. And public transportation is essential to a growing city. Our trolley is convenient and free, yet we have no bus service in my part of town. So people without a car have to pay a fortune for Uber? Also not sustainable.	5/10/2022 2:51 PM
25	Yes, we are in the top 3 leading states of rent inflation. Keep all communities in mind as you grow.	5/10/2022 2:32 PM
26	I'm a local here and because of this inflation the locals here have nowhere to live. Instead of catering to cash buyers from NY and other northern states, we should prioritize the Florida locals to find housing	5/9/2022 10:38 AM
27	Affordable housing and transportation is key	5/6/2022 10:55 AM
28	In targeted areas of the city -- South Tampa is not where all the growth should go. South Tampa has the "feel" of a suburb and that's what people want.	5/4/2022 5:44 PM
29	We are getting priced out. There is no affordable housing in the county.	5/4/2022 12:46 PM
30	More affordable housing needed. Rents are too high for people on fixed incomes.	5/4/2022 12:45 PM
31	These choices are both important but should not be bundled together on surveys like this.	5/4/2022 6:55 AM
32	This is a no-brainer.	5/4/2022 6:41 AM
33	Everyone needs a place to live. However, I think it should be up to private organizations to create affordable housing and it should be financially beneficial (in terms of taxes) to do so. We want diversity of all ages, colors, nationalities, abilities, etc.	5/3/2022 5:54 PM
34	Tampa made huge mistakes with planning back in the early years, 1910 through the 1960's, which are very difficult for current planners (you) to overcome. One example is our Malfunction Junction. Truly amazing how a 1/4 mile curve became such a huge headache. Second mistake was not securing enough land on both sides of the Interstate for growth of that vital roadway for future generations of residents and businesses. Third was not making Ybor City a central point in planning. Folks in the 30s 40s 50s lived in and around Ybor City. You will not be able to get residents out of their vehicles and into a mass transit system. Stop increasing density within neighborhoods in the city of Tampa. Increase density only increases problems. Example, needing more schools. There isn't land available for new schools or expand current ones in South Tampa.	5/3/2022 1:17 PM
35	Diverse neighborhoods bring out the best of all of us. If we are secluded one another by socioeconomic groups, division is inevitable. We boil down to suburbs vs urban, rich vs poor, race vs race. Creating mixed developments is the solution to this. We create a more equitable society and also a more efficient, creative, and bountiful world.	5/2/2022 11:27 PM
36	Right now the transportation choices are limited if existing at all. It is relatively simple to go from N-S and from S-N but almost impossible to go from E-W or W-E. We need for public transportation that serves ALL the neighborhoods. Also there is a huge lack of affordable housing.	5/2/2022 4:20 PM

City of Tampa 2045 Comprehensive Plan Vision Survey

37	We are pricing folks of limited means out of our city	5/2/2022 2:59 PM
38	Both of these are important but plans have to include these things as they look into the future. If the transportation item isn't addressed all you have is a high density of unsatisfied people.	5/2/2022 11:36 AM
39	In the 1950's Tampa built buildings for Longshore Men right outside of Ybor. They turned into Section 8 and for decades filled the City with Crime and turned prime property into blight. In 1960, FDOT cut Ybor in half, thus completing its stance on dividing neighborhoods. It's 2022 and we are about to make the same mistake. We just tore down miles of blighted apartments and buildings in disrepair. From a school, to a dangerous park to numerous Sec. 8 Housing....I am stunned that we are now going to do the same exact thing (West River) and allow FDOT to expand even further into Tampa Heights AND create another flyover and new exit 1 in Ybor / Nuccio. Why did we spend \$150M in taxpayer money to keep the trucks out of our Historic District, only to allow them back in 6 years later?	5/2/2022 11:28 AM
40	Get cars off the roads. Workers shouldn't have to live an hour away from jobs because that's their only choice.	5/2/2022 9:07 AM
41	We need to get our heads out of our butts regarding transit. Not going to happen.	4/29/2022 11:57 AM
42	easier said than done but needs focus	4/27/2022 8:06 PM
43	Why wouldn't you serve everyone in your community?	4/27/2022 11:13 AM
44	So many people have no opportunity to live and support their families financially	4/26/2022 9:28 PM
45	Expand the streetcar line to Seminole Heights	4/26/2022 1:40 PM
46	Continuing to build is not going to solve these problems.	4/26/2022 12:00 PM
47	It is important to include the infrastructure that serves pedestrians, transit users, and automobiles in equitable manner.	4/26/2022 10:48 AM
48	Please stop overbuilding on R10. We want to keep Oakford park a family neighborhood.	4/25/2022 8:11 PM
49	This is very very important for ex: if The City of Tampa has a The Ybor Trolley for social and adventure and history. Than why not set up a location where many can leave their cars, or bikes, or drop off or easy to walk stations and coordinate a Trolley Train to various locations base of the necessities of work. Or a mini Amtrak for businesses and employees who live in Plant City and some do work in St. Pete. etc. if this occurs than safety is number one, no loitering, show a monthly badge or ticket for the month assigned locations pickup drop and on the clock schedule, just like the bus but a mini trolley or mini type of amtrak	4/25/2022 6:06 PM
50	Tampa making good effort on providing in town affordable housing. Mass transit is sorely missing, but may be impossible these days until there is a crisis.	4/25/2022 1:47 PM
51	public transportation is our biggest weakness in tampa bay and this needs to be addressed ASAP and be affordable and serve ALL communities	4/25/2022 1:14 PM
52	The more mixed use housing we have the greater diversity of people. This means we will have more opportunities for jobs and the more resilient our economy becomes.	4/24/2022 10:30 PM
53	High speed trains would be an easily accessible way for people across income levels to move around Tampa. It would also create jobs, and a portion of revenue could fund housing for folks who need it.	4/24/2022 3:31 PM
54	Yes different options be it would be boring and no one would want to come here	4/23/2022 2:23 PM
55	People are all different and like different things	4/23/2022 2:14 PM
56	Same as prior answer - how easily a city's residents get to their places of employment from their homes is a crucial factor in defining the overall wellbeing of any urban experience.	4/23/2022 1:40 PM
57	We have no transportation or affordable housing	4/23/2022 1:39 PM
58	It's too unaffordable to live here anymore. More strict rent control is a must	4/23/2022 1:10 PM
59	Vehicle ownership is costly. Add this cost to the rising cost of housing, and citizens are more likely to end up in an unstable economic situation. Tampa needs citizens spending more at local businesses and less in vehicle ownership costs.	4/21/2022 10:26 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

60	That's why we live to have good housing and transportation for all	4/20/2022 3:26 PM
61	I would like to see transportation options or alternatives that reduce reliance on cars. I would love to see ADA-compliant sidewalks and designated bike lanes similar to the Netherlands.	4/20/2022 2:15 PM
62	More affordable housing, mixed use housing, and reliable transportation is essential to making living in and near the city accessible to all.	4/20/2022 11:56 AM
63	Again, there's no shortage of luxury units and options for people who drive personal cars. What we need is more attainable housing, not through mandates, but density. This ties into my last comment.	4/18/2022 9:46 AM
64	The Tampa City Council needs to allow more density, have fewer restrictions, and encourage the development of more housing, including tri and quadplexes.	4/16/2022 7:09 PM
65	Housing and transportation are two different issues. People that have lived in Tampa their whole lives are being priced out. The transportation is fine.	4/15/2022 8:27 PM
66	Our economy needs all these people to keep growing.	4/15/2022 5:13 PM
67	Basic right! Duh! I hope I will be able to contribute both my time and finances when this happens, for the people of Tampa Bay.	4/15/2022 1:53 PM
68	We need to have better housing options with a focus on more attainable and affordable options for home buyers, especially so people will not need to leave their neighborhoods if they don't want to.	4/14/2022 7:25 PM
69	Stop taking opportunities away from poor people by helping the rich gentrify areas.	4/14/2022 3:15 PM
70	Equity - as a government entity, you must focus on providing housing and mobility options for those who cannot provide for themselves FIRST, although providing it at an equal rate would be an improvement to what it is currently.	4/14/2022 10:43 AM
71	This, above almost everything else should be a priority. Stop letting development companies force people out of good locations through gentrification.	4/14/2022 10:05 AM
72	Can't emphasize enough how important this is. I'm making \$60k a year and can't afford to live in Tampa.	4/14/2022 9:59 AM
73	Look at the crisis we are in currently? Density is shunned in the area and people have to fight to get a chance to live close in the city. Need transit oriented development making it easy to live and commute in an area without a car.	4/14/2022 9:50 AM
74	We need to demand a portion of every development to be designated for 'low-income' people/families. No more 'low-income' mass developments - people with lower incomes should be located proportionally everywhere.	4/13/2022 11:02 AM
75	I also think people need to be realistic about the size of house they need and the openness to live in diverse neighborhoods. I lived 4 years in Sulphur Springs and loved it.	4/13/2022 10:16 AM
76	This also needs to be affordable. The options right now are almost laughable on these topics. There is housing, but only if you are wealthy. There is transportation but nothing that promotes not having a car. Getting around this metro area requires a car and lots of time. Neither of these promote a balanced life.	4/12/2022 4:49 PM
77	Tampa is often called the city of the future. But we have no future without an extensive and comprehensive public transportation network that is as considerate of the environment as it is of the communities it serves.	4/12/2022 10:39 AM
78	We are sorely lacking in both affordable housing and transportation needs. This should be the major focus of the plan update. We need to address the lack of short term rental regulation and corporate buy ups of single family homes. They are putting the squeeze on renters and home owners. This should be addressed in the housing element.	4/6/2022 3:26 PM
79	Diverse income levels should be mixed throughout the city, rather than islands of low income residences in some locations, and areas of unattainable highly priced housing locations in others. In order to provide housing that is within car-free access to jobs, we need a variety of housing types, developer requirements, and gentle density in every Tampa neighborhood.	4/5/2022 5:50 PM
80	Yes to affordable housing but mixed in with other housing stock so that you don't create new ghettos. Yes to sidewalks and dedicated bike paths. Yes to good public transit.	4/5/2022 4:04 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

81	Relying solely on cars leaves out the needs of a third of our community. Maybe we would have fewer cultural/racial divisions if everyone had a fair chance at getting to work, etc. rather than only those with cars.	4/4/2022 2:05 PM
82	Affordable housing should be included in mixed use buildings. Too much deed restricted housing and buildings look cheap. Affordable can also mean more smaller units for smaller households	3/31/2022 5:25 PM
83	Affordable housing near jobs	3/29/2022 2:19 PM
84	Equitable housing and transportation for all users and socioeconomic ranges	3/29/2022 12:51 PM
85	Tampa neighborhoods must offer housing options for people at every income level. The situation currently caters to those with generous means and those who are most in need, with everyone in the middle being pushed out to the outskirts and surrounding cities.	3/29/2022 10:37 AM
86	Too much of Tampa is paved for parking. Build housing density downtown where public transit can be effective. Don't spread Tampa's housing out where people have to drive everywhere.	3/29/2022 8:25 AM
87	A comprehensive transportation plan needs to be created to connect Tampa without the need of a personal vehicle.	3/28/2022 11:14 PM
88	Tampa has an infuriatingly limited transportation network. Public transit is a right and of huge importance for equity and to fight climate change	3/28/2022 6:16 PM
89	More comprehensive transit options that create a city where a car is not needed is the best thing that can be done for affordability. Incentives for workforce housing should be stronger.	3/28/2022 4:41 PM
90	The cost of living should not be a issue for people. We get things change but this is not the Tampa I know and as far as transportation we need extended roadways and lanes because traffic being heavy at 3:30 is not good	3/27/2022 8:36 AM
91	The financial cost of these improvements should not put the burden of paying for them onto taxpayers. Inflation is already negatively impacting our cost and quality of living.	3/25/2022 10:50 AM
92	Stop putting mid-rise low income housing downtown. Building low income high rises like St. Pete. And stop focusing on buses - no is giving up a car to take a bus.	3/23/2022 6:53 PM
93	Simply reading the local news makes this an obvious choice.	3/23/2022 12:44 PM
94	A thriving community serves all people and all people contribute. It is simply better for everyone.	3/23/2022 8:59 AM
95	Of course. Americans have been falling behind. Gentrification is pushing them out to the edges.	3/23/2022 5:40 AM
96	Important, but we don't need to provide housing to those who can already afford it. But if that is the goal, this should only be achieved by eliminating mandatory parking minimums.	3/22/2022 8:51 PM
97	Sounds great! Why would anyone not want to prioritize things that benefit everyone.	3/22/2022 7:15 PM
98	I relocated here from DC during the pandemic. I make good money. My rent is now higher than what I paid in DC and my apartment here is not as nice. Rent prices are out of control.	3/22/2022 3:54 PM
99	Tampa needs to get rid of the highways that bisect and divide the city. 275 needs to become a grand boulevard.	3/22/2022 2:45 PM
100	We are currently going through a rental/housing crisis. Rent is too expensive when you compare it to the quality of life of the area and access to services (i.e. public transportation, parks, and jobs.) We need to improve this. Affordable housing needs to be a priority	3/22/2022 2:38 PM
101	People who live and work in Tampa must have reliable public transportation and affordable housing. Especially with uncertainty around oil/gas, it's paramount that we address this. We can utilize Tampa-specific solutions to address our unique needs! The streetcar is a great start but needs to be expanded. Also, the ferry is a great way to keep Tampa and St. Pete connected.	3/22/2022 1:30 PM
102	If Tampa grows as a place where only the wealthy can afford housing and transit, our culture will not thrive	3/22/2022 1:10 PM
103	Affordable housing and transportation should focus strictly on lower incomes. Middle and high	3/21/2022 3:07 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

	income earners can make their own choices. Mixed use is not a valuable use of tax dollars.	
104	Current housing rules should be enforced. Flexibility should be a primary consideration planning for transportation planning. Cities are organic, they change over time, the plan shouldn't try to anticipate the actual change but it needs to be able to adjust easily to new directions.	3/20/2022 10:27 AM
105	You totally neglect the people that were here to begin with, and service only the needs of the newly arrived people. SAD. Those that have been here for years thought it was a rural area and now you have made it a New York City.	3/19/2022 8:23 PM
106	Affordable housing across the City is important to balanced & healthy growth. Transportation will play a key role in the growth of our region, while retaining the things that make Tampa special.	3/19/2022 4:37 PM
107	Affordable housing has quickly become a thing of the past in this city...without that OR reasonable public transportation, we will always be second-rate at BEST. Our politicians seem to show NO commitment towards making the Bay Area a good place to live.	3/19/2022 12:44 PM
108	Rent control is crucial and I can't emphasize public transportation enough. So needed here	3/18/2022 5:28 PM
109	Avoid cheap (not "inexpensive") poorly made homes. They don't last long and create eye sores. Inexpensive, and "good", is desirable	3/16/2022 8:36 AM
110	HOUSING COSTS ARE EXTREMELY HIGH IN EVEN LOW INCOME AREAS AND AREAS WITH HIGHER CRIME RATES, STREETS FULL OF TRASH, LOTS OF HOMELESS PEOPLE, ETC.	3/15/2022 3:04 PM
111	If all people can afford housing it will become a more desirable place to live and work	3/15/2022 8:46 AM
112	Create housing and transportation enables people to find employment to support the families	3/15/2022 7:50 AM
113	Addressing Housing and transportation issues in North Tampa specifically. I notice that N Tampa does not have nearly as much infrastructure put into it as South Tampa does.....	3/14/2022 1:44 PM
114	Everyone no matter how low pay of a job they have should be able to afford to get a place	3/14/2022 10:00 AM
115	Yes, yes yes! Extremely important. A note on housing within the Tampa bay area: we must put caps on rent. We are pricing people who have lived here for generations in favor of developers and real estate moguls who are hiking up the rent prices. It's unacceptable, and we need to do better.	3/14/2022 9:20 AM
116	we have been in and continue to experience a housing crisis and transportation deserts in this county. something has to change.	3/14/2022 7:59 AM
117	Is very limited actually.	3/12/2022 8:03 PM
118	The population is increasing without the infrastructure to support it. The roads are too small.	3/9/2022 5:58 PM
119	Please address people buying up properties as investment properties and then only renting/air bnb'ing them out for few weeks/months a year instead of allowing someone who actually wants to live there to buy the property	3/9/2022 4:04 PM
120	Transportation needs to be thought of outside of cars and busses. Commuter trains through the city will bring Tampa to the next level of being a true big city.	3/9/2022 11:33 AM
121	Tampa's average household income is still lower than the national average as far as I'm aware. Only very few and transplants can afford these expensive new condos and apartments. These is a place for both affordable housing, but it feels like expensive housing is being built disproportionately. Serve the existing community and new people moving to Tampa at the same time and create opportunity for them both. I for one would love to be able to take public transportation around Tampa. Public transportation extends more opportunity to people who cannot afford cars as well.	3/6/2022 9:46 AM
122	The cities that thrive have great mass transit. Busses work fine but can easily be cut and removed by the next administration. Iconic cities such as San Francisco has their trolleys, New York City has their subway, and Tokyo has its high-speed rail. These are massive cities with cultural influences that people want to live in. Their great urban design and ability to get to anywhere quickly are why. Mass transit also helps with affordable housing. I wouldn't mind living in the cheaper "suburbs" if I could get to the riverwalk within a 10 minute trolley ride. Also	3/5/2022 12:35 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

rent is exploding in price, especially lately, and if we want a diverse city for all classes, we need to make it affordable for everyone.

123	Not everyone can afford to live in a city. However, make it affordable to commute here (public transportation).	3/3/2022 4:34 PM
124	stop the subsidies, this does not stop the market forces from increasing prices. if anything it adds to the demand. concentrate on lower cost and fixing up old areas. No free handouts. Why should my money go to pay for someone else's rent??. just allow lower-cost housing. tiny homes, duplexes.	3/3/2022 10:01 AM
125	Zoning changes, reducing or eliminating single family zoning. Making more walkable neighborhoods. Expanding public transit, making PROTECTED bike lanes not just painted lines, bus only lanes, no more expanding lanes instead give alternative transport options.	3/2/2022 8:05 PM
126	More so the housing than the transportation services.	3/1/2022 11:47 AM
127	DONT CHEAPEN TAMPA! Fix the roads and drainage first and stop building cheap apartment units with Soviet era architecture.	3/1/2022 10:33 AM
128	mass transit, including street level rail, is extremely important infrastructure	2/28/2022 2:18 PM
129	I don't think it's about serving across all incomes but rather focusing on what best serves the cities infrastructure and the upcoming growth.	2/28/2022 11:12 AM
130	More housing that working class & lowers income can afford	2/26/2022 1:45 PM
131	Affordable housing is on a rapid decline in Tampa. Many of these homes have been demolished or sold. Citizens who lived in or near their employer are now being relocated many miles from their jobs. This is especially difficult to those who rely on our public transportation.	2/25/2022 2:15 PM
132	Yes, all incomes and ages, which includes middle incomes and young people.	2/25/2022 10:32 AM
133	See previous responses.	2/24/2022 7:04 PM
134	But you don't need to put all those apartments in one area. Packing all the affordable housing south of handy isn't the solution.	2/24/2022 6:32 PM
135	There is a housing crisis in Tampa. 10,000 affordable housing units by 2027 is a pathetic goal by the mayor. That is not enough - the wait list for affordable housing is YEARS long. There has been a need for increase in affordable housing already for 10 years, it will continue to get worse and homelessness will go up. Congestion in Tampa is ridiculous because of no alternative transportation. MOST, IF NOT ALL cars you see only have one to two people in them at one time. A streetcar expansion would aid in transportation concerns and traffic congestion concerns (as well as long term adverse affects of climate change)	2/24/2022 10:42 AM
136	Transportation is key to helping our city grow. Housing needs to be safe and affordable to all levels maybe by offering some type of community rehab for rundown homes in certain areas	2/24/2022 10:38 AM
137	We need a transit system that is built to serve everyone, not operate as a social service for low-income people. If we do that, the public will support higher standards for transit like we have at the airport.	2/24/2022 10:37 AM
138	Transportation should include commuter rails from the outer suburbs and areas into downtown, city centers, entertainment hubs, and municipal buildings. Getting everyday drivers off the road increases safety, community, and environmental protections.	2/24/2022 8:00 AM
139	Affordable Rent and affordable housing is critical. Current rents downtown are forcing the longtime residents to leave...not the way to keep a strong culture.	2/24/2022 6:41 AM
140	Tampa needs to create more affordable housing. Builders and developers are only interested in lining their own pockets---constructing multi-million dollar single -family homes in areas in which only the very rich can afford. Builders should be required to build middle-income and lower income housing also. The housing situation in Tampa at present is unaffordable for anyone but the wealthy and the Mayor of Tampa is encouraging this. This needs to change ASAP.	2/24/2022 1:46 AM
141	Tampa is growing so rapidly right now and affordable housing is no longer in the picture somewhat. Mobility (access to more public transportation) and stability (housing) are major	2/23/2022 4:58 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

components that will make the population thrive. Access to more available and reliable public transportation.

142	Housing costs are high and getting higher and I worry about ever being able to afford a home in Tampa	2/23/2022 3:07 PM
143	Seriously. If this isn't a high priority we can't call ourselves a community. We welcome HUMAN BEINGS cause they are PEOPLE. All of them. Not just the ones you prefer.	2/23/2022 1:40 PM
144	Hopefully it will help manage traffic concerns.	2/23/2022 12:42 PM
145	These are Tampa's biggest issues. We need less luxury housing and more attainable housing for Tampa's long-time residents. Start putting locals first instead of the dollar. As a young professional, I am unable to afford a 1-bedroom apartment in Tampa and I make more than many of my counterparts. Tampa has been in the news several times in the past few months because of the affordability issue. Do we want to be known as the new San Diego of the nation? Also, a 30-minute drive has now become an hour. I no longer want to work in the city and with remote becoming an option for many (especially young people), people will eventually consider other cities with more affordable options. Start building better infrastructure to support the projected influx of people before it happens instead of after-the-fact and doing road construction during rush hours.	2/23/2022 11:53 AM
146	Carefully consider apartments being branded as "affordable housing" that are often one bedroom only. Affordable housing should be available to family's and individuals alike. We do not need every new apartment to be a luxury apartment. Families are being priced out of Tampa and moving is not simple to secure new work and new housing elsewhere.	2/23/2022 11:39 AM
147	It might work. Currently none of the streets in south Tampa can be widened to changed enough to make a difference and we don't want Bayshore Blvd or Downtown to look like New York.	2/23/2022 11:38 AM
148	Affordable housing and public transportation for our county is the #1 most critical need.	2/23/2022 11:33 AM
149	This is very important, but must be a public/private endeavor.	2/23/2022 11:16 AM
150	There has been a huge increase in development of expensive housing for renters and buyers, so this city is becoming less affordable as it grows. There needs to be some housing options for long term residents who aren't extremely wealthy, and people without cars need a way to get to and from work so they can continue to afford their homes.	2/23/2022 9:38 AM
151	Don't make the city unaffordable for all of us that drive the "essential" jobs.	2/23/2022 12:48 AM
152	REdevelop areas that are in need. Help those in areas that need to have more resources. Please don't create more roads and housing. Recreate in areas that need help now.	2/23/2022 12:08 AM
153	A wonderful statement, but without local funding, regulations, and incentives to create housing and transportation choices, they won't happen.	2/22/2022 10:06 PM
154	Unless we as a community embrace affordable housing and transportation as important needs, parts of the city will have no one living close to where they work, e.g. teachers, first responders, retail workers, and food service employees. I have seen deed restricted apartment complexes work well in other affluent areas and I would like to see new multi-family large complexes provide housing in a variety of price points, so we don't create more economic ghettos.	2/22/2022 9:53 PM
155	Stop overbuilding...I see south of Gandy with little planning for roads, evacuations?, oil spill?, also where are the extra fire stations? More choices in groceries....hospitals? You cannot overbuild an are with little regard to the quality of life for residence. Also police substation?	2/22/2022 9:50 PM
156	Not everything can be a priority and the way this survey is set up so far it feels like that's what these questions are leading toward. Combining housing AND transportation which come from different funding sources and are already at different levels of planning leaves me doubting the real purpose of this survey. Seems like it's checking a box not really gathering information the way the questions are formatted.	2/22/2022 8:21 PM
157	Stop building apartments and better drainages	2/22/2022 8:19 PM
158	It is good to see an increase of low income housing but there is not enough mid-income housing , perhaps some rent control measures can help to change that.	2/22/2022 7:52 PM
159	affordable housing is becoming extinct !!!!!	2/22/2022 7:18 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

160	Not by putting mixed use development in exclusively historic residential neighborhoods.	2/22/2022 7:04 PM
161	Target the middle and higher income, the rest will reap the benefit later.	2/22/2022 2:48 PM
162	Stop just talking about affordable housing and build it.	2/22/2022 2:11 PM
163	Tampa does not have a transportation system that works; we need people in office who care about our safety and the basic necessities like roads, sidewalks, traffic and getting people SAFELY to and from their destinations.	2/22/2022 1:47 PM
164	Again, are we going to promote ideas that will result in a greater burden and have an effect that ultimately creates greater wealth inequality by creating a climate where various communities of people find themselves with less disposable income and inability to build generational wealth?	2/22/2022 1:20 PM
165	Greater public transportation is of the utmost importance, especially from a climate perspective. Greater renting/housing options need to be made available, as citizens of Tampa are stuck between extreme increases in rental rates with little to no affordable entry level housing like 2 bd/1ba starter homes.	2/22/2022 12:59 PM
166	I believe in free market.	2/22/2022 12:43 PM
167	Tampa's urban sprawl is ridiculous and there is zero attention to having public transportation be accessible	2/22/2022 12:27 PM
168	Hands off with tax payer money. Free market dictates choices.	2/22/2022 10:46 AM
169	When you say transportation choices, this includes buses, cars, light rail, and railroads? Public transportation needs to be more convenient in order to get people out of their cars, which alleviates congestion and pollution, and leaves more of the landscape that Florida is known for and people vacation here to see.	2/22/2022 10:20 AM
170	We have too many apartments going up and not enough single homes.	2/22/2022 9:33 AM
171	We can't be great until we're ALL good.	2/22/2022 9:26 AM
172	Transportation choices targeting white-collar workers are a necessity. More needs to be done to change our perception of mass transit for the less fortunate and promote it for everyone	2/22/2022 9:07 AM
173	Buy CSX and extend light rail from south tampa - hyde park - downtown - to USF!!!!	2/22/2022 9:05 AM
174	Stop building, too crowded. We're living on top of each other and quality of living is going down the drain.	2/22/2022 8:48 AM
175	It is a well-known fact that we are without enough housing in every price range. And the push down from the top stealing more affordable housing from the bottom. We have to look at the big picture and figure out what works. Tampa's exclusionary housing process is getting to the point of ridiculousness. One perfect example of how crazy ridiculous our code is. — 1005 Emma st That just came before tampa City Council. What a waste of a lot of people's time due to poorly constructed code	2/22/2022 8:17 AM
176	Once again no being done but should.	2/22/2022 8:14 AM
177	Diversity in the community makes a community stronger and more fulfilled	2/22/2022 8:06 AM
178	There are way too many apartments being built without any improvement to the infrastructure. Stop building apartments until you build the infrastructure	2/22/2022 6:54 AM
179	Improve roads, stop building in south Tampa	2/22/2022 6:43 AM
180	People who work in tampa should be able to afford to live here.	2/21/2022 9:47 PM
181	Affordable housing INCLUDES people above the poverty line but below affluence. Housing options for this audience are quickly dwindling.	2/21/2022 9:10 PM
182	The quality of life of all citizens impacts the entire community even if that not obvious to most people. The quality of life particularly for the most disadvantaged is critical for all of our quality of life.	2/21/2022 8:41 PM
183	Keep city car friendly!!!	2/21/2022 8:20 PM
184	We need to match and plan on expanding our access to transportation at least to the level of service and usability as it used to be such as running a streetcar line going back to Fowler. We	2/21/2022 8:16 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

also need to work as a region to connect to the larger metro areas such as st pete and Clearwater.

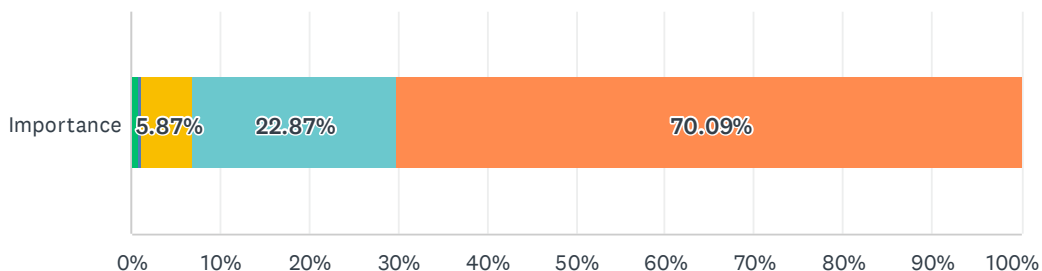

185	Way too much of a "do everything for everyone" statement - sounds right out of a politician's campaign. You cannot simultaneously serve people across "all ages, incomes and needs" with housing and transportation choices. Be more specific. Yes, we need more affordable housing.	2/21/2022 8:13 PM
186	Stop prioritizing luxury developments and displacing communities native to the areas. People are being priced out of their own neighborhoods. Rent control should be seriously considered and public transit must be an immediate priority.	2/21/2022 5:57 PM
187	I only say somewhat here because the market(s) will drive if housing is affordable or not. This is a very difficult issue to govern. Already, people drive further to afford a 'better' home or apartment. Prioritize transportation routes. That will be the biggest challenge in this city.	2/21/2022 5:56 PM
188	Increased densities and mass transit, comprehensive rail based system	2/21/2022 5:50 PM
189	People should have choices	2/21/2022 5:44 PM
190	I am concerned that these are just words	2/21/2022 5:41 PM
191	Tampa does not have to have an unlimited amount of housing!! Stop trying to build more!! South Tampa in particular is landlocked, you can't keep allowing building upon building and provide no supporting services ie schools, hospitals, fire police dept Also, your first priority is get homeless/panhandlers off the street before you are worried about housing for millionaires	2/21/2022 5:39 PM
192	100%	2/21/2022 5:37 PM
193	because at this modern time lets be serious! the city should have transportation and housing available! i should not need a car in the 10th largest city!!!	2/21/2022 5:36 PM
194	Transportation is key ingredient to make all the pieces work together.	2/21/2022 11:19 AM
195	Rebuild ybor for affordable housing within walking community supporting the Ray's and marijuana.	2/20/2022 7:18 PM
196	Changing zoning to allow more middle density and mixed use housing will increase affordability. And increased public transit, bike, and pedestrian infrastructure will make neighborhoods more liveable	2/20/2022 2:42 PM
197	Building more developments will help reduce pricing. Reduce zoning laws and incentive people to build units on their current properties to allow for more housing.	2/20/2022 9:14 AM
198	We need more housing closer to jobs. Increasing density around can support mass transit	2/20/2022 1:52 AM
199	Better mass transportation. Ramp up bus routes - establish 24 hour pickup rotations; acquire light rail/bullet transit that runs from the airport area to the county area - the current bus route with stop throughout the City and County would be a good choice to reduce carbon footprint and give people a chance to move throughout the City, which I believe would increase tourist business.	2/19/2022 6:09 PM
200	A range of housing options for people of all income brackets is very important. We don't want to turn into the Villages. And Tampa isn't all that large - we should have a robust, safe, affordable, and efficient public transportation system.	2/19/2022 5:47 PM
201	If Tampa is going to be a big city, it need a subway or metro. Not just a bus service.	2/19/2022 3:30 PM
202	Affordable housing is becoming increasingly unavailable close to downtown	2/19/2022 3:04 PM
203	We need MUCH BETTER mass transit. If we had a bus & train system that was clean, timely and every 5-10 minutes, I would use it daily instead of sitting in horrible traffic	2/19/2022 11:29 AM
204	People of all income levels need access to affordable housing. Public transportation should be advanced to provide alternate methods of transportation for All people. This will not only will ease the traffic burden, but create opportunities for people to gain employment in surrounding cities. We need high speed trains that connect us with Miami and Orlando, then into Georgia.	2/19/2022 10:42 AM
205	Inclusionary affordable housing policies are the only way to ensure the provision of housing across various income levels. The market cannot and will not be able to accomplish this without regulatory oversight. These should be incorporated into the massive density increases being granted to landowners within transit station areas.	2/19/2022 12:55 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

206	People should have the ability to live in or near their communities, including where they work and where their families are. This is as much a housing issue as it is a transportation issue. These are the same issue.	2/18/2022 11:19 PM
207	Again, all residents should be able to access and participate in the economic and social opportunities the city has to offer.	2/18/2022 8:02 PM
208	Housing is too damn expensive and we don't have enough options for housing type. This needs to change ASAP. Need to be sensitive to history of racism and discrimination in housing and transportation investments, including displacement.	2/18/2022 7:07 PM
209	We need all of the above options. Commuter rail from outer suburbs. Light rail/modern streetcars on dedicated lanes, buses, adequate expressways and bypass loops especially in the suburbs.	2/18/2022 7:06 PM
210	As mentioned with the previous point, this is vital to the sustainability of the people in Tampa	2/18/2022 11:00 AM
211	Inflation is kicking our collective butts. If the housing prices continue to go the way they are, no one will be able to do anything but work to afford a place to live. And those who can't afford a place to live will be out on the street. Consider building Tiny Home communities that are affordable. How about converting office buildings into affordable housing... people are working from home these days and the commercial real estate market is in trouble. Get creative and progressive. There was an art college in Atlanta that built tiny homes that fit into parking spaces in a parking garage. They used them for student housing. They had common space and their private space. Makes sense to me. Take the parking lots and make some of them garages and the rest places to live... with dignity.	2/17/2022 7:52 AM

## Q7 Value and protect our natural environment: Prioritize clean air and water, and protect our natural environment, so we can continue to enjoy the health and economic benefits of our natural assets.

#	RESPONSES	DATE
1	super important to protect and shape the environment as the area grows. Trees and open spaces	6/4/2022 11:48 PM
2	Essential to our sustainability	6/3/2022 4:38 PM
3	YES! Lifelong Floridians know how interconnected our shallow water table and land use decisions are. Be smart about using wetland areas for habitat, green space, recreation, and water sink ... not the best development areas anyway.	6/1/2022 11:44 AM
4	We need to stop building in the coastal high hazard area, and evaluate the cost of compensating property owners in those areas for the entitlement rights given to them over the past decade.	6/1/2022 9:17 AM
5	Not only does nature enhance the look of a location, but it also helps us by providing shade and natural resources.	6/1/2022 8:47 AM
6	Create and maintain zoning that does not impact environmental sensitive areas for ALL.	5/31/2022 8:27 PM
7	This statement phrases what i want to say perfectly it the last part of its sentence. So we can continue to enjoy the health and economic benefits of our natural assets, but i also want to include the fact that nature is beautiful and more than just an asset, which is more of my reasoning as to why i agree it is extremely important.	5/31/2022 4:26 AM
8	no duh!	5/26/2022 12:52 PM
9	Decrease run off and keep land in its natural state	5/24/2022 8:39 AM
10	Yes, the State of Florida EPA need to implement solutions to record number of manatees dying or the record red tide that kill 15 million pounds of fish in 2021 and etc. DeSantis is trying to throw money at environmental education, but not an actual defined and implemented solutions. Ex. solving the Piney Point overflow problem with an defined and implemented solution.	5/23/2022 5:59 PM
11	Trees and natural environment habitats are very important to the Grow for Tampa more trails more parks and trees less highway more garden encourage neighborhoods to plant trees and to grow gardens city gardens this is important climate change is real	5/23/2022 1:27 PM
12	Have you driven on our roads, noticed concrete has replaced soil, trees, wildlife? Have you noticed the sounds of all the cars and the exhaust? The lack of native wildlife, insects vegetation is lessening every year and you're asking the importance? You must be a non native Floridian.	5/22/2022 12:41 PM
13	How, and at the same time increase density is the hard part	5/19/2022 4:41 PM
14	Our natural resources are dying due to our consumption. We also have a responsibility to protect wildlife and their environments as well.	5/18/2022 4:07 PM
15	Manage our tree canopy. Treat trees in the ROW as another utility	5/18/2022 12:30 PM
16	The Hillsborough River, parks, preserves, wetlands and all remaining natural resources should be protected and enhanced	5/17/2022 2:00 PM
17	The natural environment is part of the City's identity and a first line of defense for many of the adverse global issues.	5/14/2022 1:33 PM
18	We need more preservation of trees and green spaces. Stop overdeveloping everything.	5/14/2022 10:13 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

19	I literally see single-family neighborhoods expanding into non-urbanized natural reserves right now. Stop. This survey is trash. Those houses start at half a million dollars. Sell outs.	5/13/2022 9:10 PM
20	it may be difficult to fully protect the environment while accommodating more growth	5/13/2022 3:58 PM
21	Tampa is destroying the air quality by not mandating wet saws to cut concrete. You are increasing lung cancer and lung disease. All of the toilets need more precious water and more sewer to manage. You are destroying the tree canopies, wetlands and various ecosystems.	5/11/2022 8:40 AM
22	We need to protect nature and our water. Recycling should also apply to apartments, and all buildings not just homeowners. NJ put a ban on plastics. We all should be doing that. The environment is now fragile so we need to act now. Tampa couldn't handle a hurricane.	5/11/2022 8:01 AM
23	Build connected parks and trails. Finish the Green Spine and Green Artery in Seminole Heights.	5/10/2022 7:42 PM
24	You have to protect native trees and give them adequate space to grow. You have spend money and plant the properly, it takes time and qualified arborists to make sure the work is done correctly.	5/10/2022 6:44 PM
25	How can we work around the state law that limited our tree protection? There has to be a way?? Our canopy is a defining factor of Tampa. It needs to be fiercely protected.	5/10/2022 2:52 PM
26	Nothing more important than Mother Earth. I say, make it better than when you arrived to it!	5/10/2022 2:33 PM
27	I feel smog testing should be a requirement when registering a vehicle. We are at sea level and because of the inflation and people moving here we are using more oil. Smog requirements can save this state from disaster.	5/9/2022 10:40 AM
28	It is not necessary to prioritize because as a nation it is already a priority.	5/7/2022 5:32 PM
29	Density allows for more public open space	5/6/2022 10:55 AM
30	This is THE most important priority.	5/4/2022 5:57 PM
31	Development is affecting the quality of life for not only humans, but also all the living creatures. So many of us see animals dead on the road trying to cross in areas where there is massive development, road widening, increased traffic, and they have no place to go.	5/4/2022 12:47 PM
32	Adequate, safe drinking water is now and will be the most important environmental issue in the future	5/4/2022 7:00 AM
33	This should always be the goal but not to the extent that natural resources are shut away from those who would choose to enjoy them. We need to discourage homeless people taking up residence in these areas with clean, ample shelters and guidance.	5/4/2022 6:44 AM
34	This is my number one. There should be a limit to the sprawl in Hillsborough County. Smart Growth should be considered, especially in the sense of redeveloping areas while maintaining the sense of place each area has. The lawns of low density housing just consume resources. People are not gardening, growing anything other than non-native grasses. If people were using lawns for animals or food, that is one thing, but a lawn just consumes too much of our valuable resources. Conservation areas should be increased and accessible for people to enjoy. Sprawling development should have a definite limit to it.	5/3/2022 5:56 PM
35	Yes, stop allowing the cutting down of trees just to increase housing. One new house is not worth 3 oak trees. The way the Comprehensive Plan is being used because the wording favors both development and preservation is a big problem. Example LU 9.5.4 is pitted against LU Objective 9.2. One day City Council will use one to stop a rezoning and the next day they will use 9.2 to approve a rezoning. This back and forth needs to be fixed.	5/3/2022 1:35 PM
36	Protecting our environment is one of the things that will make Tampa a livable town.	5/2/2022 4:21 PM
37	Self explanatory	5/2/2022 3:00 PM
38	Tampa Bay Regional area's economy is derived from tourism. Pollute the water, with phosphate, LPG, etc etc, and watch those tourists stay in Disney. Expanding the Port is great. Just dont pull a Jersey and have Tanks and Gas Holders everywhere.	5/2/2022 11:31 AM
39	CLIMATE CHANGE!! Our trees are our salvation. No Toilet to Tap.	5/2/2022 9:08 AM
40	stop excessive building by clearing lots, areas, and farms. we need as many trees as	4/29/2022 9:11 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

possible. for clean air , wildlife support, and lowering the air temperature. clear out the abandoned warehouses and strip malls and put in new home dwellings there.

41	Quality of water is very important especially now that microplastics are making it everywhere in the environment. Also, the pollution created by pick hours in traffic you can smell the burn rubber from tires. Also, if you look at ponds and rivers there is trash everywhere.	4/29/2022 8:38 AM
42	I am older but want to leave this earth better for my daughter	4/27/2022 9:08 PM
43	keep this as a priority long term	4/27/2022 8:07 PM
44	This is extremely important from an environmental perspective because we live so close to the water and from a health perspective because our environment should help us be as healthy as possible, not hinder our health and quality of life with pollution. Additionally, increasing the health of the environment and residents will allow everyone to spend money elsewhere, rather than paying for unintended or looming consequences.	4/27/2022 11:18 AM
45	We need legislation to protect Tampa's natural springs and wildlife refuges from construction.	4/26/2022 1:41 PM
46	We need to quit building on thousands of acres to "preserve natural space" . It's already there. Don't build over it.	4/26/2022 12:02 PM
47	It is very important that our environment is protected.	4/26/2022 10:49 AM
48	Please stop overbuilding.	4/25/2022 8:11 PM
49	This is just my opinion and based on what I have seen and travel local areas of The City of Tampa. Downtown Tampa main thing is the after 5pm near the restaurants, dirty garbage pizza boxes, people sleeping on the sidewalk, wild bunch of crowds dancing nasty, i was soooo disappointed and than I hear the Bay news 9 and fox 13, how many of those of live and born and raised tampa bay and still here, well please many need to go to the areas that have been built new and how wonder the events are and how unsafe and errie has become after 5pm. too many many stinky areas,!!! So Prioritize the clean air and the water a must! natural environment my goodness so many garbage just too much well where i live over 9 yrs my building alone, unsafe, dirty garbage, smoking weed, running up and down throwing items leaving food.... etc. and this is just my building and i have complaint too many times, i am trying to get my first house. now it is more difficult and i am disable, but I have cleaned up the back hallway steps and those who keep leaving food and more, i notify the office, my lease states all that is allowed and not allowed but if we must work harder to enjoy our health and stop stressing with all the unsafe and dirtyness, uncontrolled behavior of quiet businesses or apartment buildings **than how can Any City Of Tampa continue to grow and benefit the ecosystem economic of natural assests. why those who have the platform and decide to walk the city of Tampa, Lakeland etc.. St Pete, but not ever mentioning the little counties, mini locations hidden and forgotten.. why always keep the city of tampa going if her sister and brother counties are holding on... aren't we connected and communicating together? Or did I read this wrong if so my apologies.	4/25/2022 6:16 PM
50	The potable water system needs upgrades to eliminate "hardness," which affects for municipal lines and individual piping.	4/25/2022 1:48 PM
51	When we pollute the environment we lose countless of important species that keep our ecosystems healthy and unique. Pollution also causes severe health effects and I don't have extra money to be wasting on unnecessary health bills from pollution.	4/24/2022 10:32 PM
52	Maintaining our environment and ecosystems are crucial, especially since we are a water-based city with the Bay on one side and the Hillsborough river (and its subsidiaries) dominating much of the landscape.	4/24/2022 3:33 PM
53	Water is a lessening resource but absolutely necessary component to positively moving forward with a successful urban footprint for Tampa. The Florida aquifer is a substantially diminishing resource, all the while rising sea levels threaten even its use. The Comprehensive Plan needs to get past short-sighted cutesy jingles like "toilet to tap" and embrace all mechanisms of preserving and reserving it.	4/23/2022 3:50 PM
54	Because we will lose habitat for animals	4/23/2022 2:24 PM
55	We need plants to breathe, we need habitats for animals not to die, we have next generations to have a place to live	4/23/2022 2:15 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

56	This shouldn't be an option anymore and we need this to be a priority	4/23/2022 1:39 PM
57	With recent growth/development please protect our trees and replant /replace those that are removed.	4/21/2022 6:13 PM
58	Since Covid, we all know the importance of health and economic benefits of our natural assets	4/20/2022 3:27 PM
59	Safeguarding public health and protecting the environment should be the number one priority. Without safe access to drinking water, proper sanitation, and clean air, we cannot survive; however, these precious resources are what we take for granted the most. We just turn on the tap without even thinking about it, and I realize that's the point, but a comprehensive plan should consider the condition, maintenance and capacity of the current infrastructure as well as plan for the future.	4/20/2022 2:24 PM
60	Of course anyone would agree with the above statement, but at what cost.	4/18/2022 9:46 AM
61	Something needs to be done to keep our area clean and pollution free. The haze in the city is becoming too much.	4/15/2022 8:29 PM
62	This is my last explanation.. politics might be a zero sum game, life isn't. Everybody can win.	4/15/2022 1:54 PM
63	I would like to see a transformation of ugly roadways. PLANT TREES in the median strips and next to sideways. Encourage trees in parking lots with development codes.	4/15/2022 12:04 PM
64	Increase the development of natural measures (like mangroves) to deal with sea level rise and algae blooms.	4/14/2022 7:26 PM
65	Tampa's too close to the water to ignore the environment.	4/14/2022 3:16 PM
66	Doing the aforementioned things with walkability and placemaking, etc will intrinsically be better for the environment. We are just occupying the spaces in between nature.	4/14/2022 10:43 AM
67	The City needs to BUY WATERFRONT PROPERTIES and plant mangroves/trees to slow storm surge events - with this there are long term opportunities for 'floodable' trails and parks. We need to stop developing 100% of our lot lines with impervious surfaces.	4/13/2022 11:04 AM
68	ultimately we need clean air and water	4/13/2022 10:17 AM
69	Ancient civilizations in South America paved themselves out of existence... the Mayans. Why is this area bent on doing the same thing? Why is it a good idea to continue destroying wildlife areas, wetlands, and farms for the sake of adding roads and more housing? At what point to we really look at the damage being done and say enough? How much worse does the water need to be in Tampa Bay and the surrounding waterways? Why keep flirting with the point of no return?	4/12/2022 4:54 PM
70	Our number one commodity/resource and appeal is our city's beautiful environment - from the wildlands to the bay. We must preserve and protect the little untouched lands we have and adequately manage them to invite the growth of endemic flora and fauna.	4/12/2022 10:43 AM
71	I consider this extremely important, I believe our ability to accomplish the protection of our environment and natural assets is compromised by the need to drive everywhere, even short distances. Natural beauty cannot be enjoyed or fully experienced from the inside of a vehicle; likewise, vehicles adjacent to natural spaces diminish their beauty and our ability to enjoy them due to noise from traffic. Examples include Bayshore trail, and dangerous access to parks unless you drive.	4/5/2022 5:58 PM
72	I was disturbed to read the recent TBT article about the pollution caused by burning our garbage to produce electricity and how this negatively impacts poorer neighborhoods. Climate change is a huge threat and always impacts in the worst way those least able to contend with the problems it creates.	4/5/2022 4:05 PM
73	Almost every one agrees with this statement but might disagree on how. It may be worthwhile to state that this achieved through access to convenient transit, higher density, and beautiful walkable mixed-use development.	4/5/2022 2:48 PM
74	Prioritizing non-motorized transportation options and 15-minute neighborhoods would result in a cleaner environment.	4/4/2022 2:06 PM
75	All Tampa Bay area cities have a solemn responsibility to restore and protect our coast, rivers, lakes and all waterways in this area.	3/29/2022 10:39 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

76	This should go without saying.	3/29/2022 8:25 AM
77	A key to protecting the environment will be improved mass transit	3/28/2022 6:17 PM
78	Of course this should be done and it should go without saying. One way to accomplish this is to have more transit options and not the "fake BRT" that FDOT wants to cram down our throat. More transit trips = less car usage = less pollution	3/28/2022 4:43 PM
79	Expenses of all projects need to be contained and not increase the tax burden.	3/25/2022 10:51 AM
80	Save this type of focus for the suburbs. Focus on making Tampa more dearly populated to combat sprawl.	3/23/2022 6:54 PM
81	Our environment are why many people vacation and live here.	3/23/2022 8:59 AM
82	No brainer. No choice. Biggest issue in the next 20 yrs.	3/23/2022 5:41 AM
83	Who does not want to preserve our natural environment? But the facts are that everything we do has an impact. The rub is our differences in opinion on what is acceptable.	3/22/2022 7:19 PM
84	Tampa is facing a water shortage in seven years. There is no viable plan to address this. Teco and mosaic continue to pollute unabated. Our electeds do nothing except stand with them at buccaneer events.	3/22/2022 3:35 PM
85	Florida is a unique state. We have beautiful beaches, waterways, and we are filled with biodiversity. Recently, manatees have suffered due to pollution, development along waterways, and depleting sea-grass. This needs to be addressed. Climate change poses a significant problem to Tampa.	3/22/2022 2:40 PM
86	People come from all over the globe to take in Tampa's natural beauty. We need to take steps now to ensure that future generations don't lose our natural treasures. Climate change threatens Tampa's very existence and we need to take this seriously in the absence of state leadership.	3/22/2022 1:32 PM
87	Besides the people, our greatest resource is Florida's amazing nature and wildlife. Needs to be protected for future generations	3/22/2022 1:10 PM
88	More resources to clean up garbage in our water ways/river. I live along the river and the plastic and garbage is out of control. Consider more river litter traps and a dedicated river crew that goes up down the river cleaning up the banks and floating debris. As we continue to develop our River Walk, this should be a top priority.	3/20/2022 2:02 PM
89	This may mean limiting the construction or type of construction in some areas even if it effects the tax rolls.	3/20/2022 10:27 AM
90	The natural environment is very important. Saving water resources also important. Too many people destroy these things.	3/19/2022 8:24 PM
91	Clean air & water are vital to our City's future, for the generations to come.	3/19/2022 4:38 PM
92	This is CLEARLY the most important item. We should be taking better care of our home....how about taking care of the environment with some PUBLIC TRANSPORTATION?!	3/19/2022 12:45 PM
93	We only have one planet and especially in places like Florida where people come to enjoy some of our natural beauty this makes sense from both an environmental AND economical standpoint	3/18/2022 5:29 PM
94	Now more than ever the natural environment is at risk... and we need to do everything in our power to transition into a more sustainable long term type of living!	3/16/2022 9:32 AM
95	Greenways and trees along roadway	3/15/2022 7:55 AM
96	Gotta stop building so much and stop cutting down all of our wilderness	3/14/2022 10:00 AM
97	Nature has proven to have relaxing effects and I believe the more untouched, natural land we have access to the better the citizens would perform in all settings	3/14/2022 8:58 AM
98	incredibly important for public health	3/14/2022 7:59 AM
99	As a coastal community, Tampa will be one of the first communities to feel the impacts of climate change, and we need to be ready for that.	3/11/2022 6:13 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

100	People interpret this VERY BROADLY	3/9/2022 6:00 PM
101	This should be a right not an option	3/9/2022 11:34 AM
102	We are only a few decades from an environmental emergency. This should be one of the most important things for anyone. Florida is a beautiful place and I hope to show my children the same beauty I've experienced during their time on this Earth.	3/6/2022 9:49 AM
103	All I want is clean tap water and some small parks. I don't mind living in a "concrete jungle" if it means more apartments, jobs, and mass transit. It is a city after all.	3/5/2022 12:40 PM
104	Keep the Bay clean. Keep the parks and green space clean.	3/3/2022 4:34 PM
105	Again, adding to alternative green transportation, investing in solar, eliminating single use plastic, start mandatory curbside composting. Fines for not recycling/composting. Plastic bag ban.	3/2/2022 8:06 PM
106	This is not a priority of the city. Land is being scraped for apartment units and trash is everywhere along our roadways.	3/1/2022 10:35 AM
107	yes. and conserving what we have	2/28/2022 2:18 PM
108	SO IMPORTANT. I wish there was a way to maintain the beauty and cleanliness of the waters and the land. All the bays are filled with garbage constantly, which is so sad to see. While we look to evolve (scooters for example) how do we put "rules" in place to maintain cleanliness and respect of the land and environment.	2/28/2022 11:14 AM
109	We should be very cautious about sewage to tap plans and always look at worst case scenarios. Also, we should increase the land the build ratio. For example there should be more natural green space than home on a yard otherwise drainage is a real problem. We should also monitor how much turf is used as it doesn't provide the same drainage.	2/26/2022 4:19 PM
110	We must explore all our options before going with the PURE plan that is being proposed. And there MUST be testing of the idea before that is approved & a plan for constant testing of water quality if it is going to be an option	2/26/2022 1:47 PM
111	Love living on the water and we need to do our part to protect ourselves from global warming!	2/25/2022 8:59 PM
112	Also included in this section is cleaning litter. I see so many individuals throwing everything from a fast food bag out their car window to a couch and tires tossed from the bed of a truck. This is especially common in low income neighborhoods. Think about the kids who have to grow up in that environment.	2/25/2022 2:17 PM
113	Prioritize filling in gaps, removing delapidated structures, modernizing old structures. Here in New Tampa pristine nature including wetlands still gets covered in concrete for strip malls and cheaply built (though rented for top dollar) apartment complexes. Nothing is built to modern standards with insulation and solar. Even new buildings look like they were built in the 80s. Nothing we built looks like anyone is thinking 20 years ahead (2045?!!).	2/25/2022 10:39 AM
114	We need green space for our families and kids to thrive and get a break from the hustle and bustle of life	2/25/2022 8:39 AM
115	Do not sell off our water to corporation(s). Do not allow developers to destroy the trees, mangroves, etc... and only pay a fine. They should loose the property altogether for violating the protections that are in place and that land go to the government/people. Do not allow our environment to be destroyed by people who have profit interest. Find ways to reduce the flooding issues and support lower energy cost through renewable energy sources. Find profitable ways to make a positive impact on the environment and for the community.	2/24/2022 7:05 PM
116	Do not put dirty water in the aquifer. Spend the money building additional treatment plants	2/24/2022 6:33 PM
117	Florida will be disproportionately affected by climate change. Protecting our natural environment is one way to build resiliency. In particular, we need to protect and build our urban canopy and protect our aquifer.	2/24/2022 4:19 PM
118	Tampa is polluted so bad. The streets are dirty, when you walk along the river walk its riddled with trash, garbage, debris, you can even see oil and other substances sitting on top of the surface, the storm drains are clogged with trash..etc. The city looks dirty because it is, and the natural environment has always come second to private interest and capital.	2/24/2022 10:44 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

119	WE cannot let growth run our city or our planet	2/24/2022 10:38 AM
120	Protecting the environment can be worked in through proper future planning- more new urbanized neighborhoods with mixed uses in walkable distances and adding commuter rails connecting major city areas will decrease traffic and the pollution caused by traffic to increase environmental habitats. Stop building new roads and concentrate on reusing rails to increase public transportation to protect the wetlands, parks, and natural landscapes surrounding Tampa.	2/24/2022 8:04 AM
121	Sustainability is important...get the cars off the roads, or at least cut the #s down by providing alternative transportation	2/24/2022 6:42 AM
122	Our current and future economic success as a community are in large part based on our surrounding environment. Businesses are bringing their employees here because of the quality of life outside of the workplace.	2/23/2022 1:51 PM
123	Again, if this isn't a priority what are we doing. Is this just a BS survey so you can say "oh we in tampa care!" Wtf.	2/23/2022 1:40 PM
124	It goes without saying.	2/23/2022 12:43 PM
125	One of Tampa's biggest assets so it only makes sense to prioritize. Waiting too long on this will have a vastly negative effect on Tampa.	2/23/2022 11:55 AM
126	The statement above is critical, but once again developers are given a green light for everything. Large lots with barely a yard so now we have more run off and flooding. For example: We never had flooding at El Prado and Mac Dill until houses were removed for Condos on the South East Corner and then another Condo highest in the neighborhood...no way for rain to soak into the ground so we have flooding. No one is thinking about the consequences of some of the changes.	2/23/2022 11:41 AM
127	Piney point is a disaster.	2/23/2022 11:40 AM
128	The question should be assumed as this is part of the job description of a local government. This is not a priority of the job, this is the RESPONSIBILITY of the job and it should be a daily priority to ensure the welfare, safety and health of a community.	2/23/2022 11:17 AM
129	More parks and safe walking areas would be great. Our streets are dangerous without sidewalks for pedestrians. It would be great to have more green spaces and sidewalks to get there.	2/23/2022 6:43 AM
130	This <i>*should*</i> speak for itself, but just in case, we all NEED this.	2/23/2022 12:49 AM
131	The need to keep our City free of trash and waste. Recently, driving on Waters avenue I felt so very SAD. The amount of trash on the sides of the roadway and in the median was like I'd never seen in Tampa before. I feel it's extremely important to make ALL citizens aware and perhaps impose consequences when excess trash and lack of care is more vibrant than the "community."	2/23/2022 12:08 AM
132	We need to set aside public lands for public use. Increasing water access for all. Protecting our natural resource while preserving business. Rattlesnake point is an example. Bars instead of industry is a terrible idea. We need industry that has always been apart of the neighborhood. An employer, and source of commerce should be protected not torn down for a dog park. You need affordable housing in all areas for the workforce. Look at areas like palm beach that are desperate for teachers who can not afford to live in the communities they serve	2/22/2022 9:57 PM
133	Mass transit could be a lot cleaner than stop and go traffic on the major roads and highways. Preservation of our tree canopy is also an important way of maintaining air quality.	2/22/2022 9:55 PM
134	With all this Overbuilding SOG how can we live with clean air with all the traffic	2/22/2022 8:19 PM
135	The tree canopy and green space of South Tampa is quickly disappearing. Some developers and arborists are ignoring regulations , hoping to not be caught and preferring to pay fines . The city departments Architects, Building Planning , Natural Resources need to work together to make preserving Grand trees, green space requirements and flooding precautions a priority. The present system has too many loop holes.	2/22/2022 7:59 PM
136	So much development, and trees being removed. They need to be replaced or increase fines for removal	2/22/2022 7:57 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

137	The parks throughout the city are great.	2/22/2022 7:23 PM
138	Save our green spaces, don't develop them!	2/22/2022 7:04 PM
139	What good is having all this development concrete city , if you tearing down priceless precious trees to do so , no character at all	2/22/2022 3:48 PM
140	These are being worked on at numerous levels, don't spend time and money irresponsibly.	2/22/2022 2:50 PM
141	This is a no brainer and should have always been top priority.	2/22/2022 1:47 PM
142	With the increase in development especially on the South Tampa Peninsula we should do more to protect the few pockets of untouched land for reserves and nature parks in the area, these will preserve the character of the area, increase the value of the neighborhoods and are a great public amenity to all residents new and old.	2/22/2022 1:36 PM
143	Yes, but you can tax your way to a greener planet. We need to promote technology and innovation to address our environmental issues within the context of our population dynamics.	2/22/2022 1:21 PM
144	Overdevelopment is creating no safe wild spaces for native species. A program for creating native years would significantly reduce the usage of pesticides and water.	2/22/2022 1:03 PM
145	If we don't protect the environment, there will be no city to enjoy or live in	2/22/2022 1:00 PM
146	Conservation is key, but not overreaching regulations.	2/22/2022 12:44 PM
147	avoid chemicals at all costs in our waters. law for pesticides and fertilizes uses because of the red algae (red tide in our bay)... the Mayor and everybody should request to the governor to fight for that to protect our bay, the gulf and our manatees and fishes! And also our health, bc many people suffers from allergies from the red tides.	2/22/2022 11:59 AM
148	Clean water is important. You can start by figuring out to collect all the plastice bottles that float through downtown on the Hillsborough River. Take a look at the nasty stormwater that discharges into the river from the culvert underneath Julian Lane park at the south pavillion along the river when we have a good rain.	2/22/2022 10:49 AM
149	THis should be the first priority, without clean air, clean water and places to grow good food, we will not need cities in the future, we will be gone.	2/22/2022 10:21 AM
150	You've already over-built in South Tampa, so much of the ecosystem is being destroyed. If you grew up here in the 70's and 80's, you'd know.	2/22/2022 10:06 AM
151	You are over building on every inch of land we have in south Tampa. There is no where. for the rain to go we end up with flooded streets.	2/22/2022 9:34 AM
152	Tampa (and Florida in general) relies upon its natural environment for the tourism industry. It's imperative that we protect it.	2/22/2022 9:28 AM
153	City of Tampa studies has shown the effects of climate change will dramatically impact in less than 100 years. Yet we continue to develop large coastal communities depleting the natural buffers to rising sea levels	2/22/2022 9:12 AM
154	Please lobby the state legislature to save and maintain our local grand tree code. Or pass legislation to overturn the State Bill regarding tree removals without a permit.	2/22/2022 9:07 AM
155	No sewage to tap	2/22/2022 8:48 AM
156	We are what we breathe, drink and swim in	2/22/2022 8:37 AM
157	I think that this can and should be done in cooperation with land-use expectations.	2/22/2022 8:19 AM
158	Tampa does a terrible job and needs to do better on this issue. Just the other day I saw city workers using Glyphosate in a city park. Disgusting and dangerous	2/22/2022 8:16 AM
159	If we don't protect the environment (such as city-led composting program that is side-by-side with landfill pickup, *effective* recycling programs, plastic bag bans, etc), our city is going to be under water in 50 years, so there's no point to this planning.	2/22/2022 8:11 AM
160	Tampa is home to so many key environmental gems and we must preserve them if we want our community to continue to strive	2/22/2022 8:07 AM
161	Bayside West needs a nice green space.	2/22/2022 6:48 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

162	We need to do better. More regulation to increase tree canopy. Stricter enforcement with steeper penalties for cutting grand oaks. And the county's free trees program should offer more if not all natives. No, we have to stop building on every square inch of the land! Change the zoning so that houses aren't 10ft from each other!	2/21/2022 8:46 PM
163	I think this is the highest priority. It will have ripple effects throughout every aspect of every plan.	2/21/2022 8:31 PM
164	Keep waterways clean. Stop aerial spraying us with poisonous stuff against mosquitoes which is toxic to humans and marine life!!!	2/21/2022 8:21 PM
165	Our access to nature is one of the most important things that we have in the state of florida and once we destroy it we will never get it back.	2/21/2022 8:17 PM
166	Of course. This is a big reason people come to Florida. Let's try to preserve more of it and reduce pollution and destruction of the natural environment.	2/21/2022 8:14 PM
167	Developers need to contribute to what this costs — not the current taxpayer base!	2/21/2022 6:11 PM
168	Existing nature preserves, like that owned by USF near its golf course, must continue to be preserved and shielded from ecosystem shattering development. Much of Tampa's appeal is it natural beauty with lots of foliage and forests.	2/21/2022 5:59 PM
169	natural resources include the neighborhood infrastructure of trees	2/21/2022 5:41 PM
170	Keeping littering down, promoting clean water is important. Most people know about the climate change hoax. Dont go down that road.	2/21/2022 5:40 PM
171	Climate change is a hoax! Yes keep the water around Tampa bay clean but don't stop funding other services because you want to be woke!!	2/21/2022 5:39 PM
172	We shouldn't poison ourselves.	2/21/2022 5:38 PM
173	clean energy should not come at the cost of polluting our environment the very little we have left	2/21/2022 5:37 PM
174	Growth should not come at the expense of the environment.	2/21/2022 11:20 AM
175	We are using too much fresh water	2/21/2022 10:27 AM
176	Plant BAMBOO around ybor city for natural air conditioning, help with erosion and beauty of BAMBOO	2/20/2022 7:19 PM
177	Use common sense!	2/19/2022 6:41 PM
178	We're very lucky to live in one of the most beautiful states in the entire country. And the fact that we live on Florida's largest open-water estuary is an important factor of why Tampa Bay is so wonderful. This lends itself to a healthier lifestyle, and better quality of life for residents and visitors.	2/19/2022 5:50 PM
179	Nature is all we have. We must protect it. It's also what makes Florida so wonderful and loved by so many. We need to embrace a more green way of living when possible, utilize our waterways in a way that gives back to it. Use nature, but always replace.	2/19/2022 11:30 AM
180	No one can live well in an area that has polluted air and water. Also, nature and access to natural beauty is an incomparable enhancement to urban living.	2/18/2022 8:04 PM
181	We are an urban place. So we need to preserve natural space and have access to green space, but we're not going to be doing it like the rural or suburban areas. Green space can serve a lot of fun ruins through ecosystem services and other benefits	2/18/2022 7:10 PM
182	Of course, more and better retention ponds to filter runoff. Protect our aquifer and form a plan to eliminate gypsum stacks.	2/18/2022 7:08 PM
183	We want to protect our homes which include the nature we have the great opportunity to be surrounded by here in Tampa. Helping the environment helps all	2/18/2022 11:00 AM
184	You know one of the reasons the pre-classic Mayan civilization disappeared... they paved themselves out of resources. Take a look around Tampa and the Tampa Bay region. How much more concrete and asphalt do we need? Stop building highways that don't work. That is	2/17/2022 7:56 AM

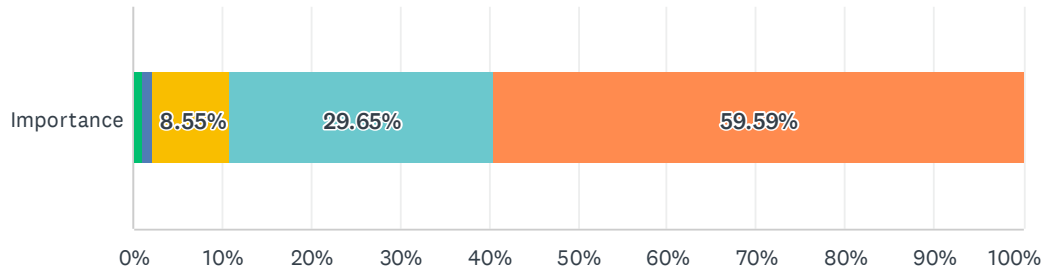

## City of Tampa 2045 Comprehensive Plan Vision Survey

clobbering our environment. Put in clean-burning rail and drop the highways. Done well and promoted right... people will come around.

---

## Q9 Efficient use of land and resources: Ensure that, as the city grows, land is developed in a sustainable way to conserve public resources.

#	RESPONSES	DATE
1	new plans should leave trees along sidewalks for shade and hiding buildings	6/4/2022 11:51 PM
2	Essential to our sustainability	6/3/2022 4:39 PM
3	YES! Folks of all income levels need open space to enjoy. Also good for our environment to keep land un-developed, or less developed. Ag land (taxed lower) is better than another housing development or warehouse. Don't "force" landowners to build by over taxing them on less developed land.	6/1/2022 11:47 AM
4	Define Public resources? Parks? Schools? Infrastructure? ALL should have access.	5/31/2022 8:30 PM
5	A society that grows to rapidly with out taking precautions of sustainability are surely to fail or be reset economically and lawfully.	5/31/2022 4:26 AM
6	we need to mandate more green attainable housing percentages in our housing developments... more green space and parks ... S Tampa is exploding with new housing projects with no apparent increase in greenspace/parks space.	5/26/2022 1:26 PM
7	The City of Tampa and Hillsborough County should have the courage to place a total stop on the development and building of any housing projects in areas such as South County. Let the developers sued, land need to be conserve.	5/23/2022 6:02 PM
8	Must value land space less concrete more beautiful location of trees and nature environment we'll secure a future 2045 climate change is real Saveland beautified and plant more trees	5/23/2022 1:28 PM
9	Sustainable is the key word and should not be limited to public resources but applied across all aspects of growth including when to say no to land development.	5/22/2022 12:44 PM
10	What assumptions are you making here?	5/19/2022 4:42 PM
11	Tampa is getting too crowded and difficult to navigate. There has to be consideration that enough is enough. We need a high speed rail system to reach our outlying areas and connect to jobs and opportunities.	5/18/2022 4:08 PM
12	Vertical growth, such as Channelside redevelopment efforts, is preferable to sprawl	5/17/2022 2:01 PM
13	Land is now being zoned according to the PDs and has no cohesiveness what so ever. The overbuilding of sites is eliminating may of the naturally occurring affordable housing options.	5/14/2022 1:34 PM
14	Build up! Reliance on growth is not sustainable. Multi-use zoning.	5/13/2022 9:11 PM
15	The city needs 50 be firm and stand up to developers to stop the rape of our natural habitats.	5/11/2022 8:41 AM
16	Focus on infill development than tearing down forests	5/10/2022 7:42 PM
17	Don't get rid of our city parks, especially along the waterfront.	5/10/2022 7:10 PM
18	Urban density is fine, as along as it's paired with plenty of safe and accessible public green space. Many of our parks are beautiful - but many also need a lot of work to be made safe and useful.	5/10/2022 2:53 PM
19	This is a nebulous question that means different things to different stakeholders. Land use should respect private property rights while maximizing the economic vitality of the city.	5/8/2022 2:52 PM
20	Trees	5/6/2022 10:56 AM
21	WE are not developing sustainably or equitably.	5/4/2022 12:47 PM

City of Tampa 2045 Comprehensive Plan Vision Survey

22	This is also a no brainer	5/4/2022 6:45 AM
23	Sprawl should be strictly limited. Lawns and places for children to play could be replaced with public parks and community gardens. I gander that most people hardly use 90% of their lawn other than for growing grass. Foods, animals should/could be used for those in low density housing.	5/3/2022 5:58 PM
24	Please add developers need to ensure traffic impact is paid for by the developer NOT the tax payer.	5/3/2022 1:48 PM
25	Stop rezoning to increase density. All of South Tampa should be R3. You cannot continue to grow because there isn't any room to grow. This current growth is ravaging the City's character. We are becoming just a warehouse for people that the city does not have resources to accommodate.	5/3/2022 1:45 PM
26	We are not doing this now.We need to increase the development fees so we can maintain the land that is being developed in an environmentally appropriate manner.	5/2/2022 4:22 PM
27	Cost of local gov is rising all the time in an older city	5/2/2022 3:01 PM
28	not just conservation of public resources, but conservation of neighborhoods. Not everyone wants to live in a concrete jungle. The Comprehensive plan DOES NOT take this into consideration.	5/2/2022 11:37 AM
29	In my professional opinion, the City has already lost in keeping the architecture similiar. These Miami-esque buildings do not belong, especially the new Waterstreet Towers.	5/2/2022 11:33 AM
30	Smart, strong, ENFORCABLE, zoning and planning are critical. Profit margins are planning this city - disastrous and stupid!	5/2/2022 9:11 AM
31	see previous response	4/29/2022 9:12 AM
32	Plant more trees please, more sustainable materials for construction and developers should plant trees if they are awarded construction or developing bids.	4/29/2022 8:40 AM
33	pays for itself	4/27/2022 8:07 PM
34	No more sprawl, please!!!	4/27/2022 11:18 AM
35	We need to be better stewards of our land, green spaces, trees, wildlife habit, especially endangered species, and our natural springs.	4/26/2022 1:42 PM
36	We do not need to develop new land. How about take old places, tear them down and rebuild on land that is already developed.	4/26/2022 12:03 PM
37	With the limited land available it is important that it is used efficiently.	4/26/2022 10:50 AM
38	Please stop increasing density	4/25/2022 8:12 PM
39	Well so many homes, apartments and businesses big or small are built in large areas of land and the smallest location that makes the buildings look so big. So I keep asking myself are the little bits of those who have been Floridians over 5 yrs being spread thin. I have not been able to get my first house and newly build house. I worked hard, I did all correct my income was too low, a single parent, i change my career and ready to try again, unfortunately i became ill and unable to support myself and my new career over 5 yrs, until this current moment i am still trying to look for a land building a farm house waterfront porch enjoy my grandbabies, and maybe a future service dog, my Hercules a black and white Shitzu 15 yrs old 17lbs, just passed away February 18, 2022 that has left me destroyed he was my co-polite no matter what and where we went. Hercules Samson Hernandez. Well, I really wonder if I will ever have my own, I now am told income tooo low so I am trying to got back to work part time, and pray social security does not take my check away, i am disable since 2009 and til current still with pain that is chronic and unbearable and if ALL the land disappears or is not treated well or left are the unable to live or build on or flood or sea level rises but that land is the only one left to the edge, than how can we Efficiently use any of the beautiful land, how can we continue to enjoy growth, land health, does anyone really know that we are still in love with the breeze, the sun, the land, the waters, the evening, the social the events, the new the old, the history and that is not even part of technology. Peace of mind peace and tranquility is a mother nature kind of go to place or a kind of not to go anywhere moment just chill of the beauty of land.	4/25/2022 6:25 PM
40	Assuring park land is critical.	4/25/2022 1:49 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

41	Sustainable land development is essential, not only when it comes to developing livable spaces but also efficient transportation. Expanding our roadways is not the answer - adding more lanes will only increase noise/air pollution and force us to sacrifice Tampa's beautiful parks and trees in favor of an inhospitable, concrete jungle. We should be focusing on high speed trains, which is what our city needs to accommodate its rapid growth and enter the new age of transportation. Dedicating bus-only lanes would be a step backwards.	4/24/2022 3:42 PM
42	This is a tricky, maybe even a bit push-pull, sustainable means capable of being continued at a certain level.... what certain level is this survey postulating?	4/23/2022 3:54 PM
43	Maximize land by mixing uses in vertical development. Increase density. End single family housing. Legalize missing middle housing.	4/21/2022 10:27 AM
44	We can't run out of land	4/20/2022 3:28 PM
45	The loss of the environment can be irreversible or take too long or require too much money to bring back. It makes sense to include this in master planning.	4/20/2022 2:33 PM
46	We can't keep building housing without proper roads and neighborhood resources	4/20/2022 11:54 AM
47	We need increase density near the core of Tampa and prioritize this at all costs.	4/18/2022 9:47 AM
48	Don't waste our taxes on beautifying things/areas that don't need it. For example 22nd St and i4, that water feature is a waste.	4/15/2022 8:30 PM
49	Think GREEN spaces, including on rooftops of new construction. Give tax incentives and make it happen	4/15/2022 12:05 PM
50	addition of green spaces and trees	4/15/2022 11:14 AM
51	See previous	4/14/2022 10:43 AM
52	It would be nice to see any new development done in a way that encourages open walkable spaces and isn't dominated by car centered infrastructure.	4/14/2022 10:06 AM
53	We need to impose stricter design standards - limits for impervious surfaces, planting more diversity/native plants, rewards for water and solar harvesting. Water harvesting on larger scales.	4/13/2022 11:05 AM
54	let the urban service area do its job to direct growth.	4/13/2022 10:18 AM
55	29th and lake is not being use efficiently they are making neighborhood value go down.	4/12/2022 3:08 PM
56	Denser development (as opposed to suburban sprawl and strip malls) preserves land for parks and other green space.	4/5/2022 4:06 PM
57	Another great statement that means different things to different people.	4/5/2022 2:49 PM
58	Please don't cover up all of our neighborhoods and greenspace with highways that only serve the wealthier portion of our community.	4/4/2022 2:06 PM
59	It is important to invest in smart development that serves all people for generations to come.	3/29/2022 10:40 AM
60	Don't let developers dictate what gets built and where...we have to live with the consequences after they've gone.	3/29/2022 8:26 AM
61	Before the city grows, areas need to be determined untouchable. I feel like Tampa needs to have a border to its growth and green areas need to be valued and protected.	3/28/2022 11:17 PM
62	The city should be have intensive mixed use development. People want to live near parks and greenspace so that should be part of it.	3/28/2022 4:44 PM
63	None of this should be done at the risk of people's home value being undercut/losing their homes due to eminent domain.	3/25/2022 11:07 AM
64	There have been way too many towers built along Bayshore in the last 10 years, adding so many more cars to the roads, without any increase in transportation options or any improvement in the roads in that area	3/25/2022 5:10 AM
65	Stop allowing mid-rises downtown (like the Aurora). That will need to be torn down rather than a more useful building like a high rise.	3/23/2022 6:56 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

66	Perhaps stop "developing land" and incentivize fixing and build closer to the urban core. Sprawl is bad for quality of life, for the environment...	3/23/2022 9:01 AM
67	Again, everyone wants this. These are not the proper questions. The City government should be defining a path and presenting the trade offs so informed decisions can be made.	3/22/2022 7:26 PM
68	Mayor said yesterday that only 4 percent of land left is buildable. If that's so the only way this question has merit is with holding back large corporations mega buildings for the rich. Which they won't do. She said we have to build our way to affordable housing not rent control.	3/22/2022 3:39 PM
69	Development and deforestation is a problem that our state is facing. Tampa should implement more projects to improve the quality of waterways, streets, and parks. 1. Rain gardens are needed (prevent stormwater runoff and excess fertilizers from entering waterways) 2. Plant more trees, native shrubs and flowers. This will help to improve biodiversity. 3. Mangroves need to be replanted along our waterways, the Riverwalk, and downtown. This will help improve the the quality of water and increase biodiversity. 4. Mode community gardens to fix the food desert problem in East and West Tampa—uplifting the community by connecting them through agriculture and conservation.	3/22/2022 2:43 PM
70	We don't need ANY MORE expansion! What is needed is revitalization of areas and improvement of utilities!	3/21/2022 5:37 PM
71	You already forgot this one. It is already rubber stamped with houses and roads.	3/19/2022 8:24 PM
72	The City is responsible for sustainable growth & development, and for keeping green spaces for all to enjoy.	3/19/2022 4:39 PM
73	This would be nice...but I believe there is still a reasonable amount of both here in the Bay Area. How about PUBLIC TRANSPORTATION!?!?	3/19/2022 12:45 PM
74	Avoiding Urban Sprawl is important. Building Up and not Out will be extremely important.	3/19/2022 10:11 AM
75	Cannot emphasize enough how important it is to make our world more sustainable for future generations. Super super important to maintain green spaces, alternative energy, reduce our carbon footprint with things like public transport to reduce the number of cars on the road. Crucial for our longevity as a city	3/18/2022 5:31 PM
76	Conserve public grounds without sacrificing public transportation: buses, trains, trolleys, etc	3/16/2022 8:37 AM
77	Important! We do not want to overcrowd our areas like Water Street (concrete canyon) is becoming.	3/15/2022 8:48 AM
78	We have got to keep our land stop building so much and clearing land out	3/14/2022 10:01 AM
79	We need to preserve natural areas for future generations and the health and happiness of current generations	3/10/2022 6:44 PM
80	There is very little green space in the area as compared to 10yrs ago.	3/9/2022 6:00 PM
81	Not every piece of land needs to be developed or up zoned. Keep green spaces and green. We are maxing out. Accessory Dwelling units added to existing lots should be allowed throughout the city. ADO protect the historic fabric and pattern of development and create more affordable housing options and income for residents. Stop allowing developers to clear lots to add multi-million units-- this isn't helping anyone but developers! Let the residents make income off their own properties with a small garage apartment for family members or a renter.	3/9/2022 11:37 AM
82	Screw sprawl it's ugly and only livable for certain groups of people. It's uncoordinated and creates a lot of unnecessary complications. It's inefficient. I believe it lowers aggregate efficiency.	3/6/2022 9:56 AM
83	I may not understand this question entirely. But I would prefer mixed-use-zoning instead of sprawl. Keep everything close together and make it reachable with mass transit.	3/5/2022 12:42 PM
84	Protect green space, adding greenways. Eliminate single family zoning. Promote dense, multi-use walkable neighborhoods.	3/2/2022 8:07 PM
85	We must find a way to make green building and structures the standard as opposed to a luxury.	3/1/2022 11:48 AM
86	Preserve areas for recreation and natural green spaces	3/1/2022 8:27 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

87	yes. and to make sure there are enough public parks and green spaces	2/28/2022 2:19 PM
88	Leave more green space for run off & places for people to breathe	2/26/2022 1:47 PM
89	I am a huge advocate and consumer of our great libraries and public parks.	2/25/2022 2:17 PM
90	It's extremely important. The city should know that. So why is no one in Tampa doing it?!! Buildings are still constructed like in the 80s with cheap materials that don't last, poor insulation (if any), no solar, nothing that looks like anyone is thinking about sustainability or conserving anything. ---Talking about it does not make it so. ----	2/25/2022 10:42 AM
91	Stop letting developer cut down all the oak trees while not taking care of city trees	2/24/2022 6:34 PM
92	The discussion/meetings held to have these decisions about land use related to conservation of public resources should include climate scientists, environmental scientists, geologists.. any NATURAL RESOURCE SCIENTIST. It's asinine to think that a planning committee with no scientific experience or knowledge or training or college education related to the environment and natural resources are making these decisions alone. Engage with the Patel School of Global Sustainability maybe... you need QUALIFIED SCIENTISTS to help and contribute crucial knowledge that is not known by basic planners.	2/24/2022 10:48 AM
93	We need green space and we need to have a place for animals and wildlife to co exist with us	2/24/2022 10:39 AM
94	Tampa has become one big urban heat island	2/24/2022 9:08 AM
95	Preserve natural landscapes, focus on rehabilitation and adaptive reuse of historic buildings, reuse old rails for public transportation-- reuse, renew, recycle what we already have- First. Don't destroy pristine land and water. Once it's development it can't/won't be returned to it's natural state.	2/24/2022 8:08 AM
96	Currently not seeing this...all the high rises in downtown...	2/24/2022 6:43 AM
97	Why would we be inefficient with our resources. Anyone that says we shouldn't be is here to make \$ off our resources to deplete them then go to their next destination once we are dead.	2/23/2022 1:42 PM
98	The way it is going now there is little regard in the planning, use of land and the resources. I don't see it improving anytime soon. Too much private interest being catered to.	2/23/2022 12:47 PM
99	stop letting developers clear-cut the trees for building...increase the fines substantially so they'll stop doing it anyway!	2/23/2022 12:05 PM
100	Same as before.	2/23/2022 11:55 AM
101	Allowing homes with a small foot print to be torn down and replaced with homes 2x the footprint creates an insurmountable impact on our lands ability to absorb heavy rains. Those impacting the land should offset these cost, not home owners in 1950s homes. Likewise for developing empty land with thousands of apartments	2/23/2022 11:43 AM
102	That statement is very important, but unless some stands up and fights for it we will continue to become a land of concrete and huge condos on Bayshore Blvd, which needs to have a moratorium on any additional condos (it should be considered for downtown and south of Gandy too)	2/23/2022 11:43 AM
103	This is very important, but this question is not clear in its application. This should also be considered, but needs to be balanced with the needs of community. Each situation is different and without context this question is misleading in how it will actually address any issues. Not a great question for planning purposes, but sounds great on a political brochure.	2/23/2022 11:21 AM
104	Don't develop any more land! It's important to repurpose the areas that sit in disrepair or vacant. It's so very important to preserve green spaces or create MORE where there are buildings and parking lots and stuff that is no longer useful. In those areas, repurpose or return them to green spaces rather than allow building in pristine areas that are not yet developed. More parking lots and excess retail space is such a sad waste of our precious land. Reuse!	2/23/2022 12:09 AM
105	All communities need balance. Concrete cities don't drain well during hurricanes. City planners no sub dividing of lots. One lot one house. Keep footprints of building similar. We need yards to absorb water.....	2/22/2022 9:59 PM
106	Impact fees and infrastructure development need to precede growth. Growth without putting in place schools, adequate roads and other infrastructure is unsustainable	2/22/2022 9:59 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

107	Build a mall more family fun places and a Sam's club or Costco	2/22/2022 8:20 PM
108	Besides maintaining and expanding the canopy and green space for sustainability, health and environmental reasons, protecting our water resources needs to be given attention. We can not live without adequate water and drinking water needs to pass stricter safety standards as the population continues to increase this is a critical public health issue. The PURE Initiative ignored the consultants suggestions and wants to create a cheap quick fix instead of taking time to reveal the full cost of a truly safe water treatment solution. There do not seem to be adequate measures to save drinking water that is wasted for lawns, golf courses, gardens. People could be encouraged to plants that require less water and gray water and rain water systems should be developed.	2/22/2022 8:16 PM
109	No over development!!!	2/22/2022 7:05 PM
110	this is not happening at all in this city , our water resource with all of this development is a no brainer , we cannot sustain that	2/22/2022 3:49 PM
111	Get rid of parking minimums and come up with basic parking rules for city streets outside of downtown.	2/22/2022 2:12 PM
112	Ha, Tampa has already ruined this by over building apartments and taking away any little sliver of land we had left...especially around the bay.	2/22/2022 1:48 PM
113	What does this mean exactly? It sound nice, really gives you the feels, but actually says nothing. Maybe you need to rewrite this with specificity.	2/22/2022 1:22 PM
114	I believe this goes hand in hand with the previous statement on climate protection. Extractive practices are not sustainable. Utilizing the land for green public/community spaces or renewable energy should take priority over businesses looking to utilize the land for their profit	2/22/2022 1:01 PM
115	Burden is on development	2/22/2022 12:44 PM
116	Reduce the approval of apartments buildings in residential areas. For instance, SOG is in a dead end of the bay, and in case of hurricane it will be a mass disaster and deaths because of the uncoordinated approval of all these building in this specific area. the Selmon Expressway is the scape route to whom live in the Pinellas County. To those to live in the SOG area, the scape route is through the local streets which floods! Each of these buildings approval are on the other hand a death sentence to those that already live in the area or will live. The city should have better laws so it can protect itself from unscrupulous business driven people.	2/22/2022 12:05 PM
117	The South Tampa area should serve as a perfect example of how important managing growth will become in the near future - the growth we are experiencing in this area is unsustainable if we are to maintain any sort of quality of life.	2/22/2022 11:43 AM
118	I think the city is past the point of no return. I'm seriously considering moving somewhere else that is less crowded. Approving giant apartment projects in south Tampa in the last decade with no way to move the additional traffic has made the quality of life go down. Try and get across Westshore from a side street!	2/22/2022 10:55 AM
119	Land, Bay views, rivers with Parks dedicated to the preservation of the heart of Tampa and Florida is a necessary element to the future.	2/22/2022 10:23 AM
120	Once again, the environment is important. Let's protect our public resources!	2/22/2022 9:28 AM
121	At the moment both the City and County continue to develop and develop without replacing natural resources.	2/22/2022 9:14 AM
122	Please stop incentivizing low density sprawl in rural suburbs (Apollo Beach, Seffner, and Ruskin, etc.), as it adds to traffic congestion, is harmful for the environment, and irresponsible planning.	2/22/2022 9:10 AM
123	The overbuilding of South Tampa is ridiculous. Reducing the permeable land to increase square footage of new builds is a recipe for disaster come the rainy/hurricane season. We continue to add condos and townhouses that aren't close to any real amenities (shopping, work, grocery) which only adds to the congestion on the road. This isn't sustainable. There will be more accidents, pedestrians included, due to the volume of people now living on the peninsula. I'm concerned about flooding issues on our streets and in peoples backyards, as flood plains have changed, so does the grading around new builds which will cause the water to go towards the older, lower houses. I'm concerned about the sheer volume of people on our	2/22/2022 8:58 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

tight and already-full roads and then adding more high-density housing in areas that have no true walkability. South Tampa isn't a downtown. Water Street is building in a sustainable fashion, trying to conform South Tampa into that doesn't make sense.

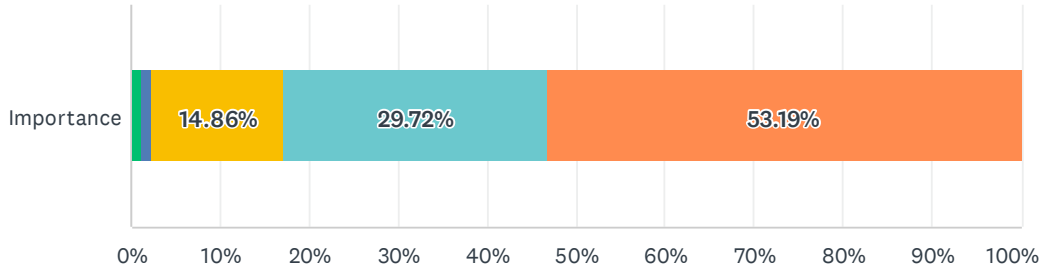

124	More green space, less noise	2/22/2022 8:49 AM
125	Prevent sprawl: We need sensible in-fill development, but with better parking, streets, traffic flow	2/22/2022 8:38 AM
126	I think this should be seriously considered when looking at the current construction code. Why is it that we have developers coming in and building multi million dollar plywood palace apartment complexes. This is not what is happening in the realm of condominiums. Only apartments seem to want to build stick properties. And then we have situations like Casabella on Southwest sure that within 10 or 15 years has to basically be rebuilt on the outside of the buildings because plywood is not a sustainable material In this climate	2/22/2022 8:21 AM
127	Hardly ever done but should.	2/22/2022 8:16 AM
128	Again, without sustainability, long-term planning is pointless as sea levels rise. Sustainability (optimizing commuter transit, encouraging more pedestrian and bike traffic, bans on styrofoam and plastic bags, city-wide composting programs) is literally the only way we all CAN live in here long term.	2/22/2022 8:13 AM
129	Stop building apartments!	2/22/2022 6:55 AM
130	Don't I've repopulate the areas. We do not have the capacity with our roads, traffic is already terrible as is	2/21/2022 9:07 PM
131	Zoning and land use codes need to be updated. Too many parking lots (717 parking etc) contribute almost nothing to our city and should be taxed higher to motivate them to do something with the land other than keeping it a parking lot	2/21/2022 8:38 PM
132	KEEP SINGLE FAMILY ZONING! We don't want multi family in our neighborhoods. Protect our homes!	2/21/2022 8:21 PM
133	Yes protect our nature and work smarter.	2/21/2022 8:17 PM
134	Be more specific.	2/21/2022 8:15 PM
135	All you have to do is check your utility bills to understand the criticality of the question at hand.	2/21/2022 6:55 PM
136	Developers need to foot this bill.	2/21/2022 6:11 PM
137	Such as what public resources? Wish this was more specific.	2/21/2022 6:01 PM
138	It fits into all the previous points	2/21/2022 5:44 PM
139	public resources should be defined	2/21/2022 5:42 PM
140	We need resources	2/21/2022 5:40 PM
141	Not every green space needs to be built on!! Focus on increasing green spaces!	2/21/2022 5:39 PM
142	Fundamental.	2/21/2022 5:38 PM
143	if we develop it should be on existing land ! only	2/21/2022 5:38 PM
144	Need more resilient shorelines	2/21/2022 10:27 AM
145	Land should be developed with public in mind primarily asking with private(vip)	2/20/2022 7:19 PM
146	South Tampa has been over developed and the infrastructure is horrid. We haven't fixed the roads to accommodate the neighborhoods we have, why are we overcrowding?	2/20/2022 6:47 PM
147	Not at the cost of developing housing, multiuse facilities, public transportation.	2/20/2022 9:15 AM
148	Lets grow up instead of out to preserve our ecosystem	2/20/2022 1:52 AM
149	Don't use buzz words. Elaborate what is meant by "in a sustainable way." It can mean different things to different people.	2/19/2022 6:42 PM
150	keep green spaces available throughout the City to allow for less pollution and more	2/19/2022 6:11 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

	opportunities for residents and visitors to come outdoors and explore the City.	
151	Suburban sprawl kills sustainability. We need to prioritize open public spaces for all residents.	2/19/2022 5:51 PM
152	We need to preserve our green spaces, build UP instead of out. Make sure to include green parks with lots of trees in every community.	2/19/2022 11:31 AM
153	Reclaiming nature is expensive and takes a very long time. We should not be flippant about developing our remaining green spaces.	2/18/2022 11:20 PM
154	We must think about future citizens, today's children, and ensure they will have a livable urban option here.	2/18/2022 8:06 PM
155	Allow for natural lakes, ponds, rivers and other bodies of water to have public access for parks or greenspace. This is vital since most don't live along the bays. Private owners should not crowd out public uses.	2/18/2022 7:12 PM
156	Sustainability and multi-use buildings/plans go to create a city that can support its own infrastructure even during times of change	2/18/2022 11:01 AM
157	Again, I will note the pre-classic Mayans. Keep building and stripping away the vegetation... see what happens when it rains, flooding. Watch what happens to the air quality... smog. And measure what happens to the temperature... it will increase. That is not conservation or sustainability in any way.	2/17/2022 7:58 AM

## Q11 Accessible and sustainable infrastructure: Invest in infrastructure that provides all citizens access to reliable services and amenities.

#	RESPONSES	DATE
1	I think it's important to use an equity lens some ALL can have the opportunity.	6/3/2022 4:43 PM
2	Not sure what you mean here? But yes we need solid stormwater infrastructure and bridges. With the population growing like it is ... yikes ... we need to be building infrastructure now.	6/1/2022 11:49 AM
3	Yes!	5/31/2022 8:30 PM
4	As a growing city, we will need more roads and paths to trusted and helpful places, however as a growing city some places of help or service could be out of reach at needed times for the people the reside in others parts of the city, to counter this highly possible issue, we must build more roads and buildings in more parts to make the easy access to help and services a reality.	5/31/2022 4:30 AM
5	The developers need to pay for half the cost of infrastructure.	5/24/2022 8:40 AM
6	Improvements in all infrastructures should be a major priority, Sewer collection pipes, water distribution pipes, water/sewer transfer stations, stormwater pipes, the building of the necessary stormwater retention ponds, the expansion and improvement of water and sewer treatment plants and the implementation of traffic control devices with the repair of problem roads.	5/23/2022 6:07 PM
7	Yes very important accessible trails bike path anything that could take the cars off the road will make Tampa sustainability of the future more bike paths and trails it's very important	5/23/2022 1:29 PM
8	If by reliable services and amenities, it includes how the city and utilities and transportation services are going to counter act the massive growth in the last 5 years to allow for sufficient and timely evacuations for weather emergencies, flooding in existing neighborhoods that has only gotten worse due to new developments and the city continuing to only look at the rich zip codes to make changes then yes, I say it is extremely important.	5/22/2022 12:49 PM
9	You have not taken care of the infrastructure currently required as stated in the current comprehensive plan and now you wish to provide ALL a choice. That may ensure ALL go without proper services	5/19/2022 4:46 PM
10	Yes, but with consideration of the environment, past history of the land, and the neighborhoods.	5/18/2022 4:09 PM
11	By which I presume you mean public transportation.	5/17/2022 6:50 PM
12	You mean more lanes, right? That is all you are investing in. We need more rails and less lanes. More busses and less cars on the streets. We have more than enough roads. Remove lanes for cars and add lanes for busses. Everywhere. Everyone should live a life without reliance on a car. You are not investing in that. You are investing in more reliance on cars as a primary mode of transport. Stop listening to the car lobby.	5/13/2022 9:13 PM
13	That is vague. Every politician says they want this. We keep voting and paying for infrastructure but our roads and runoff are in deplorable condition. No one is fixing the oblem. Only the new, large scale developments have infrastructure improvements.	5/11/2022 8:44 AM
14	Improve sidewalks and add wider sidewalks	5/10/2022 7:43 PM
15	As confusing as the roads can be. It is good to know there is access to all parts of FL.	5/10/2022 2:34 PM
16	There's already tons of tolls. The less tolls the better. However we need well organized roads.	5/9/2022 10:41 AM
17	General question. Infrastructure should encourage and support planned growth.	5/8/2022 2:53 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

18	Key	5/6/2022 10:56 AM
19	Equity is a buzzword...but we are not really seeing it operationalized in a way that results in outcomes for some of the most cost-burdened and disenfranchised people in county.	5/4/2022 12:48 PM
20	Again, people need to feel their neighborhoods are safe and services are reliable.	5/4/2022 6:46 AM
21	This will come as people work and play where they live.	5/3/2022 5:58 PM
22	Not sure this is needed in a Comprehensive Plan. It's just common sense that the City already does, the best that it can.	5/3/2022 1:50 PM
23	I strongly believe in striving for a more equitable world. Developing our cities and towns to be more walkable is one of the best ways (In my eyes) to accomplish this. So many of our society are stripped the freedom of mobility: our youth (0-14), our elderly, our disabled. A blind person can walk just fine, it's only when you ask them to drive a car do they run into problems. An old man with failing eye sight shouldn't drive even if he can technically. A young kid should be free to walk to the park, not be tethered to the schedules of their parents. These are all very anecdotal pieces but they paint a really good picture: Walkable cities produce more just societies.	5/2/2022 11:31 PM
24	Infrastructure is only now being addressed after close to 100 years of not maintaining it.	5/2/2022 4:23 PM
25	Self evident	5/2/2022 3:01 PM
26	We do not have an infrastructure in the city of Tampa that supports the comprehensive plan aggressive stance. You need to stop and think. Presently you are design communities so they will not last for the future. Everyday there are 6-8 road closures for water main repair. are you not paying attention???	5/2/2022 11:40 AM
27	Expand Transit, Re-brick our streets (especially 7th Ave), solidify a deal with the Rays and Build a Municipal stadium in Ybor. It would be the 4th City in the US to have a Stadium attached to an Historic District. Build it right and we know have enough stadiums for an Olympic Bid!	5/2/2022 11:38 AM
28	SIDEWALKS, SIDEWALKS, SIDEWALKS!!!	5/2/2022 9:12 AM
29	We should see the handicap are taken care of	4/27/2022 9:09 PM
30	within tampa we are doing this pretty well already...but need better transportation options...like access to airport and trains	4/27/2022 8:08 PM
31	This is essential. I won't use something if it's not reliable, and I'm sure that goes for everyone else, unless it's out of necessity. In the case of necessity, reliability will improve their quality of life.	4/27/2022 11:21 AM
32	Including accessibility and sustainability in plans for new construction rarely costs as much to be included in the original plans as it does to add those features later. We need to contract more architectural and construction firms that are experts in these fields.	4/26/2022 1:43 PM
33	We should have thought about infrastructure BEFORE all this building.	4/26/2022 12:04 PM
34	it depends, is there more money to be deducted from our low low low medium income, or those who cannot drive to a further location of a job in order to make more money, or are those who cannot take part of the future infrastructure and events and the care of natural land and earth will or how will they be part of that? Except if there are those who do not know how important it is to provide all citizens access to all services that reliable on keeping the city of tampa in an evolutionary visionary future amenities that will benefit all man kind and women kind... etc... kind.... many many even children are already saving the world and requesting better options... than yes it is somewhat important extremely but if not than why continue to push back those who just want to be a tranquil kinda of life.?	4/25/2022 6:30 PM
35	Rather obvious	4/25/2022 1:50 PM
36	High speed trains would be accessible and sustainable.	4/24/2022 3:46 PM
37	In a city / county abundantly endowed with services and amenities, equity of access has not been achieved. The social and moral health of city we are to become depends on it.	4/23/2022 3:58 PM
38	Because there are a lot of deaths here and we don't like traffic	4/23/2022 2:24 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

39	Because it is dangerous to walk in the road	4/23/2022 2:16 PM
40	6ft sidewalk minimum. Prioritize pedestrian and cycling infrastructure in new projects and major renovations. Work with local, regional, and state agencies to utilize CSX lines for public transportation. Provide light rail connections between the airport and local destinations.	4/21/2022 10:30 AM
41	For me this would be water, sanitation, and pedestrian- and bike-friendly infrastructure.	4/20/2022 2:36 PM
42	Transporation infrastructure. Not more parking!	4/18/2022 9:47 AM
43	Pass the transportation sales tax!	4/16/2022 7:10 PM
44	Too vague a question.	4/16/2022 4:47 PM
45	Infrastructure meaning roads and bridges.	4/15/2022 8:31 PM
46	Not everyone contributes equally. Everyone should get basic rights not all the privileges. Gotta work and pay for services. Maybe if they don't pay tax, they need to pay money to get in.	4/15/2022 1:57 PM
47	Implement Solar Roadways! < <a href="https://solarroadways.com/">https://solarroadways.com/</a> > Five government contracts have already been made! Imagine the transformation of Hillborough Ave, and other eyesore roads!!! Visit the website above and let's make this happen!	4/15/2022 12:18 PM
48	emphasis on supporting electric vehicles; solutions that eliminate traffic instead of continually expanding to accommodate more people.	4/15/2022 11:15 AM
49	Yes but also do not delay increasing development density because of assumptions about infrastructure capacity. Do a study if it's really that much of a concern. Infrastructure needs to be routinely updated anyways.	4/14/2022 10:44 AM
50	Make it walkable. Increase public transit too.	4/14/2022 10:06 AM
51	Seems that we are doing this now with the stormwater and water improvements - which is a great thing. Are there added benefits to placing powerlines below ground in protective conduits?	4/13/2022 11:06 AM
52	this seems a bit redundant	4/13/2022 10:18 AM
53	Without clean air, clean water, and food... humans and nature don't survive and amenities don't mean anything. It's time to get real and make this a pedestrian-friendly area with the infrastructure. It's past time to take a hard look at where clean water is going to come from.	4/12/2022 4:59 PM
54	Emphasis on transportation infrastructure like a real transit system available to all residents. Our only form is a sad excuse of what we call Bus Service that is one of the worst in the nation.	4/6/2022 3:30 PM
55	Investing in infrastructure that makes our city sustainable and resilient is very important. We must also make sure that we have revenue streams in place that can support the ongoing maintenance of our systems.	4/5/2022 6:02 PM
56	See above re walkable neighborhoods, good sidewalks, dedicated bike paths, extensive public transit (love the trolleys) and affordable housing.	4/5/2022 4:07 PM
57	Maybe say "Invest in sustainable infrastructure ..."	4/5/2022 2:50 PM
58	We need to focus on middle -income households.	3/31/2022 5:28 PM
59	I don't know what this question is asking.	3/29/2022 8:27 AM
60	Not exactly sure what this is referencing, but sure, if a service or amenity is going to be made available, it certainly should be reliable.	3/28/2022 4:45 PM
61	Broad and undefined term "infrastructure". What is meant? sewer systems, potable systems, parks, .... how about streetlighting which has fallen into abysmal disrepair.	3/24/2022 6:20 AM
62	The entire county needs passenger rail. Stop spending money on sidewalks and bike lanes and out everything into passenger rail. Then the city can focus on bikes and sidewalks.	3/23/2022 6:57 PM
63	If access implies roads for private cars, this question should be rephrased because that is not affordable for "all citizens."	3/22/2022 8:52 PM
64	Will never happen. Add a couple more miles to Riverwalk.....for who? The well to do mostly	3/22/2022 3:40 PM

City of Tampa 2045 Comprehensive Plan Vision Survey

and you know it

65	The trolley system needs to cater to a variety of neighborhoods. We need to connect the trolley system, bike-lanes, sidewalks, green-ways, etc. to unite the communities that are disconnected.	3/22/2022 2:44 PM
66	In addition to the Bright line Rail system the city desperately need light rail. Light rail should connect North through USF area and from Ybor through downtown, to Midtown to the Airport. Also consider partnering with St. Pete & Clearwater to connect a light rail system to the beaches.	3/20/2022 2:09 PM
67	This is important, but since the services are already out of reach for many people due to the fact the area is already overcrowded. I don't go many places anymore due to the fact there is too much traffic. And I use to go all over.	3/19/2022 8:26 PM
68	Transportation Infrastructure is critical to our City's growth and health (keeping commutes short and peds/bikes safe). We need to provide for all people too.	3/19/2022 4:41 PM
69	YES! Hello, we NEED PUBLIC TRANSPORTATION to get people around and support consistent access.	3/19/2022 12:46 PM
70	Public transportation will encourage use of downtown businesses.	3/16/2022 8:38 AM
71	Improve on the Bus system around Tampa and provide shelters at each and every bus stop. (I saw a mother and 2 small babies waiting in the rain (no shelter) for a bus!!!!)	3/15/2022 8:51 AM
72	TRAFFIC TRAFFIC TRAFFIC. The infrastructure is not at all adequate to handle the amount of people moving here	3/9/2022 6:01 PM
73	Commuter Trains! See SunRail in Orlando.	3/9/2022 11:38 AM
74	It depends on what services and amenities we are talking about. It's great to invest in our own residents but I don't want an over-inflated city budget on useless government programs. As long as there is a return on investment and it creates a cultural identity, I'm for it. But I would also like to keep living expenses and taxes low.	3/5/2022 12:44 PM
75	No cost benefits. Few people will use it and the city will continue to add to its massive debt!	3/1/2022 10:36 AM
76	We need extension of a trolley or train of some sort. Just busses and highways will not be good enough to further the development of tampa.	2/25/2022 9:02 PM
77	Especially elderly and children.	2/25/2022 2:18 PM
78	Again, of course this is extremely important. But nothing that happens construction-wise in Tampa looks sustainable and hardly accessible. What I see is I-275 being widened for cars, new housing projects being built without any ublic transportation anywhere nearby, no grocery stores that can be reached on foot even from new developements downtown. Not even a thought is given about NEW TAMPA becoming anything else but a bedroom community. In New Tampa, no one can buy even a loaf of bread wthout getting into their car. New apartment buildings are cheaply built with 80s standards on what was a wetland 5 years ago, trees are felled along Bruce B Downs to built yet more strip malls. In 2021!!! Unbelievable. Sustainability and modern infrastructure is all just talk.	2/25/2022 10:50 AM
79	This is extremely important; however, not at the expense of further increasing home values to where people that have lived in certain neighborhoods for generations are no longer able to afford their homes!	2/24/2022 7:08 PM
80	People with varying physical capabilities must be given the ability to access reliable services and amenities.	2/24/2022 7:05 PM
81	Consider the additional impact all the multi-family housing is putting on our aging infrastructure.	2/24/2022 6:35 PM
82	This is an equity concern - it must be done. Minority, POC, and low income communities suffer the most in Tampa and deserve to have the same standards of living or quality of life as those on Davis Islands, South Tampa, Hyde Park, and Downtown/Channelside areas.	2/24/2022 10:49 AM
83	People want to live in place. Moving has become strenuous, stressful, and out of control finically; however, people want the freedom to start explore new career opportunities and shouldn't be forced to move or relocate within the city. Accessible and sustainable	2/24/2022 8:11 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

infrastructure that allows people to easily commute across the city/county would provide people more options to live in place while exploring better financial opportunities.

84	Tampa is not pedestrian-friendly. There are roads with no safe pedestrian walk. Please build more safe and accessible walks.	2/23/2022 5:02 PM
85	Citywide	2/23/2022 2:15 PM
86	I mean ADA is federal law & disabled people make up a large part of the population, unless of course you are hoping COVID will kill us off. Also low income & houseless PEOPLE are more likely to be disabled too.	2/23/2022 1:43 PM
87	Hillsborough County and the City of Tampa have talked about this for years. All you have to do is drive down MacDill, Grady, Himes, etc. These roads are an embarrassment to our city. Once again someone needs to speak up and actually listen to the people living in the community.	2/23/2022 11:47 AM
88	Stop adding more car lanes and invest in public transportation.	2/23/2022 11:34 AM
89	Of course this is important, but impossible to achieve. We can barely fix potholes in the streets, and we want to insure ALL citizens have access to services and amenities? Again, this is not a real question. Sounds great on paper but there is no way to insure there will be enough funding to build a park, tennis courts, or anything in areas where there is not enough tax revenue to support the cost. Leading question without reality of how to adequately plan and prepare to do so.	2/23/2022 11:24 AM
90	Need to watch the drainage with all the new development. It feels like it's not being considered.	2/23/2022 6:44 AM
91	South Tampa roads become impassable when it rains. Not during a hurricane, but everyday summer storms. How is this not fixed yet? If it's still an issue in 20 years someone has failed epically.	2/23/2022 12:50 AM
92	Stop creating and developing in green areas. Renew and rebuild areas that are in need of updates. Don't allow more land to be developed, allow for a HUGE reduction in permitting costs, tax breaks, etc. for those who re-develop and beautify places that need it.	2/23/2022 12:10 AM
93	Great sentiment, but needs follow through in the "invest" part.	2/22/2022 10:26 PM
94	East Tampa and "Suitcase City" have gotten the short end of the stick economically and would benefit from improved access to services, particularly transportation	2/22/2022 10:01 PM
95	Water quality, recycling, green spaces, epa....	2/22/2022 10:00 PM
96	We have nothing here it's terrible	2/22/2022 8:21 PM
97	Having services that are close and easy to get to or offering shuttle service to make that possible would help reduce traffic congestion. In many countries can services are available throughout the day so that people can walk only 1-2 blocks to arrive at a destination.	2/22/2022 8:20 PM
98	We have enough people, we need more infrastructure in SOG!!!!!! ( south of Gandy)	2/22/2022 7:19 PM
99	Pave our roads!!	2/22/2022 4:55 PM
100	As mentioned before, Tampa is so far behind infrastructure...good luck getting this done by 2045 as Tampa just sends out surveys and does not act on much at all.	2/22/2022 1:49 PM
101	The city should look into proper "green infrastructure" and road diets in heavily congested areas as well as reduce parking minimums and set back requirements, this all will lead to less stress on already under performing infrastructure.	2/22/2022 1:38 PM
102	See my other comments. The same goes for this statement.	2/22/2022 1:23 PM
103	better government services like healthcare and public transportation will allow Tampa citizens to pursue educational and professional growth	2/22/2022 1:04 PM
104	Tampa has such a unique opportunity to be the center of all of the gulf coast of Florida. Maintaining the growth, infrastructure and accessibility of this city must be a priority	2/22/2022 12:28 PM
105	Support local business and also foment new local business.	2/22/2022 12:08 PM
106	Again, not with tax payer's money. Life here was just fine until the rest of the world was invited down.	2/22/2022 10:57 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

107	We can't be great until we're ALL good.	2/22/2022 9:29 AM
108	People of all income levels and socioeconomic status should have the right to reach goods and services.	2/22/2022 9:11 AM
109	The crosstown is now a noise hazard, build a sound barrier. It's ruining our neighborhoods.	2/22/2022 8:49 AM
110	I think that this question is loaded. I think that there should be a very defined definition of infrastructure for that purpose. Some peoples idea of infrastructure is sewer lines and other items necessary for our life. Other people believe the infrastructure such as sidewalks and Roads are also included in that? And I think the novices would have a very difficult time defining the two so there is an assumption that the person who would answer this would automatically know the definition	2/22/2022 8:22 AM
111	This is crucial. However, this needs to be done with sustainability and environmental impact in mind. We need to do both to be the best.	2/22/2022 8:13 AM
112	Diversity makes the city strong and joyful	2/22/2022 8:08 AM
113	Again, focus on this and stop allowing the building of these apartment complexes.	2/22/2022 6:55 AM
114	Our city is extremely inaccessible starting at the lack of sidewalks and our transportation systems aren't very accessible.	2/21/2022 8:18 PM
115	Sounds nice, but again, what does this mean? Be more specific.	2/21/2022 8:17 PM
116	Citizens across the spectrum need/must vote to change the cycle.	2/21/2022 6:58 PM
117	Developers need to contribute to this expense.	2/21/2022 6:12 PM
118	Again - very vague statement. 'All citizens access'....to what exactly?	2/21/2022 6:02 PM
119	We should be weaning ourselves off of car dependent infrastructure to truly make the whole city accessible to all its residents and visitors.	2/21/2022 6:00 PM
120	Stop building roads and go to rail and bus	2/21/2022 5:51 PM
121	Do not know if you can give it to all citizens, but as many as possible and distributed throughout the city, not just South Tampa	2/21/2022 5:46 PM
122	what does this really mean? Clean streets and rights of way? or just water and sewer?	2/21/2022 5:43 PM
123	The middle class will most likely not be included in "all"	2/21/2022 5:41 PM
124	S tpa is in desperate need for another elem, middle AND high school. We also need another hospital. Too many new builds but not enough infrastructure to support them!	2/21/2022 5:40 PM
125	you tax property owners enough. so at least keep the infrastructure in better shape for god sake	2/21/2022 5:39 PM
126	Stop planting trees near roads & sidewalks. They grow and require \$\$ to repair/remove. They mess up the roads	2/21/2022 10:29 AM
127	Everybody should be able to get to the new rays ybor stadium and marijuana in ybor city	2/20/2022 7:20 PM
128	Transit, bicycle, and pedestrian infrastructure should be our highest priority	2/20/2022 2:43 PM
129	Desperate for premium mass transit like rail with brt spurs	2/20/2022 1:53 AM
130	Infrastructure is the foundation of reliable services and amenities.	2/19/2022 6:43 PM
131	Safe roads and reliable drinking water are at the top of the list.	2/19/2022 5:52 PM
132	I live in Riverview, it seems that infrastructure was an after thought.	2/19/2022 10:45 AM
133	It's past time to move forward on water reuse. Pursue policies and legislation ensuring access to solar generation for individual homes.	2/19/2022 12:57 AM
134	Again, give ALL groups access to the benefits of city living.	2/18/2022 8:07 PM
135	Parks and greenspace is one of the biggest ways a city can give residents access to public amenities. Several parks need a mastplan makeover. Big examples include Swann Circle Park, Al Lopez Park, Lowery Park, Sulphur Springs tower park(could be botanical garden),	2/18/2022 7:19 PM

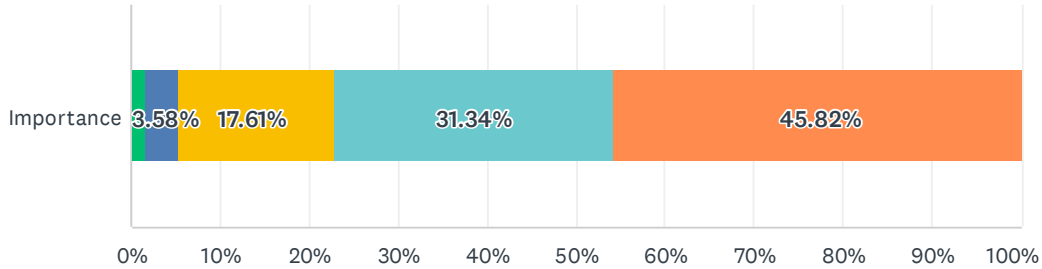

## City of Tampa 2045 Comprehensive Plan Vision Survey

McKay Bay park, Davis Island park around the Southside marina, Also new greenspace should be developed, Tampa Convention center drop off area should be green with a fountain, the north point of Davis Island where a smallish TGH building is.

136	Especially those who are currently and/or were historically cut out and marginalized - communities of color, people with disabilities, low income communities, unhoused people. Everyone has a right to the city	2/18/2022 7:11 PM
137	If you don't have clean water and a safe place to live... you don't want to live there. Infrastructure is way more than roads. Get the utility necessity under control. The demand for water and power is way up there. What about the waterways? Have you looked at the pollution in the rivers and bay? The homeless population uses the river as a bathroom. Get some decent housing in exchange for helping the community until they can get a job and that might be a great start. But that will require infrastructure to areas where there aren't any right now. Again, it's time for creativity.	2/17/2022 8:03 AM

### Q13 Diverse economic growth: Support a diverse economy that provides a variety of jobs and opportunity for everyone.

#	RESPONSES	DATE
1	Maybe training scholarships for at risk youths ? Trades and mentors etc .	6/4/2022 11:58 PM
2	More effort is needed to achieve reaching everyone.	6/3/2022 4:43 PM
3	Without this our city will lack an important element	6/3/2022 4:40 PM
4	Yes ... but don't start "picking industries". Promote and support, but don't get into the subsidy game.	6/1/2022 11:50 AM
5	There are many jobs growing everyday, as we continue to move forward we the people of Tampa should be investing in all types of those jobs in order to keep up with the demand of an ever evolving society. It's what will keep this city alive for years even after 2145.	5/31/2022 4:33 AM
6	However, this area should not focus and encourage a manufacturing based economy. That pollutes the area water, ground and air quickly. Like Piney Point has done.	5/23/2022 6:10 PM
7	Yes all races of people must enjoy the economic growth of Tampa in order for Tampa overall financial growth to be establish	5/23/2022 1:30 PM
8	It's too late for this	5/22/2022 12:50 PM
9	Fix what you have now and just watch the economic growth.	5/19/2022 4:48 PM
10	This includes those over 55. The market has to include older adults who still want to work but cannot do or do not want full time or physically challenging work such as in a warehouse. Make sure there are fair wages too.	5/18/2022 4:10 PM
11	Bring back training in trades for students in high school. Stop measuring success of schools based on the number of students going to college.	5/18/2022 12:32 PM
12	Creating a desirable and sustainable place to live will facilitate a vibrant economy	5/17/2022 2:03 PM
13	Good jobs are an essential component of the success of a city.	5/14/2022 1:35 PM
14	That would mean you invest in locals and not in foreign investors. I know you're not going to do that. So, I'm not even going to bother.	5/13/2022 9:14 PM
15	Everyone should be able to work and live in Tampa. No one should be evicted due to gentrification.	5/11/2022 8:45 AM
16	Limit mega box stores and support businesses that are owned by people in the community.	5/10/2022 6:45 PM
17	Our economy is robust, and needs to continue to provide a fresh stream of jobs and new companies created in Tampa.	5/10/2022 2:54 PM
18	Hell yes!!! Let's support and grow !! Small businesses create great jobs and provide a close knit sense of community in the largest cities.	5/10/2022 2:35 PM
19	The state should raise the minimum wage and maybe people would want to work more	5/9/2022 10:41 AM
20	Comp plan should support opportunities for all, jobs and resulting opportunities largely based on market forces.	5/8/2022 2:55 PM
21	We've seen what a lack of diversity does in times of crisis and it's not positive.	5/4/2022 5:58 PM
22	We not only need to work on a diverse economy...but a equitable one that does not perpetuate such huge economic divides between residents. It's an exploitive circumstance making Hillsborough one of the least just places to live economically.	5/4/2022 12:49 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

23	Again, a no brainer. This should not even be a discussion.	5/4/2022 6:47 AM
24	If you build it, they will come. Build places to live around the jobs, then people will build fun things to do around those places as well. This will make it easier for successful public transportation.	5/3/2022 5:59 PM
25	Same as previous answer. Why is this even part of a Comprehensive Plan.	5/3/2022 1:52 PM
26	Again I think walkable cities and towns address this problem. When you make a neighborhood walkable, you inevitably make it denser. You inevitably create an economy based on smaller scales. You get smaller groceries, smaller cafes, smaller restaurants, smaller libraries, smaller everything. I believe this is 100% a good thing. When you have five different small businesses vs one Costco, which do you think would create a "variety of jobs?" It is obvious: Walkable neighborhoods produce local economies friendly to small businesses and these smaller businesses are what produce the diverse economy which we need.	5/2/2022 11:34 PM
27	The diversity will be maintained only by the corporations and the workforce available.	5/2/2022 4:23 PM
28	Self explanatory	5/2/2022 3:01 PM
29	Look at where the City of Tampa is today. an inordinant amount of homeless and almost no affordable housing. evethough the jobs are available affordable housing is at a premium	5/2/2022 11:42 AM
30	As long as we don't become California and tax us to death. Focus on Medical, IT, Financial and Manufacturing. No drilling on or offshore or any refining for that matter.	5/2/2022 11:39 AM
31	Stop turning commercial, job-creating property into residential.	5/2/2022 9:12 AM
32	too much government. allow small business owners to thrive and support community through jobs	4/29/2022 9:13 AM
33	doing pretty well already for those who want to work	4/27/2022 8:09 PM
34	Everything, including the economy, needs diversity. Diversity increases resiliency. If we eat one type of food for the rest of our lives, then we don't get the nutrients we need and are more susceptible to illnesses and nutrient deficiencies. If we have a singular economy, then we are more susceptible to fluctuations and downturns in the market. I don't want to live somewhere that is on the brink of collapsing.	4/27/2022 11:28 AM
35	Diversification is key. We don't want to be a city that's only driven by tourism or shipping. Having the city's revenue being driven by only 1-2 industries is too fragile. Having multiple industries is more reliable and recession-proof.	4/26/2022 4:46 PM
36	We have to be wise. We can't create thousands of new lower income jobs if those people can't afford to live in our nearby housing. We need to recruit and develop high tech, cutting edge companies across all industries, not dying industries.	4/26/2022 1:45 PM
37	It is critical that we create opportunities for all our citizens to prosper.	4/26/2022 10:51 AM
38	Job growth needs to be centered around salaried higher paying positions	4/25/2022 8:13 PM
39	I always tell myself why are we all separate? Why must many be in competition of our culture and innovative ways, why because competition against one and all has never been totally discussed or put to rest. Diverse economic growth we all need to try to assist each other, we all are always looking for our ways to better ourselves. Many of us do not care to understand or choose not to participate with many awesome types of jobs. Everyone chooses to do what is needed or a must to keep on living and surviving on what ever type of job is there, so why not gives those who really want to do better or extend their experiences and teach or make a blog or video on the importance of learning from the ground up and along the way many can view all types of jobs that needed. Like now there is not enough servers, not enough deliveries, etc.. I believe many of us have never worked hard, not understood the ground up to establish a business or corporate world because there was no one to explain or show them or mentioned that it is okay to work and learn any job, because that little bit of experience goes a long way for many of us struggling to live and struggling to keep businesses going. Me I am diversified. I can do almost all and any job that I have done and never had, but willing to learn.. FEMA needed many to drive trucks to deliver important items, medicines water, foods, clothes etc. i would have do so if I knew how to.	4/25/2022 6:40 PM
40	Tampa is doing well on diverse options, especially building on medical device sector and up	4/25/2022 1:50 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

	and coming incubator projects	
41	While the language of “diverse economy that provides a variety of jobs and opportunity” speaks involvement rates among underrepresented members of the community, a more global view of diverse economy also produces a more resilient economy that moves with change.	4/23/2022 4:04 PM
42	Because then you can grow to have a big business	4/23/2022 2:25 PM
43	Because it can be a good way for poor people to get money	4/23/2022 2:17 PM
44	I'm not sure if this is important or not. Whatever grows the economy the fastest is probably what we need to do.	4/15/2022 5:20 PM
45	You can't have a fish climb tree or a monkey go pearl diving.	4/15/2022 1:57 PM
46	I'm going to take this to mean that we need to ensure that there's a low income housing in every corner of this county. Like, I'm sorry south of gandy but who do you expect to fix your cars, clean your house and serve you meals if you don't have housing for poor people in your area? Not that anyone should be poor just so that rich people can have working slaves though. The minimum wage needs to be raised to a living wage.	4/14/2022 10:45 AM
47	Tampa's job market is already pretty diverse. This doesn't need to be a focus.	4/14/2022 10:06 AM
48	We need employers to pay MUCH more than they are now. Higher paying jobs are imperative.	4/14/2022 10:01 AM
49	This goes hand in hand with providing various affordable of housing all over Tampa...not in specific developments. If there are various jobs and various housing types, there will be a diverse and vibrant community.	4/13/2022 11:08 AM
50	like the recent emphasis on trades. would love to see more investment in home-grown entrepreneurship, maker-spaces, etc	4/13/2022 10:20 AM
51	This is great... but it needs to start with the people that are here now and the modern way people work. It's like any other portfolio... if you put too much into one or two things, there is a good chance it crumbles.	4/12/2022 5:02 PM
52	I believe a diverse economy with a variety of jobs that require differing skill sets and education levels is very important; however, creating equitable access to existing employment opportunities is of greater urgency.	4/5/2022 6:05 PM
53	Well sure. This seems to go without saying.	4/5/2022 4:07 PM
54	How would you prevent this and why?	3/29/2022 8:29 AM
55	I think the market will have a way of determining this itself.	3/28/2022 11:17 PM
56	Creating an attractive live/work/play city will attract diverse businesses that want to have their employees here.	3/28/2022 4:47 PM
57	Search for more international corporations that could potential relocate here.	3/23/2022 6:57 PM
58	access to better jobs would contribute significantly to solving our problem of affordable housing.	3/23/2022 12:46 PM
59	Never happen . With housing so expensive only well educated with family money and good jobs live here	3/22/2022 3:42 PM
60	Our economy should be as diverse as our people (in other words very)	3/22/2022 1:11 PM
61	We don't need any more tax deductions for new business that just crowd out the environment that existed before man ruined it.	3/19/2022 8:28 PM
62	Keeping our economy diverse is important for health growth & wellness or our region. Tampa Bay goes as Tampa goes. We lead the region, but we need to work with our partners at St Petersburg, Hillsborough County, Pinellas County and Pasco County.	3/19/2022 4:43 PM
63	Diversity in employment would be great, if it were more reasonable and price-conscious to get people around.	3/19/2022 12:46 PM
64	I work in the video game industry at a small indie studio here in Tampa and would love to see our community of game developers grow and flourish!	3/6/2022 9:57 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

65	It's okay to have a city that specializes in a few markets, but it doesn't hurt to diversify. One thing is for sure though, tech is the future and we should absolutely try to create jobs for that.	3/5/2022 12:48 PM
66	It allows better service for those who live in the Tampa area.	3/1/2022 11:49 AM
67	Hillsborough County is large and as such includes people of all backgrounds, abilities, etc.... how would you not. The challenge right now is how do you do this while still ensuring that there is affordability for all to live, eat, etc... This is currently under threat in the area.	2/24/2022 7:06 PM
68	NEED A WAGE INCREASE	2/24/2022 10:50 AM
69	Opportunities for everyone should be encouraged. Bring in and encourage large companies to make Tampa their home office.	2/24/2022 8:13 AM
70	Yes diversity is important but that naturally arises when you don't white wash over a population & you support people to LIVE.	2/23/2022 1:44 PM
71	Of course!	2/23/2022 12:47 PM
72	Please see previous comments as it relates.	2/23/2022 11:56 AM
73	I think we are pretty good at this one.	2/23/2022 11:47 AM
74	This is not the role of local government. Local government does not create job nor can it dictate what types of jobs are created by private sector or whom they should hire or not hire. Local government needs to create a community that allows for better mass transportation, better schools, better traffic flow and public safety so companies want to do business here. We have laws in place to help with diversity compliance and many companies and local government already have diversity mission in place. This question does not belong as part of a community planning.	2/23/2022 11:28 AM
75	Not important at all now. The opportunity is rich here...for everyone!	2/23/2022 12:10 AM
76	The way to protect our community from economic downturns is by having a diversified economy. We cannot get rid of all of our industry to create more waterfront housing, particularly given the lack of other waterfront industries on the Gulf Coast	2/22/2022 10:03 PM
77	We need education and training for all areas. We don't know what jobs we will need or what skills we will be teaching but support for public education is always a great way to go	2/22/2022 10:02 PM
78	Educational opportunities and apprenticeships provided for a wide variety of services , trades should be offered. Businesses that will hire and train local employees should be encouraged.	2/22/2022 8:24 PM
79	Make a mall or rebuild Britton plaza	2/22/2022 8:21 PM
80	Working class citizens are being ignored for companies coming in from the outside with high-wage jobs that also go to outsiders.	2/22/2022 2:15 PM
81	I do not find the need for Tampa to keep calling out the keywords that satisfy certain groups just to win a vote over. EVERYONE deserves opportunity.	2/22/2022 1:50 PM
82	We need careers not just jobs.	2/22/2022 1:23 PM
83	Tampa has grown as a tech hub but we need diverse jobs, not just growing a professional class and pushing out those in service or physical labor	2/22/2022 1:06 PM
84	Due to overdevelopment lots of services are leaving our area because rent cost is too much. I want to support my area not drive a half an hour for goods or services	2/22/2022 1:04 PM
85	Keep taxes low to encourage employers to move HQ here.	2/22/2022 12:45 PM
86	Most of the jobs are bring people for temporary construction jobs. We need long term fixed jobs... so the city doesn't become a San Francisco city, full of homeless people and drug users.	2/22/2022 12:10 PM
87	This is the job of a free market system, not government.	2/22/2022 10:57 AM
88	If people dont have work, they cant spend on pleasure	2/22/2022 10:24 AM
89	Not your job. Tampa is hugely diverse, and we all work well with each other. Opportunities are plentiful.	2/22/2022 10:08 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

90	The increase in rent and homes is not affordable any longer.	2/22/2022 9:34 AM
91	There should be opportunities for all, though Florida specific industries will always be unique and deserve attention.	2/22/2022 9:29 AM
92	We need a diverse economy so when we have downturns we don't get hit hard	2/22/2022 9:16 AM
93	Please fix the infrastructure, and rein in development so we can produce a viable, and sustainable economy.	2/22/2022 9:12 AM
94	I think things like this come together organically and don't need to be forced. Tampa is a well-known market and the economy and opportunity is here already.	2/22/2022 8:59 AM
95	In that diversity you also have to figure out how to house the people who are on the lowest wrongs of that employment structure. Currently that housing market is almost nonexistent. Which is intern hurting the folks who need the most help by causing more evictions because people are renting above their ability to pay	2/22/2022 8:24 AM
96	Perhaps just where we live (S Tampa) but it doesn't seem like we need more jobs here given the rate of people moving here. I'm sure that's short-sighted on my part, but we're feeling overwhelmed and compacted by the volume of people flooding our neighborhoods.	2/22/2022 8:15 AM
97	When we invest in our workers they will always invest in us. The workers run the city.	2/21/2022 8:20 PM
98	How are you using "diverse" here? This sounds like a mash-up of two different ideas - an economy that isn't too reliant on any one industry (service/tourism, e.g.), and some kind of social diversity.	2/21/2022 8:19 PM
99	Better jobs not a variety of jobs	2/21/2022 5:51 PM
100	Diverse economies are stronger economies. And we need people to make more money.	2/21/2022 5:46 PM
101	what does this mean and how is it accounted for? today we have jobs that cannot keep up with rent and food costs	2/21/2022 5:45 PM
102	A diverse economy??? What exactly does that word salad mean?? Stop trying to be so woke & explain in detail what you are trying to accomplish!!	2/21/2022 5:41 PM
103	well what other choice do u have nepotism?	2/21/2022 5:41 PM
104	engineer the City to 'thrive'.	2/21/2022 5:38 PM
105	Variety has limits. Can't have everything for everyone but certainly a broad spectrum is welcome.	2/21/2022 11:23 AM
106	Industrial zoning is dwindling, we need less service jobs	2/21/2022 10:38 AM
107	Gotta bring the community together around the Ray's new ybor stadium and marijuana	2/20/2022 7:20 PM
108	This is very important, but outside the guardrails of what our comp plan should be guiding.	2/19/2022 10:15 PM
109	Tampa's economic diversity is what helps it survive economic downturns. What do the city and county propose to do to "support" a diverse economy? That is a complex process!	2/19/2022 6:45 PM
110	This is not Orlando. We have multiple industries that drive our economy - military, shipping/logistics, sports, higher education institutions, entertainment/arts, etc. Tourism is great, but we need to support the other industries that drive revenue as well.	2/19/2022 5:54 PM
111	This is important insofar as it lifts up our neighbors and makes our community more equal. Diversity of jobs for the sake of attracting rich people and causing displacement is not desirable in and of it's self	2/18/2022 11:21 PM
112	This will help build a strong urban community that will be able to prosper into the future.	2/18/2022 8:09 PM
113	Policies that promote job flexibility - home-based business, micro retail and manufacturing space, pop-up and mobile spaces - evaluate need for these types of tools. Evaluate ecological study and needs for natural resource bases business - shrimping, eco-tourism	2/18/2022 7:55 PM
114	Recruit HITECH companies,reduce regulations, etc	2/18/2022 7:20 PM
115	This gives the chance for our area to grow diversely and meet the needs of all education levels	2/18/2022 11:02 AM

116

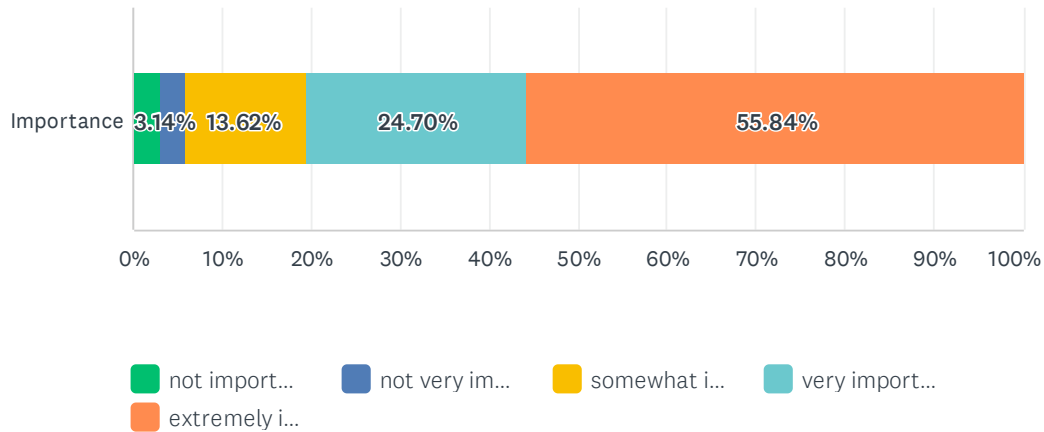

Of course, this is important. But the role of the city and the county is to make it possible for private industry to get this happening. If you don't address issues like housing, transportation, and infrastructure... the area will not be attractive to businesses. On the east coast, the Brightline train makes it reasonable to go between Miami, Ft. Lauderdale, and West Palm Beach. Part of the diverse economic growth is moving people around efficiently. Do that and the businesses will come.

---

2/17/2022 8:12 AM

### Q15 Resilience to climate-related and other global hazards: Prepare to withstand, recover from, and adapt to changes in environmental, economic, and other global events.

Answered: 668 Skipped: 55

	NOT IMPORTANT AT ALL	NOT VERY IMPORTANT	SOMEWHAT IMPORTANT	VERY IMPORTANT	EXTREMELY IMPORTANT	TOTAL	WEIGHTED AVERAGE
Importance	3.14% 21	2.69% 18	13.62% 91	24.70% 165	55.84% 373	668	4.27

## Q16 (Optional) Please comment on why you rated this statement this way or state what you feel should be included in the Comprehensive Plan as it relates to this statement.

Answered: 139 Skipped: 584

#	RESPONSES	DATE
1	storm sewers and drainage	6/4/2022 11:58 PM
2	It is coming.	6/1/2022 11:50 AM
3	We live in a hurricane area with many flood zones	6/1/2022 8:40 AM
4	Stop allowing commercial and residential development in environmental wet lands that flood.	5/31/2022 8:33 PM
5	We live on a planet where, survival of the fittest, is not just a phrase. We as humans have got to the point that we are at today as a species by always adapting to and thriving in our environment, however, we still cannot control the forces of nature and prevent the hurricanes from coming to our shores, yet. So even though we can survive such events of nature, our infrastructure cannot always do the same. It only makes sense to hope for the best and prepare for the worse, with stronger built housing, and other buildings, along with more measures and counters to high waters, strong winds, and heavy debris, we would have to worry about less during hurricane season, as well as rebuild less due to less damage and less of of housing or roads, which in turn saves more money and more importantly saves more lives, because after, even though its survival of the fittest, we got to our position as a species by looking out for everyone.	5/31/2022 4:42 AM
6	Tampa/Hillsborough should not develop a manufacturing based economy because the pollution the manufacturing companies cause with trigger massive climate change events.	5/23/2022 6:13 PM
7	Pollution of the day and runoff must be addressed this will ensure a clean Tampa Bay and sustainable drinking water for the future of Tampa	5/23/2022 1:30 PM
8	The city can allow developers and worsening infrastructures because it's not factored in with development and growth of the city but without the city having a plan to environmental, economic and global events, then you will have reversed any good you thought you were doing for the city	5/22/2022 12:55 PM
9	Again what assumptions are you making. Adapting is a very fluid concept and probably the safer of the above 3.	5/19/2022 4:52 PM
10	Really...do I have to?:)	5/18/2022 4:11 PM
11	Regardless of what the reasons for the sea level rise, we can't deny that it is happening. With so much of the area on the water, we can expect huge changes in the coastal and marsh areas in the next 50 years.	5/17/2022 6:51 PM
12	The rich will be fine. Defend the poor. Otherwise, you are the enemy.	5/13/2022 9:15 PM
13	This begins and ends with transportation for me. Living in a miasma of car pollution with highways crisscrossing our waterways is not sustainable.	5/13/2022 3:30 PM
14	A lot of our current flooding is because of over development, a huge population influx, destruction of our tree canopies. By cramming MacMansions on lots that previously had a modest sized home creates more flooding because there is less surface area for it to be absorbed. The city of Tampa is creating this environmental disaster. More toilets more runoff less clean water.	5/11/2022 8:50 AM
15	Fix the flooding issues in south tampa by fixing storm drain issues	5/10/2022 7:45 PM
16	Plant long lived trees, reduce waste, reduce traffic, and provide economic incentives to up grade old buildings.	5/10/2022 6:47 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

17	It's difficult to fight mother nature, but it's essential that we do our part to not make it worse.	5/10/2022 2:55 PM
18	Hurricane season is real, YES, lets prepare and show our kids to prepare for them too! I moved to FL during H Maria and it was unexpected and nerve wracking. The locals were the only reason we got through it.	5/10/2022 2:36 PM
19	Plan should encourage responsible development, other resources are better equipped to handle adaptation to climate and global hazards including building codes and public safety.	5/8/2022 2:56 PM
20	It is very hard to predict weather, economy and pandemic or war, therefore being reactive rather than proactive is logical and less costly.	5/7/2022 5:38 PM
21	Just as important as protection of natural resources.	5/4/2022 5:59 PM
22	CHHA needs to be enforced and protected. Stop growth in these areas!	5/4/2022 5:46 PM
23	We continue to see significant impact from climate-related change, but little policies or practices that help counter human impact. This goes back to the need to create sustainable and equitable conditions for people. All of these principles are linked but not considered together.	5/4/2022 12:51 PM
24	This is bordering on climate change propaganda. No comment.	5/4/2022 6:48 AM
25	Yet you, the city, is allowing the growth along Westshore Blvd. to take place near Gandy Blvd. and southward. You are creating a huge problem for the City's future. Rising sea levels without a buffer should have been part of your plan years ago. You should have stayed on the east side of Westshore Blvd. just like most of Bayshore Blvd. is on the west side.	5/3/2022 1:58 PM
26	Climate Change is here. If we don't pay attention and plan for it, Florida won't be here.	5/2/2022 4:24 PM
27	Our lives depend on this effort being effective	5/2/2022 3:05 PM
28	I am in Insurance. As long as the City and County, continues to permit Developers to build Frame Condo's Apartments, Houses, Commercial Buildings, etc etc, we will always have major insurance losses. Make it mandatory that all new homes come with a Generator, built into the house.	5/2/2022 11:43 AM
29	We live slightly above sea level. Duh! South Tampa can't evacuate in an emergency.	5/2/2022 9:14 AM
30	We don't care, which is why we build in the worst places.	4/29/2022 11:58 AM
31	this question is way to vague	4/29/2022 9:14 AM
32	Make our city a beacon of light of everyone. Lead by example so other Cities can follow.	4/29/2022 8:41 AM
33	pays off long term	4/27/2022 8:09 PM
34	Disasters occur at a high rate across the globe. We need to realize that climate change is increasing that rate, and we need to respond proactively, not reactively. Also, please plant more grasses and mangroves along the shoreline and encourage nurseries and developers to plant native plants. :)	4/27/2022 11:31 AM
35	Let's not let Tampa turn into another NOLA/Katrina, or NYC/Sandy.	4/26/2022 4:48 PM
36	It's foolish to ignore climate change. It's not coming, it's here. Tampa must consider rising sea levels in all construction.	4/26/2022 1:46 PM
37	We must do our part to mitigate the effects of our community on our environment and be also able to react to change beyond our control.	4/26/2022 10:52 AM
38	less garbage, less items to leave or throw out in the streets, keeping up with trash, air quality, and smoking and dirty garbage cannot continue how can we adapt to changes if the ground is too saturated with garbage	4/25/2022 6:42 PM
39	Need to look at new, innovative ways to deal with sea walls and encourage major construction away from flood areas.	4/25/2022 1:51 PM
40	we need to address the increasing risk of flooding and dangerous storm threats to our area	4/25/2022 1:16 PM
41	High speed trains would allow us to limit air pollution and reduce our contribution to global warming.	4/24/2022 3:46 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

42	The playbook of resilience on all levels is a major component in a forward looking community.	4/23/2022 4:06 PM
43	I have seen a flooded street	4/23/2022 2:18 PM
44	Tampa is extremely vulnerable to flooding and storm surge.	4/15/2022 5:20 PM
45	Rhetorical question	4/15/2022 1:58 PM
46	Think Green. Phase in electric vehicles. Just say NO to fossil fuels...think of future generations. Start with advertising ...make it happen. With the WILL, there's a way.	4/15/2022 12:23 PM
47	We live on a peninsula on a peninsula. For this one, we really need to focus on - once again - housing and mobility. Housing first so that people can shelter in place and have a secure place to live after a disaster, mobility second so that people can evacuate efficiently. COVID-19 showed us the importance of safe, sustainable and resilient housing. That was the situation where everyone had to shelter in place for years.	4/14/2022 10:45 AM
48	Better drainage and flood resistance would be nice. Especially if older neighborhoods could receive upgrades.	4/14/2022 10:07 AM
49	Smart growth with this in mind	4/14/2022 9:51 AM
50	We need to think about our shorelines, stop development where it doesn't make sense. Solar and water harvesting should be incentivized.	4/13/2022 11:08 AM
51	permeable, permeable, permeable	4/13/2022 10:21 AM
52	Climate change is real. This state is a peninsula. The water level is rising but we continue to build at the water's edge. Why is this a good idea?	4/12/2022 5:06 PM
53	Severe weather events will be increasing in frequency and severity. The notion that our city could be evacuated has been proven ludicrous in the past. We must focus on facilities and techniques that will provide safe refuge and weeks or months of recovery time when the need arises.	4/5/2022 6:10 PM
54	Don't rely on sea walls and keeping nature out. Address the causes of climate change NOW.	4/5/2022 4:07 PM
55	Maybe state "Prepare to reduce, withstand, ..."	4/5/2022 2:52 PM
56	Let's take mother nature's hint and cease development in ecologically fragile areas, please.	3/29/2022 10:44 AM
57	Climate change is real, despite what our governor says.	3/29/2022 8:31 AM
58	I don't think we can stop the wind from blowing just as I don't think it is in our power to stop the whole Earth from changing. I think the most power we have is to care for what we have around us and if everyone else did that too, then we are in a good position.	3/28/2022 11:19 PM
59	This is very important to the city and region.	3/28/2022 5:17 PM
60	The sooner some steps can be taken, the cheaper it will be.	3/28/2022 4:48 PM
61	Disaster preparedness and training is very important. Better safe than sorry!	3/28/2022 4:06 PM
62	Silly catch phrases (toilet to tap) are proffered to obfuscate personal interests while saline intrusion into water sources drive by elements of climate change march on. Of course a global matter but in a generation or less a vital matter to Hillsborough County / Tampa etc	3/24/2022 6:24 AM
63	Raise the street level so that buildings are built higher. Figure out how to protect the Bay Area from water surges in the event of a hurricane.	3/23/2022 6:59 PM
64	Sea level rise and stronger weather are coming. To ignore it is to plan for a very costly future.	3/23/2022 9:05 AM
65	Again global warming is by far our biggest problem.	3/23/2022 5:42 AM
66	Probably the most important as teco and mosaic towering pikes of poison loom hundreds of feet above low lying areas. Substandard housing about to be decimated. Zero plan to move thousands of elders and low income without transportation inland. The storm is coming. The death toll will make new Orleans look like a picnic. And no one cares.	3/22/2022 3:45 PM
67	Climate change poses a significant issue to Tampa. Mangroves, trees, solar panels, community gardens, rain gardens, green-transportation options and conservation should be at	3/22/2022 2:45 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

the forefront of all climate related initiatives. Nature-based solutions should also be a primary focus

68	It is only a matter of time before Tampa Bay gets hit by a massive hurricane. We need to make sure our infrastructure can withstand the storms and floods	3/22/2022 1:12 PM
69	So far it's been more about money and power. Stop development until the infrastructure and natural resilience is returned to normal.	3/21/2022 5:39 PM
70	The city needs to be ready for rising coastal waters. Our storm drains and road ways need updated to prevent flash flooding with daily thunderstorms. With the growing population we also need to ensure ways of producing fresh water for our future generations.	3/20/2022 2:12 PM
71	This needs careful consideration; we could waste a lot of money on very low probability issues.	3/20/2022 10:28 AM
72	This is a confusing question. You can't adapt to what other men have already destroyed.	3/19/2022 8:29 PM
73	We need to become more weather-resistant, and handle large storms & flooding.	3/19/2022 4:44 PM
74	With the way our politicians and leaders have failed our country over the past 50-60 years, the planet is failing and we're at a huge risk here in the Bay Area.	3/19/2022 12:47 PM
75	Building codes to ensure building can withstand storms	3/15/2022 7:57 AM
76	Everyone should either know what changes are coming so they can learn/put their plans together for the change	3/14/2022 10:08 AM
77	Climate resiliency should be a top priority. What have we really done in the City of Tampa to mitigate sea level rise and protect against hurricane damage and rising temperatures?	3/14/2022 8:01 AM
78	We should be doing more of this. Climate resiliency should be a top consideration for comprehensive plan projects.	3/14/2022 8:00 AM
79	More land developed adds to the storm water and run off issues. Pause the big developments. Save the beautiful land and let it protect us.	3/9/2022 11:39 AM
80	We're screwed if no measures like this are taken.	3/6/2022 9:58 AM
81	It seems impossible to prepare for everything, but we know for sure it's only a matter of time before Tampa is hit directly by a hurricane. We should be doing everything we can to ensure buildings new and old are up to code and that our economy won't be wiped off the grid by a devastating storm. South Tampa and other areas are also always flooding. With so much new development occurring today, perhaps now is the time to force higher building standards and building higher off of the ground. The city is probably already doing this, I'm not sure.	3/5/2022 12:51 PM
82	I keep hearing Tampa will be under 4 feet of water if a hurricane hits just right. Prep for that.	3/3/2022 4:35 PM
83	How will the city ever accomplish recovery with the debt it has and will add to?	3/1/2022 10:37 AM
84	Building codes should be more stringent. If fema is requiring higher build heights, we should be looking at wind strength as well for buildi gs and implementing a stronger code like miami dade county before we have a terrible storm.	2/26/2022 4:21 PM
85	More trees need to be planted, mangroves left as buffers for storms & green space for rain/storm water to drain into. So much of development seems to be covering every inch of land in concrete & when there's a lot of rain the street drains can't hold it all.	2/26/2022 1:51 PM
86	Of course this is extremely important. The city has been talking about it for a decade. Nothing is happening except for some storm drains that were improved 10 years ago. Why is no one acting? Why are new homes still built from plywood? Why are more roads and parking lots built or widened and nature paved over where normally water could sink in, increasing flooding. If we really want to future proof our city we need to built light rail to travel within Tampa all the way to New Tampa (and ideally connect to St. Pete) so we can stop the road madness. I-275 does nothing but divide the communities of Tampa. How about we think about a plan where 275 is demolished? THAT would be transformational.	2/25/2022 10:58 AM
87	This will be more important in years to come	2/25/2022 8:39 AM
88	Not at the expense of people!	2/24/2022 7:09 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

89	We aren't even keeping up with current state issues, let alone be able to keep up with what would happen if something like this took place. There is a lot of work to do. How are we thinking we have until 2045? Need to improve immediately. Our streets are flooding now with the smallest of rainfall - 2045! Immediate and stop letting developers develop on the coastline and think it's not impacting us because it is. Affordable housing, issues with the environment - it's not a future state thing - it's a current state thing. It's hard to envision 2045 when we are in such a state today and there is not a clear ownership taken to do what's needed today. Start there.	2/24/2022 7:06 PM
90	Do not put dirty water in the aquifer!	2/24/2022 6:36 PM
91	You need to plan with environmental/climate scientist as well as emergency management. I feel like EM presence in Tampa is lacking, people don't even know that its a real department that has many programs and services. In order to fully understand the potential future affects of climate change on the environment, economy and global events I cant stress enough working with environmental/climate scientist who know the research and can make predictions based on trends - something urban planners, city planners, urban designers etc. don't have the adequate knowledge or skills to be making these decisions regarding future city plans related to recovery and adaptation.	2/24/2022 10:54 AM
92	Our environment makes where we live so wonderful so it must be protected	2/24/2022 9:58 AM
93	Sustainable growth needs to addressed- too much growth puts a strain on the environment and weakens our ability to bounce back after a major storm or flooding event. Too much concrete equal no where for the water to go but into buildings. Encourage yards, public parks, public beaches, natural wetlands, mixed-use neighborhoods, public transportation-- not a concrete city.	2/24/2022 8:17 AM
94	Weather changes and coastal concerns should be tied to all plans. Florida, I.e., Tampa relies heavily on tourism...coastal infrastructure is critical...as is preserving greenery...sustain more around the riverwalk...	2/24/2022 6:46 AM
95	I worry about Tampa being a livable place in the next 30-50 years. Summer seems to be longer and hotter and I worry about more intense hurricanes.	2/23/2022 3:08 PM
96	Please read Disasterology by Dr Samantha Montano. Our failure to prepare for reality & support each other (EVERYONE) when events do occur is what leads to a disaster. Humans are actually naturally cooperative. Stop forcing competition where it doesn't belong.	2/23/2022 1:46 PM
97	Scary predictions ahead. Our community needs to confront it now.	2/23/2022 12:49 PM
98	The major focus should be future flooding.	2/23/2022 11:57 AM
99	Hurricane preparedness is extremely important with the continued growth of Tampa especially is the costal high hazard areas of south Tampa. One lane (each direction) roads will not support additional residents in an emergency.	2/23/2022 11:49 AM
100	We do need to address the issues now about environmental, economic, and other global events. I'm sorry, but I have no faith in the current leadership to make any of this happen in a timely manner.	2/23/2022 11:48 AM
101	Watch the drainage and the street infrastructure with all the new development. Will people be able to evacuate in a timely manner with all the new additions, if there's an emergency?	2/23/2022 6:45 AM
102	A city can do little to stop this it is already happening. When the big storms come we need solid plans. Roads for evacuations.	2/22/2022 10:03 PM
103	It seems to me that climate change is being ignored. Streets already flood with only 10-15 minutes of rain... there is nowhere for water to go and the loss of trees and covering of green space with cement is adding to this problem. Developers are allowed to cover over lots and flood plain areas are not discussed in planning. Underground water retention systems are allowed and the maintenance to keep those systems clean and workable is not taken into account. Without maintenance of water systems they will only add to flooding. Lawn and yard maintenance regulations to REMOVE yard waste is not being enforced. Instead it is left in the street or blown into the curbside sewer openings, which then get clogged. With some attention and education these issues could be alleviated.	2/22/2022 8:38 PM
104	Need a plan for rising sea levels and ability to evacuate quickly during hurricanes	2/22/2022 7:24 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

105	This is not happening at all , more development , we cannot get out of the city if there is a disaster	2/22/2022 3:51 PM
106	This should have started ages ago and should be a current focus and priority. South Tampa SOG floods real bad as I am sure everyone knows and our insurance costs are soaring, this is needed now.	2/22/2022 1:51 PM
107	This is just political rhetoric. It says nothing.	2/22/2022 1:24 PM
108	It will be cheaper to pivot to sustainable resources rather an relying on fossil fuels in the long run. Preparing now may involve larger amounts of money but should pay off big time by limiting the impact of larger storms	2/22/2022 1:17 PM
109	Overdevelopment in flood and hurricane evacuation zones is concerning. We evacuated for Irma and it was scary and difficult to drive and find gas due to the amount of others evacuating. It will be impossible with all the new multi family homes and apartments.	2/22/2022 1:06 PM
110	Growth is important but it should be done smoothly and coordinated. The city council is being more reactive to all requests than active. There are flaws in the law that some people and/or companies are repeatedly using even thou the city council already voted on it, which impacts everybody's effort (city council and citizens). The city should drive and lead, but not be reactive. Too much politics in favor of who??	2/22/2022 12:16 PM
111	We are already flooding in south Tampa just during rain season, what will happen in a real storm event???	2/22/2022 9:35 AM
112	One hurricane can wipe out the entire area. Let's avoid that potential devastation to the best of our ability.	2/22/2022 9:30 AM
113	We need to anticipate and prepare but not wait until the floods come.	2/22/2022 9:18 AM
114	Flooding is a terrible issue and jeopardizes the future of Tampa Bay. Plan now to mitigate potential disaster, and it will ensure investment in our community for years to come.	2/22/2022 9:14 AM
115	We need to prevent more sewage and red tide	2/22/2022 8:50 AM
116	I stated earlier that there is a serious issue with the construction standards for rental properties, especially these monster apartments. They could never even be considered as a safe place to be for a category three hurricane or higher	2/22/2022 8:25 AM
117	YES TO THIS. WE MUST have a plan to significantly slow climate change ASAP. Ban plastic bags, styrofoam, incentivize walking and biking and public transportation, clean up our storm water retention plan (or lack thereof). The fact our streets flood after a typical summer storm is alarming when we think about how much more frequent and severe hurricanes are becoming. We must have a better (or one at all) action plan.	2/22/2022 8:16 AM
118	It is going to be difficult to vacate Tampa if a hurricane comes. We are getting too dense and you know people are hard to wrangle. So build excess drainage and consider a substantial sea barrier on west shore.	2/22/2022 6:50 AM
119	Are we prepared for sea level to rise with global warming? The only reason I'd ever leave Tampa is if I had to because my house was underwater. That's a real possibility. What can we do to prepare?	2/21/2022 8:48 PM
120	Protect homeowners from too much regulatory burden!!!	2/21/2022 8:22 PM
121	Most of Tampa is extremely flood prone and if a bad storm comes there could be a series of preventable disasters which we should plan and invest in.	2/21/2022 8:21 PM
122	This one is hard, since we probably don't know what some of those impactful events will be. The best defense is a good offense. Make the city great in ways that you can anticipate, and it will better survive crises we cannot foresee.	2/21/2022 8:21 PM
123	It is vital for planners to be on the proactive side of this activity. Otherwise, everything you create will be of no value between now and then.	2/21/2022 6:14 PM
124	Hard to plan for everything mankind or God may throw at us.	2/21/2022 6:04 PM
125	Focus on what can effect Tampa ie hurricanes. We do not need to focus on the recycling habits of India or China or anywhere else. A global one works order outlook will bring the downfall of the US. It is ok to put Tampa and US first!	2/21/2022 5:44 PM

City of Tampa 2045 Comprehensive Plan Vision Survey

126	Climate change is a hoax. Stand against one world order.	2/21/2022 5:43 PM
127	well u can't just crawl under a rock	2/21/2022 5:42 PM
128	Any new growth absolutely needs to have hazard mitigation done in parallel with the growth. Development without risk mitigation should NOT be allowed. Prior development needs to take steps that weren't adequately addressed at the time of the development.	2/21/2022 11:26 AM
129	Stop building seawalls. They aren't always needed and are expensive to fix.	2/21/2022 10:39 AM
130	New tech for idiot proof needs in ybor city rays stadium with ybor city marijuana inside. Colorado has a dispensary in their stadium.	2/20/2022 7:21 PM
131	Hurricane resilience is a obvious necessity	2/20/2022 2:43 PM
132	Yes, plan for recovery from natural disasters. Climate is changing - always has (Florida was once covered by glaciers). Use common sense.	2/19/2022 6:46 PM
133	build tourism interests, build more tech and health jobs	2/19/2022 6:12 PM
134	I'm not sure how to even start to accomplish environmental safety, since most of central Florida can easily be wiped out by a major hurricane, and I think many people accept that as part of the risk for the trade off of living in paradise. But as far as economic and global events, having a robust economy and emergency services during a disaster are essential.	2/19/2022 5:57 PM
135	We should not plan with the expectation that people will die in catastrophic events in the future due to extreme weather events. We should account for them.	2/18/2022 11:23 PM
136	Of course the city has to be flexible enough to deal with changes if it hopes to grow and flourish in the future.	2/18/2022 8:10 PM
137	Both mitigation and adaptation, including for marginalized communities. Need to realize multiple benefits of mitigation (e.g., increased park access, reduced localized pollutants, increased transportation options, etc.)	2/18/2022 7:58 PM
138	Focus on remediation, have an emergency fund, buy pumps, use other inovative strategies, encourage TGH to relocate incrementally off Davis Island.	2/18/2022 7:23 PM
139	We live in a state that consistently sees large weather events, and as global warming continues that only gets worse. Being prepared would allow the citizens to be protected	2/18/2022 11:03 AM
140	Rising sea levels, shifting climate (more severe and extreme), supply chain challenges... we are already seeing this. We see flooding on certain streets like the north sees snow piles. Both bring things to a halt. Keep building and bringing the city temperature up further... it will be unbearable to go outside the majority of the year. If we are going to continue building stuff... then start putting in an elevated human habitrail to get around. That will get pedestrians off the street and into the airconditioning.	2/17/2022 8:18 AM

## Q17 Are there additional ideas that should be included in the City of Tampa's 2045 Comprehensive Plan Vision? Please share below:

Answered: 231 Skipped: 492

#	RESPONSES	DATE
1	Get more people to recycle, now there is no incentive - many people throw everything in the trash because they don't care. Maybe if the trash cost to dump. would be an upfront cost to check the cans to see if they are doing it right Offer business's recycle services you could reduce the pickups to evry other week in most cases , we recycle every possible thing and it takes us 2 weeks to fill a container	6/5/2022 12:06 AM
2	Increase of educational experiences for all the new and historic developments in Tampa. Specifically, children should be welcomed and exposed to all that Tampa has to offer not jusy their own neighborhood.	6/3/2022 4:45 PM
3	Do SOMETHING to save our tree canopy. Once the trees, and open land get converted to development ... they don't come back.	6/1/2022 12:07 PM
4	The city needs to create actual practical enforceable policies to direct growth away from the CHHA. Currently, the vague policies have led to finger pointing and shoulder shrugging and a huge increase in density in the CHHA.	6/1/2022 9:20 AM
5	Creating safe and available transportation	6/1/2022 8:52 AM
6	Engaging the community in participating with the new development plans both planning and pursuing.	6/1/2022 8:41 AM
7	None	6/1/2022 8:40 AM
8	Water and trash clean up. Offer more jobs for people to go around picking up trash, prettier city and happier people.	5/31/2022 4:45 AM
9	Road/transportation infrastructure that grows on par with increase in housing numbers so we don't have to sit in traffic all day.	5/28/2022 6:06 PM
10	I want more car dependency and cheap suburban housing.	5/26/2022 8:36 AM
11	This 2045 Comp. Plan Vision should be about maintaining current neighborhoods focus and not to promote a New York CITY TYPE OVER-BUILDING(DOWNTOWN TAMPA) IN TAMPA!	5/23/2022 6:18 PM
12	Yes East Tampa needs the senior citizen community center built at Phillips Park this year 2022 or 2020 for this will bring the growth of Tampa together with the plans of 2045	5/23/2022 1:33 PM
13	A strong focus on a city built to withstand climate changes. Accessible alternative energy resources (for housing and vehicles) Reduction in automobile traffic and concrete/asphalt	5/20/2022 2:16 PM
14	You are going to have to hedge all you assumptions and Plans if you want to be able to adapt and thrive.	5/19/2022 4:58 PM
15	High Rail system, better transportation, help for the most vulnerable--homeless, poor, and children, and older adults. Don't make a vision for Tampa that only focuses on young adults and those with wealth.	5/18/2022 4:13 PM
16	We need more car free zones for pedestrians and cyclists.	5/14/2022 10:15 AM
17	Seize homes from the rich and give them to the poor.	5/13/2022 9:18 PM
18	Affordability needs to be elevated - attainable housing is the key!	5/13/2022 3:59 PM
19	Open soccer field would be nice, a nod to the Hispanic diversity that makes Tampa so special, streetcar along bayshore boulevard, more waterfront options	5/13/2022 2:36 PM
20	Add more teeth to provisions regarding the link between urban sprawl and infrastructure. If the infrastructure is not in place or funded to be in place at the time of FLU amendment, it should	5/12/2022 6:24 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

be denied or stronger commitments should be required by developers at that time, not later in the process. Also, add many more incentives for attractive and sustainable development practices. If developers can make more profit creating attractive and sustainable developments in areas where infrastructure already exists, they will! Create expedited entitlement processes, "real" density bonuses, waive fees, loosen other more minor restrictions, and have a liaison to help them navigate in places where we want growth to happen with the infrastructure to support it.

21	Developers and builders and the city need to build green with sustainable materials. When building a new home in an established neighborhood, it should be mandated to be built organically so that residents do not sustain lung damage, cancer from the carcinogens used to build. Builders should not be allowed to litter and throw garbage so it gets into our Bay. Builders should not be allowed to harass, threaten or intimidate existing residents. They should not be allowed to destroy adjoining properties without any consequences. The city needs to adopt a very stringent behavioral building codes. It is very stressful to residents to cope with the destruction, dirt, debris that is strewn throughout neighborhood streets. The mud and dirt gets into other garages and driveways, because Builders don't sweep up their mess because they are not required. If it's not required it's not done. Fruit bearing plants have gotten covered in cinder block dust. Yards and homes get covered in it. Outdoor ac systems get destroyed. You are causing major health problems for our residents. You are killing our fruit bearing plants. Because the citrus DNA becomes deranged and it is no longer safe to eat. The dust gets into the runoff. They use toxic glues that cause gasses that are released into adjoining yards. More emphasis on renovation/preservation. The city is allowing docks to be build on wetlands; allowing cinderblock dust to be poured on the wetlands. It allows the removal of a damaged tree infested with termites; thus contaminating an entire housing block. Homes are allowed to be build crooked so that the maximum square footage can be built. This is not the city I grew up in. We are blowing an opportunity to develop an all inclusive total eco-friendly city with a rivet and a bay. Wouldn't it be great to mandate all new homes be economical friendly, green and have native , drought resistant land scaping?	5/11/2022 9:15 AM
22	More affordable and convenient public transportation, trolley extensions, and more bike paths that are actually safe. Would love to be able to get around Tampa with minimal car use.	5/10/2022 7:12 PM
23	Don't do half the job and pat yourselves on the back and say job well done; don't cut corners.	5/10/2022 6:49 PM
24	- Protect the tree canopy! - Add neighborhood-specific Comp Plans as subsections to the city Comp Plan.	5/10/2022 2:56 PM
25	Increase the number of trees planted in the neighborhoods. City and County wide.	5/10/2022 2:44 PM
26	I think Tampa needs a huge afterschool place for children 5-15 to grow and be safe in. Like a YMCA but bigger and more advances. With media and arts of all types.	5/10/2022 2:39 PM
27	Encourage and support growth and density in designated areas including Westshore, CBD, USF. Resulting density will encourage and support market demand for transit options.	5/8/2022 3:01 PM
28	I feel that water availability and quality are going to be a challenge in the future.	5/7/2022 5:44 PM
29	Place protection of natural resources and reduction of CO2 as a top priority on your agenda.	5/6/2022 8:23 PM
30	More historic preservation and culture	5/6/2022 11:00 AM
31	Education. Above all else, quality education is required for any plan to be successful. Any vision plan must start with quality education. Tampa lacks quality education.	5/6/2022 10:43 AM
32	Continue developing mixed-use and mixed-income walkable neighborhoods with ground level retail. Incorporate more than code-minimum greenspaces throughout developed areas. Reliable light rail connecting neighborhoods and to the airport.	5/6/2022 8:48 AM
33	We need more green spaces and more protected bike lanes. Lined bike lanes are not adequate.	5/4/2022 6:02 PM
34	Figure out what the capacity is for the South Tampa peninsula -- land is scarce and vertical is not nor should it be the answer. Direct growth north of Kennedy.	5/4/2022 5:48 PM
35	BAMBOO.	5/4/2022 3:14 PM
36	You need residents to be involved beyond just holding open forum and focus groups. Residents need opportunities to engage in workgroups and leadership where they are tasked	5/4/2022 12:52 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

with helping to make critical decisions about what happens in Tampa and the greater Hillsborough County.

37	More transparency in funding opportunities and where funds are being distributed.	5/4/2022 6:50 AM
38	Access and inclusion is high quality consistently across the entire city. Beautification, roads, businesses, parks, water pads, pedestrian and bicycle paths identified, utilities services, and etc. Currently there are obvious differences across the city. Differences that are not positive.	5/3/2022 4:58 PM
39	Yes, make it so that rezoning requests have to meet a higher standard than the current plan allows. Rezoning is far too easy and almost always approved. Why have zones if all it takes is to ask for a change and it's granted. Residents do not have time, nor the money to hire attorneys, to attend City Council meetings to oppose rezoning while lawyers are getting paid to ask for rezoning on behalf of their clients. It should be majority plus one before a rezoning is considered. Your FLUM url should be included with utility bills each month so residents can view and learn how this will affect them in the future. Residents should have a say about changes to FLUM when it comes to their property. Most residents do not know that their home could one day be torn down to make way for -- who knows what rather than being enjoyed by another family should they wish to sell. The Comprehensive Plan is too long and vague and abused each day.	5/3/2022 2:32 PM
40	Walkability should be a priority in designing our cities and towns. There are hundreds of benefits ranging from 1) better public health, 2) less traffic (More people walk), 3) decreased costs to the government (Less driving = less money to spend on expensive road infrastructure), and literally thousands more I couldn't possibly write. But another really important factor is attracting young talent. Us young people want to live in walkable areas. I am going to USF to study public health. I continue to study to be a doctor and work in a community that reflects my needs and wants. This is the same way so many of my friends are too. We all want to live in a nice town or city where we can walk to our groceries, walk to parks, walk to cafes and restaurants. The Netherlands created their cities based around biking and walking, why can't we?	5/2/2022 11:40 PM
41	Much better transit	5/2/2022 3:06 PM
42	You need to look at the overall picture of what you're trying to accomplish. Shoving a high density project in the middle of a peaceful neighborhood is counterproductive. You forget that the neighborhoods are contributing to the density issue. When you push these monoliths into our neighborhoods it shows your lack of concern for the communities that have worked to make our neighborhoods safe, worked to maintain our homes and gardens and the people who have been paying taxes for years. You treat these communities like second-hand citizens. How thoughtless of you. There are communities within our City boundaries that could use new housing and new locally owned retail establishments. Why keep pounding and destroying our established communities, just to make Tampa the next great city. The next great city of crime violence, overcrowding both with homes and cars.	5/2/2022 11:53 AM
43	Get Architectural conformity back under control. Re-install all the brick we took out in the 80's. Fight FDOT on widening lanes. Greatly expand the Streetcar. Expand the Airport and attract more foreign carriers. Less Sprawl and more focus on Urban. Invest in free scooters and drone taxi's.	5/2/2022 11:49 AM
44	Give our zoy real teeth so people know that where they chose to live will be protected. Do something about pedestrian deaths - build sidewalks.	5/2/2022 9:17 AM
45	Consider the low-income people and create equality as much as possible. A lot of us work hard and live paycheck to paycheck and gentrifications eventually displace people.	4/29/2022 8:44 AM
46	I made a suggestion to no traffic on N. Franklin and turn it into a Lincoln Mall similar in Miami Beach restaurants and retail stores, water fountains and benches	4/27/2022 9:11 PM
47	Please also consider ways to help long-time businesses stay open in the midst of all of the growth, development, and rising taxes.	4/27/2022 11:34 AM
48	TREES. What are the options to lobby against the state law that removed protection from our tree canopy?	4/26/2022 4:56 PM
49	The city's neighborhoods are only as strong as their relationship with the city. Without STRONG City liaisons and partners for the mayor, those positions are not worth having, let alone, expanding.	4/26/2022 1:48 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

50	Use our creative abilities and resources to make Tampa a more attractive community visually.	4/26/2022 11:00 AM
51	affordable housing for all rent control incentives for tampa natives and BIPOC to purchase homes	4/25/2022 1:17 PM
52	I hope the plan has an emphasis on better transportation, especially plans for high speed trains within our city, New Tampa to Downtwon, Downtown to Westchase and Riverview, and even connecting Tampa to Orlando and Miami (although that's probably a state-wide thing).	4/24/2022 3:49 PM
53	Animal protection and more skate parks	4/23/2022 2:27 PM
54	I want to see new things I want to have options to own a company	4/23/2022 2:19 PM
55	Youth engagement	4/23/2022 1:41 PM
56	End exclusionary zoning.	4/21/2022 10:31 AM
57	Plan for neighborhoods to provide all basic needs (ie, groceries, health care, education, restaurants, etc) within a walkable distance, drawing inspiration from larger and/or older cities.	4/20/2022 2:43 PM
58	Less cars on the road and more alternative transportation options. Stop building roads which tend to encourage more car driving	4/19/2022 8:13 AM
59	Increasing future land use density. Mandate mixed use development to tap into bonus density, encourage walkable commercial. Make it easier for small developers to navigate the PD process. Make it easier for city staff to advise the highest and best use of a parcel and work more collaboratively with the developer. Increase architectural standards without being overly restrictive.	4/18/2022 9:50 AM
60	The City of Tampa should ease zoning requirements, allow more housing density, and expand the types of housing that are allowed to be built (triplexes, quadplexes) in order to reduce rapidly rising housing costs that are placing many Tampa residents out of a place to live.	4/16/2022 7:11 PM
61	Address specific improvements needed such as affordable workforce housing, infill development, and specifically transit.	4/16/2022 4:51 PM
62	Deal with the homeless issue before Tampa turns into LA.	4/15/2022 8:36 PM
63	Exclusionary zoning needs to be abolished. I don't care about protecting the character of the city. Just do what's necessary for the economy and the population to keep growing.	4/15/2022 5:24 PM
64	Increase densities in neighborhoods (tiny houses).	4/15/2022 4:24 PM
65	Beautiful the City as you turn it GREEN. We could begin by requiring developers to contribute 2% to an Arts Council for public art work. The City of Cambridge Mass has transformed its environment this way. Don't forget the Arts!	4/15/2022 12:32 PM
66	A wider focus on energy efficiency measures to increase resident's comfort and health, and price controls for rental housing. Rents are shooting through the roof, and they need to be reigned in.	4/14/2022 7:29 PM
67	Sports are not unimportant but "Raybor City" is stupid. Do not do that.	4/14/2022 3:18 PM
68	Upzone. Allow multifamily units by right. Shrink minimum lot sizes and reduce set backs. Incentivize affordable housing development and inclusionary zoning by trading parking requirements for affordable units. Create village centers that are also TOD centers. Let's think of acute name, like transit oriented village centers?	4/14/2022 10:49 AM
69	Rent control, empty housing taxes, affordable housing, policy that prioritizes private citizens over corporations.	4/14/2022 10:09 AM
70	Think about how your middle class is slowly becoming your lower class. Between housing and wages it's becoming impossible to live in Tampa.	4/14/2022 10:03 AM
71	I am a long term channel district citizen and not until the last few years have I been proud of my neighborhood and the direction the city is taking, bravo. Now let's keep the momentum by building smarter , denser, transit oriented, walkable areas, reduce the outdated parking minimums in the city we have so much parking unused as is. Keep up the great work you're doing!	4/14/2022 9:54 AM
72	We need to do better to treat each community equally with improvements. This has not been	4/13/2022 11:10 AM

City of Tampa 2045 Comprehensive Plan Vision Survey

	done.	
73	For a world-class city, it amazing me that there is no commuter rail here. There are no committed transit lanes. That it is more important to get a stadium for a baseball team in Ybor City than it is to bring in real transit solutions. In a city like this, it should not be necessary to own a vehicle to get around, but it is. Seriously, take some lessons for other large cities around the country and get real solutions in place.	4/12/2022 5:11 PM
74	I would like to see major improvements on Lake ave and 29th street. There are new homes being built and people of different ethnics moving i . I would like to clear that area of homeless and drug users and sellers out.	4/12/2022 3:12 PM
75	Evolve law enforcement and other first responder agencies to support the needs of vulnerable communities in a way that helps these communities feel safe and supported.	4/12/2022 10:45 AM
76	Need more parks, shopping malls, restaurants, high end brand stores and indoor sports center (ie. swimming pools, tennis courts, etc.) for shelter from rainy and hot days.	4/11/2022 7:35 AM
77	Within a 1/4 mile radius of all transit stops, include at least 1000 residential units with retail, office, institutional, and cultural uses in a pedestrian context. Include bike infrastructure, sustainable design (such as district cooling), diverse ages, and historic preservation where needed. Plan for a mix of incomes by focusing on good quality "middle of the road" housing costs for the area with approximately 10% higher end for the area and at least 10% affordable. In Atlanta, The Midtown Alliance did an excellent job of education by using photographs instead of words. They had visioning surveys that used carefully curated photographs of different types of development and asked residents to rate them on their appropriateness for Midtown's growth. Many people who would be against "high-density, mixed-use, walkable urbanism" voted very favorably for pictures of beautiful high-density, mixed-use, walkable urbanism. Tampa could also benefit from the help of Florida's own DPZ Planners. Unfortunately, TV and movies have left many people with unrealistic notions of growth. Education would help them understand new beautiful options available to a growing city.	4/7/2022 9:03 AM
78	Policies that help long term residents age in place as our city grows the cost of living here outpaces residents ability to maintain affordable housing and living.	4/6/2022 3:35 PM
79	Plant more shade trees and continue with landscape upkeep. Make every neighborhood as pretty & green as Bayshore Blvd.	4/5/2022 5:02 PM
80	Include the arts as an integral part of city planning and development.	4/5/2022 4:09 PM
81	1. Reduce car dependency 2. Increase transit use through a great transit system 3. Increase sustainable planning and architecture 4. Increase opportunities for residents to connect through beautiful urban design	4/5/2022 3:02 PM
82	Preserving the charm of city and making sure it also serves the residents of Tampa. Too many of us are getting pushed out by new residents from other states. It is important that those of us who were born, raised, and currently still reside here have a fair chance of staying here. I am not the biggest fan of affordable housing as it is a good idea on paper, but not in practice. However, I feel like something has to be done to keep Floridians in Florida. More specifically keeping Tampa residents in Tampa.	4/4/2022 3:32 PM
83	Diversifying the economy by helping early stage tech startups thrive will cause positive ripple effects for Tampa with high paying jobs, increasing the quality of life for everyone.	3/31/2022 6:09 PM
84	The large public parks in downtown should be expanded to New Tampa, Carrollwood and other suburban areas.	3/31/2022 2:55 PM
85	Transportation - more options and ways to help reduce traffic congestion and accidents.	3/31/2022 10:09 AM
86	N/A	3/29/2022 12:56 PM
87	Improve traffic flow I-4 / 275 and access (another major highway) to cross the state	3/29/2022 12:54 PM
88	Sidewalks, bike/walk/scooter friendly Communitets	3/29/2022 12:53 PM
89	Noise, this town is too tolerant of motorcyclists' loud pipes, car stereos, gas-powered leaf blowers, etc.	3/29/2022 8:39 AM
90	Mimic Amsterdam. Place a land tax so that everything is built more densely and efficiently. More dedicated bus lanes.	3/28/2022 5:11 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

91	Rail, BRT, Bike Paths - all need to become a bigger part of Tampa. It is absolutely insane that there is not some type of rail transit connecting downtown to Westshore/Airport. Stop letting FDOT dictate our growth and start to demand more local transit and bike path options.	3/28/2022 4:55 PM
92	Connect the suburbs (Southshore) with better public transportation. Build pedestrian crossovers (bridges) in high traffic areas for schools and community access to shops.	3/28/2022 4:08 PM
93	The questions are fairly loaded, of course the ideas presented are a great idea and actions, efforts and capital to be spent on those ideas is amazing. It's the "what are we actually going to do" is what I want to know. But I guess that's politics, right? There's a lot of development around the ArmatureWorks area right now, would love to see some better roads, infrastructure and overall hygiene improvements in the area. Tampa has done pretty good the past 5 years getting some big names to come to the area. To bolster this I would love to see education get an uplift. If we want our city to sustain it's growth and competitiveness and not have people pay for private educations, we have to rethink how education can actually improve our city long term. Would love to see some new innovations in the green spaces. Would REALLY love for Tampa to do something like the Green Necklace of Boston or at least to buy some land adjacent to existing parks/schools to bolster the green spaces. Would love to see a huge project to solidify a traffic artery. Bus stops, new sidewalks, curbs, lights. A project that will last. Dale Mabry is huge, it doesn't have to be to that caliber. Would love to see table tops or speed humps around schools. I see people cutting through neighborhoods where people walk their dogs and children are playing and the drivers are going 40-50 just so they don't get a red light. Would love to see some tidal generated power. Would love to see a Tampa Version of Star Island and other luxury islands in Miami. Would love to see a city push to embrace solar power and to have each citizen/household be able to ensure power services not directly tied to the utility companies. Would love to have Tampa get some aero-tech companies on TPA. Would love to see Ybor and Downtown have some development to get them closer/merge. If the BrightLine station is going to be that connection then I hope that it's done well so that access in and out doesn't clog I-4/275 even more. Would love to see a line created to TPA from that location.	3/27/2022 10:59 PM
94	The future Tampa will adopt crypto assets, have self sufficient homes & hurricane proof infrastructure. Cannabis will also be legal recreationally : )	3/27/2022 8:51 PM
95	I believe that if we care about the roadways, adding new attractions and fun things to do, fix up the low income neighborhoods and have the mayor go to those communities more to engage with the people (free events, clean up days etc) and show more love and support in ALL of Tampa not just the pretty parts and stay CONNECTED to everyone. Create a site where concerns can be sent !! Tampa is beautiful and we love what it's becoming but reach out to the people more. For the school areas we need more sheriffs to direct traffic and maybe lower the speed limit in school zones before a child gets hurt or something to track people who speed in communities and school zones	3/27/2022 8:46 AM
96	Mixed use everywhere, not just on main roads.	3/25/2022 4:48 PM
97	There needs to be a train system to reduce traffic build more roads and highways, more housing so prices are more affordable, clean up bad neighborhoods and have more police enforcement, reduce trash and garbage on streets, expand police force, add a beach to tampa or a boardwalk of some sort, add more community parks and community centers, fix bad roads, trains and train station is a must! More public transportation and ways to reduce traffic,	3/25/2022 3:57 AM
98	Converting Dale Mabry and attached retail from a 6-8 lane disaster with mile long parking lots into a vibrant, heavily profitable main street with transit, green and other public spaces, small and large businesses and dense affordable housing.	3/24/2022 3:14 PM
99	Fix the roads and stop complaining about old buildings being torn down. We have to modernize Tampa.	3/24/2022 11:19 AM
100	Bike lanes with the concrete divider should be the way all bike lanes all in the whole county	3/23/2022 11:10 PM
101	Passenger rail - not just an expanded street car. Higher buildings in all of Tampa proper. More palm trees - they won't snap in half during a hurricane. Reinstate the street grid everywhere you can.	3/23/2022 7:02 PM
102	Make alternate transportation a priority and make it actually practical to use. It can't take 45 minutes to travel somewhere you could go in 10 minutes by car or nobody will use it.	3/23/2022 9:15 AM
103	Expand the riverwalk to allow for more distance for bikes and runners. Make it a loop by adding	3/23/2022 5:56 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

to the other side of the river. At least connect Sparkman and or expand north into the Heights. Tampa has too many franchises, support small biz. We need some cool edgy restaurants but not in th mess in Dale Mabry or Kennedy. Midtown is a good try in a horrible place. Ybor City is the only cool place in tampa. Character!

104	Just more rental/housing assistance for working middle class citizens	3/22/2022 10:05 PM
105	We should provide alternative options to private vehicle transport and encourage transit oriented development.	3/22/2022 8:54 PM
106	More bike friendly streets and expanded trolley route!	3/22/2022 6:49 PM
107	The LGBTQ community has suffered significant losses in establishments under Mayor Jane. Also, rent is out of control.	3/22/2022 3:56 PM
108	Too many listening sessions, surveys. Stand up and get moving. Vision zero on traffic will never happen without a major revision on how citizens view there ride across town. 255 dead in Hillsborough is statement enough to cause electeds to actually stand the hell up and say no more.	3/22/2022 3:48 PM
109	Public transit has to become the number priority for the city if it wants to become what it is capable of. The city also needs to set parking maximums right away. Finally, you gotta tax these parking lots that are in the middle of downtown. Too much dead space that offers zero value. Finally Franklin Street in Tampa Heights needs major reactivation to connect downtown up through Seminole Heights. A huge part of that though would be getting rid of the highway.	3/22/2022 2:48 PM
110	An emphasis on Public Transport for our City would be really beneficial for the residents. Specifically light rail and the connectivity of the rail system to the various neighborhoods in Tampa. <a href="https://www.youtube.com/watch?v=-ZDZtBRTyeI">https://www.youtube.com/watch?v=-ZDZtBRTyeI</a>	3/22/2022 1:39 PM
111	Honestly, all of these points need to be addressed. People who have called Tampa home for decades are being pushed out by high rent and gas prices. We need to make sure Tampa remains a diverse neighborhood of all ages, races, and economic backgrounds. Climate change threatens Tampa directly so we must take steps now to address worst-case scenarios. But I think many of these goals are tied together for the mutual benefit of all.	3/22/2022 1:38 PM
112	Public transportation!	3/22/2022 1:18 PM
113	Stop any more development until nature is recovered. Climate change is only a symptom, of overdevelopment!	3/21/2022 5:42 PM
114	There are too many cities that don't embrace diversity, allow wage gaps to increase, and don't have reliable and safe public transportation. We need to look at the good and the bad in other cities and use them as a model so that we don't become one of the "bad."	3/20/2022 11:29 AM
115	There appears to be a number of laws and regulations in the city which are not being enforced. Some need to be rewritten or eliminated others need to be reprioritized and funded for proper enforcement.	3/20/2022 10:33 AM
116	WE NEED PUBLIC TRANSPORTATION!!!!!!!!!!	3/19/2022 12:48 PM
117	Annex Original Carrollwood and other surrounding areas.	3/19/2022 10:19 AM
118	An emphasis on more green spaces for recreation within high-traffic areas so people can enjoy all aspects of the city while still having safe havens for flora and fauna	3/18/2022 5:35 PM
119	MORE BIKE LANES AND BUILD MORE BIKE INFRASTRUCTURE TO MAKE IT SAFER/EASIER TO BIKE. PRIORITIZE HELPING NEIGHBORHOODS THAT ARE IN NEED OF MORE FUNDS--LIKE MINE, IN 33612 AND UNIVERSITY AREA, SO MUCH TRASH LINING THE STREETS, PEOPLE DUMP FURNITURE OFF AT DUMPSTERS WHICH STAY THERE FOR MONTHS AT A TIME, FERAL CATS, HOMELESS PEOPLE, CRIME, AND HOUSING COSTS ARE STILL HIGH AND NEIGHBORS FREQUENTLY HAVE TO MOVE JUST TO TRY TO FIND CHEAPER HOUSING OPTIONS. IT IS ALSO DIFFICULT TO FIND RECYCLING FACILITIES IF YOU DON'T OWN A HOME.	3/15/2022 3:09 PM
120	Environmental sustainability was somewhat touched on, but I feel it could be better expanded/focused on.	3/15/2022 2:19 PM
121	New Tampa has no identity. The city doesn't even have welcome to city signs at most of the city boundaries. Put them up on the Howard Franklin Bridge, Gandy Bridge, Veterans	3/14/2022 2:50 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

	Expressway, Bruce B Downs by county line road, etc. We need an identity.	
122	Just need to figure out how to make living costs more affordable for the more lower income families. I make almost \$50,000 a year and have a household of 6 i can barely find places to stay	3/14/2022 10:14 AM
123	Working towards less cars on the road. Infrastructure that promotes walkability, public transportation, work with local organizations to educate and promote providing remote work opportunities. In addition, promote electric vehicles by providing conveniences such as charging stations.	3/14/2022 8:37 AM
124	Equity should be throughout. Need to prioritize access for low wage workers, people living with disabilities and children...this will lead to great benefits for everyone and the most vulnerable could finally be at a fair starting point.	3/14/2022 8:02 AM
125	More TOD in urban core neighborhoods	3/12/2022 10:33 AM
126	I think that we should try to incorporate more green spaces in the land that is looking to be developed. Tampa is obviously expanding and I think that is a great opportunity to innovate and include sustainable infrastructure and acknowledge the impacts that green areas have on crime rates and public health, especially in poor areas.	3/11/2022 6:15 PM
127	Preservation of natural areas needs to be prioritized	3/10/2022 6:46 PM
128	The freeways are unacceptable for the amount of people moving here. It is taking up a good amount of the day to travel. Tampa has become more like Phoenix	3/9/2022 6:03 PM
129	Commuter Trains and Accessory Dwelling Units are used in the surrounding counties and cities to provide accessible transportation, affordable housing options. They should be encouraged and at the forefront of a new Comp Plan	3/9/2022 11:56 AM
130	Variety of public transportation, such as high speed rail, around the city. As well as connection to St. Petersburg. Less reliance on cars is a must as this city grows. Otherwise too much property will have to be dedicated to parking such vehicles and our streets will be even more congested.	3/8/2022 9:33 PM
131	i would like to see safer & more pedestrian friendly streets especially for seniors.	3/8/2022 11:05 AM
132	Reduce tax for low income people	3/6/2022 4:49 PM
133	It was somewhat covered by the survey questions but more public transportation! And connect Tampas public transit to high speed networks state-wide like Brightline!	3/6/2022 10:00 AM
134	We should absolutely invest in mass transit to connect to cities nearby. I know there used to be talks about BRT traveling to Clearwater, and we should definitely do this. While Pinellas county builds highways, we should encourage them to build BRT or rail systems beside the highways to connect the entire Tampa Bay area. We should support the Brightline high speed rail line that will connect Tampa to Orlando and Miami. Their success will become our success. And expand on it to the beach and St Petersburg if possible. Overall, the most important thing to me is the ability to not need a car, and that includes not using Uber and Lyft. Electric bicycles and electric skateboards/unicycles are revolutions in cities and I think we should build infrastructure and paths for them. Less intersections (for cars), more bike lanes, bridges over more road arteries, and possibly big lockers to store our electric vehicles in. I know when I stop somewhere with my OneWheel (electric skateboard), I'm afraid to put it on a bike rack where it's visible and anyone can cut my wire. But at the same time it's 29 lbs and I can't carry that with me inside of stores or work. A giant passcode-safe locker to store my stuff in and keep it hidden would be game-changing.	3/5/2022 1:11 PM
135	Build out Light rail in south tampa (dale mabry) and west Tampa to downtown On Kennedy blvd linking the airport to downtown's trolley system. Add more sidewalks and shade trees on Westshore blvd from Kennedy blvd to Boy Scout. Add overhead express lane on dale mabry similar to the gandy blvd sermon connector. Minimize the homeless, and finish the complete streets program.	3/3/2022 10:42 PM
136	Monorail transportation down the middle of I275 for commuters outside of the downtown area.	3/3/2022 4:56 PM
137	community development for our youth population	3/3/2022 3:57 PM
138	-Eliminate single use plastic -Mandatory composting (similar to San Francisco) -Prioritize spending on education. -Invest in Alternative transport options.	3/2/2022 8:09 PM

City of Tampa 2045 Comprehensive Plan Vision Survey

139	Public transportation is crucial to growth of our area!!!	3/1/2022 3:43 PM
140	Reduce the debt and keep the plan simple. A city cannot be great with great debt and shoddy infrastructure. Pave the roads, fix drainage, and provide green space and parks. Insure a high standard of architectural standard. There are too many glass boxes and cheap apartments being built throughout the city. Keep It Simple (KIS)	3/1/2022 10:46 AM
141	Better transportation and traffic infrastructure. We need HOV lanes on 275 and 75	3/1/2022 10:38 AM
142	We need to work on the electrical lines, bringing them underground. They are an EXTREME HAZARD, especially in south Tampa. Also need to focus on creating a solution for all the flooding that takes place in the neighborhoods during rainy season. The streets are poorly constructed and unreliable. The flooding is unnecessary, and we should invest in fixing this issue. Both of these are very very important. My street floods 3 feet every time it rains and the electrical wires and poles caught on fire in front of my house. PLEASE FIX THESE.	2/28/2022 11:18 AM
143	We should be respecting current zoning regulations and STOP over developing the area. STOP approving lot splits. It's overcrowding our schools and streets as more houses are built on the same area of land. Yes it's more revenue, but it is having and will continue to have terrible results.	2/26/2022 4:24 PM
144	Less over riding of tree ordinance & leaving the easement space that is required when structures are built	2/26/2022 1:53 PM
145	Improving and developing our schools! Also, I live in Sun Bay South and would really love an extension/connection of bayshore up to Manhattan's bike path. Adding safer crosswalks across Dale mabry, maybe elevated ones would also be nice.	2/25/2022 9:25 PM
146	I hope it doesn't just stay a vision on paper. Nothing seems to be happening in Tampa that looks like anyone is thinking about a sustainable future. It's sad considering how much people long for it and want to see it get done.	2/25/2022 11:00 AM
147	RAIL TRANSIT!!!! Our roads can not handle this population influx. It is insane that we don't have trains to take instead of risking our lives all day everyday in this ridiculous traffic.	2/24/2022 8:03 PM
148	It's frustrating to hear about 2045 when we have emergency level issues today. Address today's issues and then let's revisit 2045 once you've made considerable steps forward.	2/24/2022 7:08 PM
149	Protect areas that are high in animal diversity.	2/24/2022 12:27 PM
150	We really should put more responsibility on the city to assist land owners, buyers and builders with the outrageous costs and fees charged by the city in order to build/add roadways/integrate hook ups for city water and sewer. If someone plans to build nowadays the city should recognize the benefit that person is ultimately doing for the community and local economy.	2/24/2022 11:33 AM
151	You need a climate/environmental scientist to weigh in	2/24/2022 10:56 AM
152	Creating transit-first zones, focus on the arts and culture, align government budgets with the comprehensive plan	2/24/2022 10:39 AM
153	housing costs are getting crazy.	2/24/2022 8:49 AM
154	Focus on technology for city resources. A new planned "city municipal building" is a nice idea--but customer service to Tampa citizens would be better addressed with city technology that provides faster and more organized results, more on-line/remote abilities, maps/GIS, professional public noticing, transportation/parking to city buildings...the world is going digital and Tampa's municipal technology is the "Flintstones" compared to other Florida cities who use "Jetson" technology and public processes. The planned location of the building isn't that accessible unless a commuter rail or public transportation connects to the this new city "hub". The accessibility to "City Hall" should be through technology not construction. The city should promote a walkable city and lead by example. The new "municipal building" is not walkable to any parks, restaurants, shopping, or urban environments. It does not set a good example by the City to walk more/drive less.	2/24/2022 8:34 AM
155	Fix the current infrastructure! How long has 275 and 75 been under construction?!?! Schools are overcrowded as well.	2/24/2022 8:32 AM
156	Without affordable housing in all areas of Tampa, middle and lower income families will leave... Tampa will lose the foundation of its people...remote work at its current level is a fad....don't	2/24/2022 6:51 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

get swept up in it as many of these young people who moved here will go back to the north east after a couple years...than there will be plenty of empty apts...where are the reasonable priced condos in downtown and south Tampa?

157	It is so disappointing to see the City converting commercial zoned property to residential in the South Tampa area. The local establishments we routinely enjoy are either gone or in jeopardy of being replaced by housing. You are taking away our reasons for living where we do so hopefully consideration around this comes into play for future endeavors.	2/23/2022 9:49 PM
158	More crosswalks on busy streets where children live, like Dale Mabry and MacDill!	2/23/2022 5:07 PM
159	Pedestrian and resident safety!	2/23/2022 4:23 PM
160	More public transit options. Would live to see a future where high speed rail is viable reality	2/23/2022 2:55 PM
161	Defund the police Prison abolition	2/23/2022 1:50 PM
162	1. The roads in Tampa are abysmal. REPAIR roads in all areas of the city - not just Bayshore. It is shameful that no repair work has been done in decades in West Tamp - HABANA, WOODLAWN (by the stadium), Armenia. 2. Ever been to Hula Bay or Salt Shack - how many flat tires have you gotten? 3. Bayshore - SOUTH OF GANDY - flat tire threat daily. 4. EXPAND WESTSHORE or STOP approving development. How are you going to move people with only 2 LOUSY lanes on West Shore - north of Gandy? Shameful. 5. South of Gandy - exploited for more tax revenue with FEW or little investment back into the area for street repairs (pick any street), expansion of more street access, and NO concern for overbuilding apartments, instead of housing and condo which the neighborhood residents want much more. 6. The City has received a great deal of impact fees from development in the SOG area, but those dollars have not been reinvested into the area. And if it has, it doesn't seem like much has been done to create better road access to Gandy, increase services at Port of Tampa rec center, and encourage more shop and restaurants to build in the area. 7. Nice job approving all the development on West Shore south of Gandy - but oops, you did it again - NO STREET WIDENING as you approved thousands of new resident apartment and condos? Shameful. 8. Before you ask all of these silly questions and misleading questions in this survey - just fix repair the streets, widen clogged roads and use the IMPACT FEES you are collecting, from the neighborhoods being IMPACTED by all the development you are approving.	2/23/2022 12:00 PM
163	better target densities and intensities to guide future develop pattern & incentivize preservation, enhancement, and long term maintenance of natural resources	2/23/2022 9:49 AM
164	Enhancing safety in neighborhoods. Crime is outrageous in my area and I feel increasingly unsafe.	2/23/2022 8:28 AM
165	Ensure that areas under development are getting balanced businesses approved. For instance, not as many car washes and warehouse businesses and instead a grocery store in the south Tampa south of Gandy/heavily developed Port Tampa area. Ensure that major apartment/condo developments include the mixed use retail to adequately serve the residents of that area. Preserve the trees and environmental beauty of Tampa as much as possible during development too. It feels like an afterthought and I don't want us to look more like *any city in the Midwest without trees* than Tampa. Prioritize sidewalks and making Tampa more of a walking city. Sharing the road can be scary and dangerous for us and our children without safe places to walk. It's so beautiful and we want to enjoy our neighborhood and parks.	2/23/2022 6:52 AM
166	Stop developing natural land! REpurpose the areas that are in need of REdevelopment.	2/23/2022 12:11 AM
167	Create more rotary (roundabout) intersections. Continue to develop greenways for non-motorized transportation. I don't see a place for rail in the near future. Until we have a complete network of buses that serve both local and commuter routes, we won't be well served by the investment in rail. I do not think the interstate should be widened to allow more cars. If any changes are to be made, I would recommend creating bus lanes for commuters.	2/22/2022 10:08 PM
168	Study what projects are happening in each area. Stop the condos on Bayshore each of these add to traffic less ability to evacuate in case of a storm again is our fire department equipped to deal with a failed structure like Miami had. Have the structures been inspected for integrate.	2/22/2022 10:07 PM
169	Waterway development with park and doc access on the west side of Tampa. Cleanup up rattlesnake point.	2/22/2022 9:02 PM
170	I only know about a few of the city department that were affected by the recent reconfiguration to make it more efficient, however in the process it seems many lower level positions were	2/22/2022 8:48 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

eliminated leaving more work for fewer workers . Administrator positions were moved around and responsibilities were redistributed but this did not improve collaboration or communication between departments and I know that there has been severe lag in replacing workers who left. This makes the city run less efficiently.

171	Providing access to educational resources that train students and adults for careers/jobs of tomorrow.	2/22/2022 8:28 PM
172	Drainages proper ways for water to drain you keep building up and not making these apartments to put proper drainages and we suffer	2/22/2022 8:26 PM
173	Fix the transportation system first before overbuilding in SOG.	2/22/2022 8:06 PM
174	Infrastructure in south Tampa. MacDill and Westshore are one lane roads. We can not sustain the population growth with no expansion to those roads. Wayyyy too many apartment complexes going up with seemingly no regard from the City about improving access.	2/22/2022 8:00 PM
175	Schools, grocery stores, police/fire in South Tampa with all of the condo developments	2/22/2022 7:25 PM
176	We need better public transit options, especially outside the downtown area. We need to connect the University, Downtown, Midtown, Airport, etc.	2/22/2022 5:59 PM
177	2022 idea...ROADWAY RESURFACING in 33611. Fix our roads, sidewalks, install more sidewalks, connect sidewalks so people can safely get around, FIX our congestions, inspect traffic light sensors and make sure traffic management is efficient, WAY MORE FUNDING FOR ROADWAY RESURFACING...did you all get the hint we need our roads in 33611 resurfaced????	2/22/2022 1:54 PM
178	Reduction and or elimination of parking minimums and set backs, expansion of street cars and efficient to areas outside of downtown, demand all new developments have mixed use components as this greatly improved neighborhoods and commercial areas where residents live.	2/22/2022 1:41 PM
179	Electing people with a better, more holistic vision for the city that truly promotes all voices and not just those we find politically relevant to our contrived narratives.	2/22/2022 1:29 PM
180	Beautification and improvements needed in entire south of Gandy neighborhood! The area that was built the extension of the Selmon express way were put nice beautiful lighting poles, palm trees, improved sidewalks; but on the S. Gandy Boulevard Rd from the Dale Mabry to Bayshore Blvd nothing was done. Also all the business support that was giving downtown to improve the business wasn't provided to other business through the city. This program should have been extended to other places which are also the Tampa's city face!	2/22/2022 12:28 PM
181	We need reliable transit - a train and express bus lanes. We need sidewalks on both sides and we need code enforcement of tree and shrub trimming - the majority of the accidents near my house - Lois and Henderson area are because people have giant shrubs and no one can see around them. Also people constantly speeding.	2/22/2022 12:25 PM
182	You need to reign in the astronomically high housing prices. There's no way someone making \$100K a year should be looking at complete dumps for houses in high crime areas. If Tampa is a great city it ALL needs to be great. You're going to lose the people who have built this city and end up like Detroit.	2/22/2022 12:13 PM
183	Mass Transit, light rail preferred. More parks, less highways! Reduce restrictive zoning laws and allow for more affordable housing throughout all neighborhoods. Move the Rays to Ybor!	2/22/2022 12:11 PM
184	Please stop over building	2/22/2022 12:00 PM
185	Fix neighborhood flooding after rains	2/22/2022 11:21 AM
186	Stop multi-unit building in South Tampa!	2/22/2022 10:11 AM
187	We must increase solar power on all buildings. The Arena, UT, parking garages and many of the new condos have flat roofs but few have solar power. Heck the condos could have windows with solar cells (that technology is here).	2/22/2022 9:23 AM
188	Public Art, Music, and Legacy	2/22/2022 9:16 AM
189	Improve the City's downtown campus for pedestrian safety, the corners of Whiting and N. Florida Ave. are very dangerous for pedestrians road sidewalk and corner wait locations for	2/22/2022 9:10 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

pedestrians are not wide enough not can motorist see pedestrians due to competing locations of traffic light pools and other infrastructure fixtures cause a narrow sidewalk radius for pedestrians. There are other examples such as Whiting and Ashley, and Whiting and Tampa St.

190	Robust public transport (I.e rail system); Focus on pedestrian traffic throughout Tampa neighborhoods (I.e. bike lanes, side walks); More parks and green space;	2/22/2022 8:57 AM
191	Stop building skysrises in family neighborhoods. Stop building structures that look cheap and tacky, like downtown. Our grandkids are going to have to look at those. Increase fines for cutting down grand oaks, developers think government is a joke.	2/22/2022 8:54 AM
192	Save our tree canopy by rewarding property owners who retain healthy mature trees on their land, using tax credits or other incentives	2/22/2022 8:42 AM
193	We need to increase density zoning in Tampa Heights, VM Ybor, and Ybor and that increased density needs to be multi-use.	2/22/2022 8:36 AM
194	We need to seriously sit down with the neighborhoods and establish areas for inclusionary land-use policies. It's time to give folks the opportunity to have multiple generations of families living on the same property while giving them their own space to live in. I keep watching city Council and the VR be dealing with these issues when they need to be dealt with through policy changes to address the needs of our community.	2/22/2022 8:26 AM
195	Keep making more public places and maintain them. This is not happening.	2/22/2022 8:19 AM
196	Public transit is a waste of dollars that could go elsewhere. Transportation keeps the community thriving. In larger and more developed cities like LA, Atlanta, etc, one of the top reasons people leave is bad vehicle traffic. Nobody has ever left a city because of poor public transit. It is a significant waste of dollars for no gain.	2/22/2022 8:15 AM
197	Strong relationships with neighboring cities, especially St. Petersburg	2/22/2022 8:10 AM
198	More schools based on growing numbers of kids. Sidewalks everywhere in all neighborhoods. Plan appropriately for traffic to grow with the population. Better use/remodel existing parks. Affordable housing must be a priority or we are in big trouble. No one will drive an hour to make 12 dollars an hour. Stop letting people cut oaks and apologize later. The fines need to be larger. They will never be replaced in our lifetime. They are what make this community beautiful	2/22/2022 7:40 AM
199	Tampa needs more green spaces: parks, bike trails (not bike lanes), pickleball and bocce courts, playgrounds and community areas. South Tampa has been WAY over developed, especially south of Euclid. The roads can't handle the traffic. What use to be a spectacular neighborhood has become a nightmare....people are not happy, instead they are stressed, mean and entitled. Walking and biking is too dangerous. Growth is destroying our community and the only people who care are the long time residents, our quality of life has diminished.	2/22/2022 6:59 AM
200	Stop building apartments. I plan on using my vote to show how displeased I am with the current direction of South Tampa. If you're in, and in someway responsible for this, I'm voting for your opponnet.	2/22/2022 6:58 AM
201	Safer sidewalks. Use sidewalks as a means for pedestrians to get around. That means no parking cars, trucks and trailers on sidewalks. No bikes, scooters racing down sidewalks threatening pedestrians.	2/22/2022 6:03 AM
202	We must have a light rail system that ties into our bus service. Once people go back to offices, many areas will be gridlock. Also, can we time our traffic lights to facilitate traffic flow?	2/21/2022 9:49 PM
203	We do not need to overpopulate an already very populated area. That is what's great about tampa. It's a small big city feel and we want to keep it that way	2/21/2022 9:09 PM
204	We have an opportunity to grow responsibly and thoughtfully. Tampa could become such an amazing city but it won't be if we strip it of it's character.	2/21/2022 8:55 PM
205	We need to put programs in place to manage the amount of litter on our roadways. As more and more people move here, our roadways are not looking as visually pleasant. This is also bad for the environment as trash on roadways can end up in our waterways.	2/21/2022 8:47 PM
206	There should be a fund to adequately maintain our parks, especially those in poor neighborhoods.	2/21/2022 8:36 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

207	Figure out how to attract, cultivate and support early stage businesses in growth industries.	2/21/2022 8:29 PM
208	1. PROTECT SINGLE FAMILY ZONING! 2. REINSTATE TREE PERMITTING BY THE CITY (fight that with the state) 3. Putting buildings by the street and parking lots in the back is NOT a good idea. Cars will crash into more buildings. Keep parking lots out front. That way, we can see if a store is busy or not. 4. The reason so few ppl take the bus is that they are so nasty and unclean and I never feel safe on one.	2/21/2022 8:25 PM
209	Protected bike networks all over the city. We need to stop investing in highways and look at how to integrate our communities together to really act like a community and not like small towns that never encounter each other.	2/21/2022 8:23 PM
210	Stop trying to be the next Portland, Seattle or San Francisco. Moderate ideas & concepts to growing Tampa RESPONSIBLY are needed not extreme left ideas that were brought up on this survey. Don't try to turn sewage into drinking water, pave the potholes, and curb the new builds in South Tampa. Simple!	2/21/2022 5:53 PM
211	how do I answer this without the Vision presented here?	2/21/2022 5:46 PM
212	this was stupid ! what was the point	2/21/2022 5:43 PM
213	Just getting to know the Plan...	2/21/2022 5:40 PM
214	Safe access to school for our students. In the area I live in we don't have consistent sidewalks so kids have to walk or ride their bikes in the street. Plans for helping the homeless and food insecure in our communities as well.	2/21/2022 2:30 PM
215	Tampa needs to be a strong part of any regional transportation initiatives such as light (or heavy) rail.	2/21/2022 11:29 AM
216	Bring the Ray's to ybor city (season) and Pasco county (spring training) and watch the players move to lake Thonotossassa and watch Orlando, Sarasota and Ocala connect to Tampa. Tampa is AWESOME. Get the Ray's, follow my plan and Tampa will be the greatest city in north America.	2/20/2022 7:28 PM
217	Bicycle infrastructure! Mixed use high/medium density development!	2/20/2022 2:44 PM
218	Improve the quality of the schools outside of the plant district.	2/20/2022 9:17 AM
219	More density and no parking requirements to support walkable environment and mass transit. Architectural/facade requirements for developers to match community building styles.	2/20/2022 2:00 AM
220	Why was education totally ignored? Because K-12 and beyond are managed by other entities? That may be true, however the role that academic institutions play in the evolution of our community should be considered - especially in the context of diversified economic development.	2/19/2022 6:54 PM
221	- How can we address the extreme swings in real estate prices and rental rates? Key West is struggling with finding servers, retail workers, and other entry-level workers because no one can afford to live there. - Stronger building codes need to be enacted to start to address flooding/hurricane disasters. Are there any ways to help mitigate risks for existing housing? - How can we continue to help get the homeless population into safe places to live and received treatment and/or transitional services? This benefits everyone. - We need to crack down on the loopholes that unethical developers use to circumvent building codes and laws. This doesn't benefit anyone except the developers. - How can we address the state law that weakened Tampa's rules regarding protecting our canopy. At the current 3% loss per year, our tree canopy will be one-third gone within 10 years.	2/19/2022 6:05 PM
222	Mass public transportation that is not just a bus service.	2/19/2022 3:32 PM
223	Affordable house requirements in all neighborhoods. City can partner with small home builders.	2/19/2022 2:55 PM
224	Mass transit. Utilize our railroads. Traffic is a huge concern.	2/19/2022 11:33 AM
225	Make development more transparent, consistent, and easier, especially along historically underutilized corridors like Kennedy Blvd. Also, tear down i275.	2/18/2022 11:25 PM
226	We need to consider programmatic, people-based tools in addition to place-based and built-environment tools.	2/18/2022 8:13 PM
227	Need to take an equity planning approach to process: acknowledge history of inequality, spatial	2/18/2022 8:04 PM

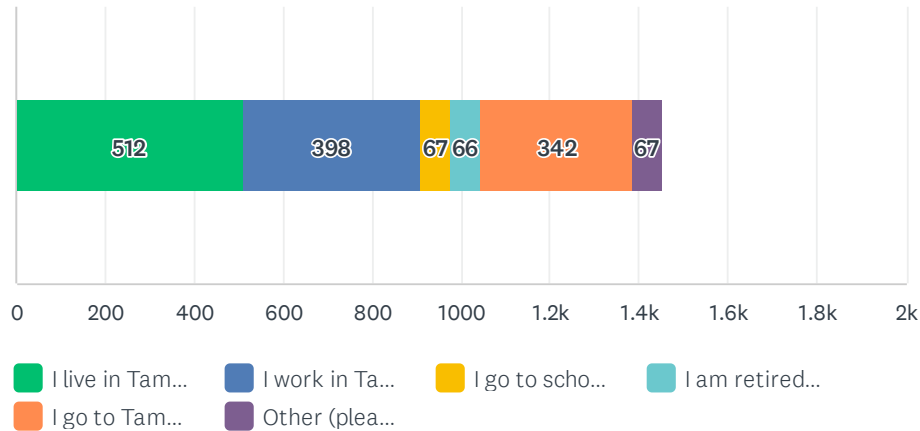

## City of Tampa 2045 Comprehensive Plan Vision Survey

equity analysis/disaggregated data analysis, outreach that genuinely accommodates marginalized folks and effectively includes marginalized community members, outcomes that address history of discrimination/disproportionate impacts and underinvestment/largest opportunities for improvements in marginalized communities. See Hillsborough TPO equity planning process for components. Affordable housing for everyone, including unhoused people.

228	Look for neighborhood nodes with character and put in special landscaping and lighting to create synergy. Bury more and more power lines or put them in alleyways. Repave more streets. Focus on aesthetics and beautification Including in industrial areas. A coat of paint and trees can make a big difference. Be strict with code enforcement especially what is visible from the road. Encourage more shopping arcade type developments on ground floor of mixed use buildings. Plant only shading trees or flowering trees or cypress along the roadways, no disease prone Laurel oaks. More parks and greenspace and passive water access including ponds and lakes in the city. Remove fences and shrubs blocking views of water.	2/18/2022 7:33 PM
229	Protected bike lanes should be a much bigger priority. Ebikes are taking off and provide an incredibly efficient and affordable way to get around the city. But our roads are far too dangerous for parents to bring their kids with them. I live in Seminole heights and my family decided to go down to 1 car and 2 cargo ebikes. We love it but need more protection. Young professionals like me want to see this kind of innovation from the city or we're just not going to stay here.	2/18/2022 2:08 PM
230	Cultivation of affordable housing. Addressing the pay to cost gap that keeps growing.	2/18/2022 11:04 AM
231	It is going to take a lot of forward and creative thinking to get things done. The marketing will have to make sense to different generations, people of different races, backgrounds, financial levels, political affiliations, etc. Tread lightly but with a big stick and carrot. Having leadership put their butts where their mouth is would be helpful. We have leaders who make a lot of money and drive to work every day (or have someone drive them). How about encouraging them to take transit... great PR and, hopefully, an eye-opener for them. We are looking at putting in a baseball stadium in Ybor City. Fans will still have to drive... unless there is good transit to get them there. Same with Amalee Arena and Raymond James. Imagine the access if there was a reliable train? Truist Park in Atlanta (actually Cobb County) and the Battery are interesting. It is a multi-use development that is also a destination. The biggest challenge... parking and no transit to get there.	2/17/2022 8:32 AM

## Q18 What is your relationship with the City of Tampa? (Check all that apply)

Answered: 638 Skipped: 85

ANSWER CHOICES	RESPONSES	
I live in Tampa	80.25%	512
I work in Tampa	62.38%	398
I go to school in Tampa	10.50%	67

## Q21 Please share any additional comments, feedback, or suggestions for the City of Tampa's Comprehensive Plan Project Team:

Answered: 171 Skipped: 552

#	RESPONSES	DATE
1	Encourage more native plants in public landscaping. A good example for citizens, easier to maintain, celebrates our natural beauty (regional identity), and of course good for the critters. Also ... teach your landscape contractors to NOT prune (hack) native sable palms the way they prune non-native palms.	6/1/2022 12:07 PM
2	N/A	6/1/2022 8:52 AM
3	Public transportation and local stores and businesses are extremely important to fixing issues caused by cars	6/1/2022 8:41 AM
4	Publicly displaying the plans/work completed by this organization.	6/1/2022 8:40 AM
5	Band assault weapons	5/31/2022 9:06 PM
6	Maybe even offer more places to help with mental health and spread more awareness of our civil duties to look out for one another and be safe and treat others with respect and kindness, rallies or party events can be thrown to do this.	5/31/2022 4:45 AM
7	Get rid of the building at 27.863548, -82.528706 (7021 S. Kissimmee St).	5/28/2022 6:06 PM
8	I seen the presentation at the May 10, 2022 East Tampa CAC meeting, the presentation was too short with little details. Maybe since you are looking at 2045, that maybe or is appropriated.	5/23/2022 6:18 PM
9	Yes more focus should be playing in the development of Tampa between 22nd St. and 50 Street and East Tampa especially the produce area this area is under developed in the city need to pay more focus to the development part of this of East Tampa	5/23/2022 1:33 PM
10	Accessible housing should include options close to the city and immediate surrounding suburbs. Rent control.	5/20/2022 2:16 PM
11	You plans are going to have to be as easy to adapt to a changing environment as technology is. Don't look to far down the future, 5 no more than 10 years	5/19/2022 4:58 PM
12	This survey shows a lack on caring about the real opinions and needs of the citizens. The questions are ridiculous. Please do a survey that is not a joke.	5/15/2022 5:44 PM
13	Steal from the rich to feed and house the poor.	5/13/2022 9:18 PM
14	Our trees must be protected and a sustainable, safe supply of drinking water must be planned for, developed and maintained.	5/12/2022 4:27 PM
15	Keep a Balanced Budget	5/11/2022 6:44 PM
16	You have totally ignored the destruction occurring South of Gandy. You are not concerned about residents living there in established single family homes. You have not addressed the roads or the runoff problems.	5/11/2022 9:15 AM
17	I can't afford to live in Tampa anymore. We need rent control. I live in a tiny studio paying \$1000.00 a month, smaller than a motel room, and I am struggling.	5/11/2022 8:06 AM
18	Improve transit beyond cars and busses. Widening roads is just a bandaid. Invest in the Ferry system, trolley, widen sidewalks for bikes, train transit	5/10/2022 7:47 PM
19	MORE TREES.	5/10/2022 2:44 PM
20	thank you for asking. =) I love Tampa and you can reach me for anything further. 813-766-4193 Karla.	5/10/2022 2:39 PM
21	Focus on future economic vitality. Otherwise, there will be no resources available for other	5/8/2022 3:01 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

	community objectives.	
22	Please engage the Cultural Community and Neighborhood leaders and Historic Preservationists in this survey. Please ask me for help! Linda Saul-Sena 813 503-	5/6/2022 11:00 AM
23	Reuse neglected and abandoned commercial property for multi use home/work	5/5/2022 4:49 PM
24	I may not be around in 2045. I would be 98. But I am very interested in how we can plan for a good future for everyone.	5/4/2022 8:40 PM
25	The features you asked us to react to were very generic and Mom/apple pie. I can't imagine that anyone would say the attributes you mentioned were NOT important. I don't think this survey was very useful.	5/4/2022 6:02 PM
26	Plant more BAMBOO for cleaner and greener environment with less erosion. South end of property to cool, north end to protect from frost. bamboozllc@outlook.com	5/4/2022 3:14 PM
27	Plan more virtual meetings throughout the year for discussion on changes and issues.	5/4/2022 6:50 AM
28	Since clear headed staff created the previous plans, maybe consider a different approach. Having cocktails (lots) while writing the 2045 plan might just be what is needed. :)	5/3/2022 2:32 PM
29	Tampa is situated in an area that is ideal in so many ways -- we have great weather (except for hurricanes), we are situated near a huge bay and the beautiful Gulf and all its beaches. Tampa could rival Miami and San Francisco (the other Bay Area) in my opinion. Yet you go to Tampa and there is nothing to do except Riverwalk and Sparkman Warf. There is no shopping district with independent boutiques and not very many restaurants that aren't chains. The best museum in the area is in St. Pete. It sort of reminds me of Atlantic City, which could have been the East Coast's answer to Las Vegas, with an ocean thrown in. They have never lived up to their potential, and neither has Tampa. This area could be a destination with the right planning.	5/3/2022 1:59 PM
30	We plan to attend the May TDC meeting to introduce - to propose a new self-funding, high-visibility GREEN TOURISM and Mobility project; a Public Private Partnership ( P3 ) Tampa Bay attraction. Our hope is that the TDC will in time - endorse the project. The following was presented to FORWARD PINELLAS - your MPO: Good Morning Madam Chair, Board Members and Staff, my name is Neil Cosentino, I am a member of a small all-volunteer, self-funded, public-interest think tank and a retired USAF fighter pilot. My mission today is to introduce the SOS Save Our Solar - Clean Millennium Bridge project which involves repurposing the I-275 Northbound Howard Frankland bridge. The bridge is valued at over \$300,000,000 and is scheduled to be demolish at a cost of over \$35,000,000 when the new southbound 8 lane bridge opens in 2025 if on time. The Clean Millennium Bridge is 60' wide and 2.5 miles long and safe the day it closes for a maximum number of 40 ton vehicles - dynamic loading. The bridge has an FDOT7 health and sufficiency rating at near 90% and will be rated at well-over 100% ... the repurposed bridge is being planned for a static and dynamic load limits under 4 tons. Our plan includes forming a Public-Private-Partnership ( a P3 ) is to install a 60' wide 2.5 + mile solar arrays canopy that will shade the new Green Cross Bay pedestrian and bike trail. Sale of the clean energy ( Kilowatt Currency ) will pay to maintain the bridge and operations. We look forward to your interest and support for repurposing the bridge. Please advise, Sincerely, Cornelius neil Cosentino, USAF Retired Camelot Florida The SOS Clean Millennium Bridge project Tampa Bay 813-784-4669 // // Tampa Bay's 26+ WINS associated with the Tampa Bay Clean Millennium Bridge & Trail Project - May 2022 WIN 1 - Save \$35,000,000 ( bridge demolition cost ) WIN 2 - Save a \$300,000,000 public asset - the value of the Northbound I-275 bridge WIN 3 - Income from the sale of clean solar energy from the Solar Array Bridge canopy used to operate and maintain the venue WIN 4 - Income from 24/7 Clean Energy from on the bridge pull over charging stations for Ecars, Eboats, Edrones... WIN 5 - Bridge venue events.i.e., flea markets, fishing, art festivals, water sports... WIN 6 - Increases our County/Metro Green foot print WIN 7 - Decreases our County/Metro Area Carbon foot print WIN 8 - Increases our County Metro Resiliency WIN 9 - Increases our County/Metro Sustainability WIN 10 - Increases rain water recovery WIN 11 - Decreases Tampa Bay water pollution WIN 12 - Creates a new shade covered pedestrian and bike trail WIN 13 - Establishes an alternative route or add Hurricane evacuation lanes WIN 14 - Provides an alternative route for bridge accidents closures WIN 15 - Provides an alternate Tampa Bay crossing bridge for maintenance and repairs WIN 16 - Provides an ICONIC tourism and visitor attraction WIN 17 - Establishes a new business model	5/2/2022 12:22 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

for the production and sale of clean energy WIN 18 - Provides a clean energy test bed site for low wind generators WIN 19 - Provides a clean energy test bed site for for the harvesting of clean tidal energy WIN 20 - Provides a testing site for increasing the longevity of concrete bridge in saltwater WIN 21 - Provides new Clean Energy Jobs WIN 22 - Provides for the development of Kilowatt Currency vs Bitcoin Crypto-NFTs WIN 23 - Helps cool Spaceship Earth-One-Bridge-at-a-Time Win 24 - Creates a world-wide world-class clean energy venue WIN 25 - Cyclists win a new Cross Tampa Bay bike trail WIN 26 - Supports Green Tourism WIN 27 - \_\_\_\_\_? The Public-Private-

Partnership ( P3 ) will provide leadership in the production & sale of clean energy. NOTE: The I-275 Northbound Howard Frankland Bridge is 60 ' wide and 2.5 mile long and is safe for 40 ton vehicles - dynamic loads - it has a FDOT 7 bridge sufficiency and health safety rating near 90% for 40 ton vehicles. Our repurposed bridge will have a health rating over 100% for a long time because of the planned maximum limit of only four ( 4 ) tons. FMI & to add more WINS contact: Camelot Florida text them to 813-784-4669 Camelot Florida is a small, all volunteer, public interest, self funded think tank... P.S. Not often in a lifetime do we get chance to save - repurpose a bridge, save over \$335,000,000, created a GREEN TRAIL and make significant contribution to cooling our SPACESHIP EARTH...

31	STOP!!! LOOK around you. Human beings live here. The people of these local communities iare who you should be working for not the developers only interest is in making money. And you know that's true but you just keep destroying neighborhoods.	5/2/2022 11:53 AM
32	Make our code strong so that the right project is built in the right place.	5/2/2022 9:17 AM
33	Thank you!	4/27/2022 11:34 AM
34	We need to think about the people who have lived in these areas for years instead of trying to accommodate the ones wanting to come here. Most people that have been raised here, worked here, lived here, spent there money here and have supported the the areas we lived in for years are being overlooked and pushed out.	4/26/2022 12:11 PM
35	Tampa is the heart and center of our region and its health and success affects the whole Tampa Bay Region.	4/26/2022 11:00 AM
36	Please consider the already felt negative impact from overbuilding. Building more multi family homes in already dense area does not solve the housing crisis we are facing.	4/25/2022 8:14 PM
37	I would like to know why only City of Tampa Why not Hillsborough County or other counties close to Tampa to participate in this future growth. Many of us travel thru and to Tampa .	4/25/2022 6:44 PM
38	This survey is extremely devoid of details and does not seem like an actual attempt to gather real community input. Seems like it was designed to be a "layup" of a survey with all items deserving extreme importance.	4/25/2022 12:28 PM
39	Suggestion: get your paws on the Tampa Bay Partnership's "Making the Economic Case for Resilience in Tampa Bay" and make it available as a PDF - not just that unreadable mess on issuu	4/23/2022 4:12 PM
40	Create an open climate for citizens of Tampa to worship and practice religious expression.	4/18/2022 3:37 PM
41	We need more density near the urban core. Downtown Tampa has a moment to shine, there is no reason that north hyde park, old west tampa should be predominantly single use neighborhoods.	4/18/2022 9:50 AM
42	Thank you for making this survey.	4/16/2022 7:11 PM
43	Develop a survey that asks specific questions. This survey will not allow you to make much progress because the questions are too general.	4/16/2022 4:51 PM
44	Keep Tampa's small city feel, don't ruin the place.	4/15/2022 8:36 PM
45	I hope you're doing okay. Please do the right thing.	4/15/2022 5:24 PM
46	I am proud to have you as my mayor. I hope to follow in your footsteps and contribute towards Tampa's greatness.	4/15/2022 1:59 PM
47	Dream freely. Make it happen.	4/15/2022 12:32 PM
48	Creating a safe, sustainable, forward-thinking city is important to me. Safety includes having quiet neighborhoods. Where I live in Westshore there are plans to expand roadway access	4/15/2022 11:22 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

which, when that happens, eliminates a safe, quiet street for residents. More and more houses are torn down for multi-family units that look crammed into each other. Right now it seems the city is bursting at the seams with an influx of people and no solution to getting out ahead of it in a climate-friendly manner.

49	St. Pete is doing marvelous things. Please swallow your pride and look at them as an example. Nobody cares if you do something after them - we'll just be celebrating that you're finally doing it. They completely rezoned the city in 2007 and we're way behind the ball but we really need to totally overhaul our LDRs to a. Upzone, b. Require community benefits and affordable units, c. Focus on TOD and village centers, and d. Eliminate remnants of all racist exclusionary zoning of the past built into the code when white supremacists ran the city government	4/14/2022 10:49 AM
50	I am a long term channel district citizen and not until the last few years have I been proud of my neighborhood and the direction the city is taking, bravo. Now let's keep the momentum by building smarter , denser, transit oriented, walkable areas, reduce the outdated parking minimums in the city we have so much parking unused as is. Keep up the great work you're doing!	4/14/2022 9:54 AM
51	Focus on infill projects to densify the city and enable people to live a car free or car lite lifestyle. I would especially love it if we could get rid of some of the interstates that tear apart the fabric of the city.	4/14/2022 9:40 AM
52	Make our neighborhood livable like Hyde park and west Tampa with cafes and parks. Clean streets	4/12/2022 3:12 PM
53	YMCA	4/10/2022 12:22 AM
54	Be Bold. Think inclusively. Push Boundaries. Plan like our very lives depend on it. Because they do.	4/6/2022 3:35 PM
55	This is an important and highly valued process for our community. All of the dimensions described must be advanced to the fullest possible extent. It will be critical for elected officials to understand the details of smart growth, especially the need to reduce spatial allocations for personal cars and trucks. These vehicles require a disproportionate amount of public space and resources.	4/5/2022 6:15 PM
56	Whatever happened to all of the previous plans like Invision? I complete a lot of surveys and I still don't see equity in each and every neighborhood .	4/5/2022 5:02 PM
57	Thank you for the opportunity to contribute to the process.	4/5/2022 4:09 PM
58	It is a great start. I think community education will be important. Many people have old negative stereotypes about transit and density and don't understand the negative effects of car dependent planning and single family zoning.	4/5/2022 3:02 PM
59	Any plan should include the cooperation of the school district, since that influences transportation, housing, and jobs.	4/4/2022 2:08 PM
60	In the presentation, I saw that keeping trees was an important part of rezoning or rebuilding on land, but I've seen grand oaks chopped down time and time again. There seems to be a disconnect or inconsistency in protecting trees.	4/1/2022 3:15 PM
61	I am a working professional who just moved here from NC last year. We decided to rent for a year to learn the area. However, the housing market is so insane that I am not sure we will stay. Additionally, the traffic has gotten increasingly worse from downtown to uptown, even in this short period of time.	4/1/2022 10:20 AM
62	I love everything about what Westshore is and what it is becoming	3/29/2022 12:56 PM
63	I appreciate this opportunity and I hope y'all are truly listening.	3/29/2022 10:45 AM
64	We're too car-dependent here. Biking should be safer and encouraged more. Also, our sidewalks are laughable.	3/29/2022 8:39 AM
65	To sum up, I think green spaces should be protected and waterways cleaned and allowed to thrive. I think focus should be into preventing too much of a sprawl and into connecting neighborhoods through public transportation options.	3/28/2022 11:21 PM
66	Lets go Bucs!	3/27/2022 8:51 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

67	More activities for families. The ROADS are getting bad focus on them more. Come to lower income areas more and speak to people in the community we don't want to feel left out because we're a BIG part of Tampa as well	3/27/2022 8:46 AM
68	Expand expand expand tampa has the potential to be one of the biggest city's in the United States and the potential to have the best economy, remember that tampa is a young city with lots of youth listen to us listen to the young adults and what we want and need.	3/25/2022 3:57 AM
69	We have a massive network of Stroads connecting the sprawl of Tampa. There needs to be a plan in place to start getting rid of these dangerous, inefficient and resource hungry ways of transportation. We will never reach our fullest potential trying build around them and will put unnecessary (unsustainable) financial strain trying to do it all.	3/24/2022 3:14 PM
70	Modernize Tampa that's all!!!	3/24/2022 11:19 AM
71	Passenger rail throughout the county and across the Howard Frankland.	3/23/2022 7:02 PM
72	The code should be changed to allow for granny flats for any residence with a suitable lot, not just exclusive to homestead properties. This would allow more affordable options for young folks and those on a limited budget within City limits. The price of housing is outrageous and this will push people out of the city.	3/23/2022 9:15 AM
73	Homeless in downtown is getting worse. Benches in Hixon, McDill and USF parks have been taken over. I was jogging on the riverwalk and passed a guy defecating behind USF park. Pretty bad. I do t think the tampa city information personnel (yellow shirts and safari hats) do anything at all. Waste. Tampa cleanup crew at Hixon and along the riverwalk are great. Good job.	3/23/2022 5:56 AM
74	Eliminate parking minimums city wide.	3/22/2022 8:54 PM
75	Please listen especially to communities of color. These communities/neighborhoods stand to lose the most of the city keeps gentrifying they way it has.	3/22/2022 1:38 PM
76	FIX THIS CITY! GET US SOME DAMN PUBLIC TRANSPORTATION!!!! GET SOME AFFORDABLE HOUSING FOR PEOPLE...quit letting Tampa slide into a second/third-class city.	3/19/2022 12:48 PM
77	Have a multi-modal transportation system in place by 2045 that will support High-speed Rail, light rail, self driving cars, and flying cars ([Yes, Flying Cars are starting to become commercially available] Flying cars would require lanes on roadways for take-off/landings).	3/19/2022 10:19 AM
78	Before we keep building more and more housing for people who want to move here, it is crucial the city and Florida as a whole figures out how people are going to get around and enjoy the place they live. Living and working in two high-traffic areas in Tampa for decades, I can say things are just getting worse and it is not sustainable. We can no longer put sustainable, reliable public transportation on the back burner. Thank you.	3/18/2022 5:35 PM
79	I've lived in N Tampa area for eight years. Would love for the city to put more money into building up and improving the university area...residents there could use better housing for their families instead of building a USF apartment complex in University Mall parking lot. The difference between N Tampa and S Tampa is astonishing. I wish that would change eventually.	3/14/2022 1:47 PM
80	We need to prioritize preservation and protection of wildlife	3/10/2022 6:46 PM
81	Put in metered freeway on-ramp lights. (Lookup the city of Phoenix for examples)	3/9/2022 6:03 PM
82	properly repave streets & skip the sloppy patchwork. It's not safe for pedestrians, cyclists & vehicles	3/8/2022 11:05 AM
83	I think Tampa does a great job on its own, but its neighboring cities only make it stronger. Connect Clearwater, St Pete, and possibly Orlando with mass transit and the bay area will explode with job growth and opportunities. Also fight against car culture. Give the roads back to the people! A small beach park near downtown Tampa, similar to Vinoy Park Beach Volleyball Courts in St. Pete, would be fantastic. Sometimes you want to go to the beach but don't want to travel 40 minutes to the gulf. Instead of creating another park with water access and shops and restaurants, give it a sandy beach, with surfboard/paddle-board rentals and jet skis.	3/5/2022 1:11 PM
84	The downtown area is beautiful, always clean, vibrant, and the Riverwalk is a big attraction.	3/3/2022 4:56 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

Keep the parks and green open space. Doing an excellent job with this City and controlling growth, culture and space.

85	Better mass public transport within all of Hillsborough county	3/3/2022 3:55 PM
86	I would say there should be a serious look at reducing/eliminating parking minimums, increasing density in certain single family neighborhoods to allow for townhouses, duplexes, triplexes, etc. and incentives for property owners to develop vacant and/or derelict property.	3/3/2022 2:46 PM
87	Do not cheapen the city!	3/1/2022 10:46 AM
88	Replace the electrical poles and cords, bring it underground. Solve for the insane flooding in south Tampa	2/28/2022 11:18 AM
89	The Riverwalk and bayshore sidewalks of tampa are a wonderful feature of the city. Would love to have that walkability and bike-ability continue to be a priority and expanded as tampa develops further.	2/25/2022 9:25 PM
90	I hope it doesn't just stay another vision on paper. Nothing seems to be happening in Tampa that looks like anyone is thinking about a sustainable future. It's sad considering how much people long for it and want to see it get done.	2/25/2022 11:00 AM
91	RAIL TRANSIT. BUSES ARE NOT THE ANSWER.	2/24/2022 8:03 PM
92	Reciprocation and recognition go a long way when attempting to create a sense of community. Having individuals who are resentful towards the city (for example in situations where someone buys some land but the city *requires* that buyer to pay 30k to develop a roadway in which the CITY had planned to build *TEN YEARS AGO* but never began the project).	2/24/2022 11:33 AM
93	Address affordable housing or there will be a crisis and an uprising.	2/24/2022 10:56 AM
94	Please protect our city from more overdevelopment	2/24/2022 9:59 AM
95	panhandlers / homeless people are creating a dangerous environment on our streets. We need to address this problem now before we turn in to CA. Would love to see a city program to help people get back on their feet. Allowing people to walk in-between our busy streets is not acceptable. We also need more speed bumps along busy residential streets. Police these areas well!	2/24/2022 8:49 AM
96	Reuse, Renew, Recycle, and Walkability are the key to a sustainable future. Encourage revitalization of existing resources. Encourage mixed used developments and New Urbanism concepts.	2/24/2022 8:34 AM
97	As of now, I count my blessings that I work from home full time and no longer have to commute to Pinellas each day. The drive back to Tampa in the evening was awful. For whatever reason, bridge traffic always moves more swiftly going into Pinellas regardless of morning or evening commute, but it was always gridlock getting to Tampa.	2/23/2022 9:49 PM
98	Hello Comprehensive Plan Project Team, You will do a wonderful job to plan this for the future. If you work and live here in Tampa, you know how it is now with the hikes in housing prices, roads, and transportation. Don't forget also that traffic is starting to back to normal, so please have DOT plan the roads, highways, etc better. Keep Tampa green and beautiful with parks to reduce pollution. Thanks for all you do!	2/23/2022 5:08 PM
99	I do not mind changing/ evolving. I don't mind a revolution even. Let's just make sure that our area stays true to it's authentic self. The allure of business and development can cloud the lens of mindful evolution. Be mindful of what got us here and make sure it continues.	2/23/2022 2:19 PM
100	Stop acting like business & money is what makes a city great. Capitalism is a pyramid scheme. Let's deal with actual reality & prioritize those most effected by problems to find our solutions. Grow the fuck up.	2/23/2022 1:50 PM
101	Transportation and public park space is key, and we don't have enough of either. More bike lanes. More parks. Bayshore could be quite literally the most amazing public park in our country if it wasn't 4 lanes of traffic.....	2/23/2022 1:25 PM
102	Work on committed planning for controlled building in South Tampa. Density and traffic is out of control. Our area is losing its unique footprint.	2/23/2022 12:53 PM
103	The questions in the survey make for a colorful political brochure. Local city government works	2/23/2022 12:00 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

to provide PRACTICAL solutions to the lives of everyday citizens: 1. REPAIR all of the potholes, cover up manholes that lead to flat tires 2. WIDEN the roads where approved development is creating MORE traffic congestion 3. Build sidewalks in more communities - don't just put it on the backs of builders. There should be repair to Woodlawn and sidewalks added as people use this street for all events at Raymond James Stadium. 4. Before you worry about diversity, how about you improve streets in all areas like West Tampa, East Tampa, South of Gandy and not just Beach Park. 5. More mass transit options to move people. 6. Scooters are not the answer and are dangerous. 7. Be creative with mass transit - so much more we can do to move people. 8. More outdoor dining. Very important. 9. Stop dictating noise ordinance in Ybor - it is an entertainment district. If you want quiet more to the suburbs. 10. Stop dictating early noise ordinance in downtown Tampa. Live music is the cornerstone of a vibrant city. Music until midnight is reasonable in any city. 11. Create a more PRACTICAL and ATTAINABLE comprehensive plan and stop speaking in empty platitudes that sound good on paper but without context, price or possibility. Definition of a goal: must be measurable AND attainable. There is your plan. HOW MANY STREETS WILL BE PREPARED PER YEAR HOW MANY MANHOLE COVERS WILL BE ACTUALLY COVERED so we don't break our cars? Does keeping brick streets in certain areas served a real purpose or are they too costly to keep up and cause strife to the neighborhood residents? How many roads will be widened or expanded to address the traffic congestion due to massive development? How will IMPACTED FEES be re-invested into the neighborhoods being impacted? Can we provide tax breaks for businesses that expand in areas without convenience to stores, etc? MUCH MORE PRACTICAL PLAN is needed. Global warming, diversity missions are part of larger government role. CLEAN WATER - goes without saying. SAFE STREETS - continually reinvest in police forces. Make it easier to do business in Tampa.

104	Go out into the communities and meet with people first-hand. Shadow them, live a day in their shoes and it may change/enlighten your perspective. Also makes for a great media opp. :)	2/23/2022 11:59 AM
105	LISTEN to the people who live and will be impacted. We live here and it is tiring to listen to planners that have no "skin in the game". Talk to us!	2/23/2022 11:50 AM
106	My husband is a native Floridian and I have lived here my whole adult life. We are retired public school educators. The questions above should give the opportunity to distinguish those of us who live, worked and retired here as opposed to those who retired from another state to Florida.	2/23/2022 11:36 AM
107	Ensure that areas under development are getting balanced businesses approved - need some real city planning. For instance, not as many car washes and warehouse businesses and instead a grocery store in the south Tampa south of Gandy/heavily developed Port Tampa area. Ensure that major apartment/condo developments include the mixed use retail to adequately serve the residents of that area. Preserve the trees and environmental beauty of Tampa as much as possible during development too. It feels like an afterthought and I don't want us to look more like *any city in the Midwest without trees* than Tampa. Prioritize sidewalks and making Tampa more of a walking city. Sharing the road can be scary and dangerous for us and our children without safe places to walk. It's so beautiful and we want to enjoy our neighborhood and parks.	2/23/2022 6:52 AM
108	Don't sell our city out to the highest bidder. We're not LA, NYC, or any other overbuilt city, and we don't want to be.	2/23/2022 12:52 AM
109	Please, Please...we have seen enough growth. We need to renew the old/abandoned/outdated. Don't let our city become so developed there is no green left. Please educate ALL to keep it clean. Keep Tampa a beautiful place to live, without creating a bustling concrete-filled space with too many homes, businesses, big roadways, all jumbled up. We need to save some of the natural habitat for those of us who have watched it diminish rapidly for a LIFETIME. This Tampa native hopes growth will happen in area that need REdevelopment!	2/23/2022 12:11 AM
110	Stop overbuilding	2/22/2022 10:29 PM
111	Thank you for offering this survey.	2/22/2022 8:48 PM
112	Not everything can be a #1 priority. The format and survey questions allow respondents to make everything a priority. Please consider setting up the survey in a more useful format in the future if the intent is to really collect data. If the intent was to use the responses to create PR/marketing content then you totally did a great job.	2/22/2022 8:28 PM
113	I have a disabled child who is blind and autistic Prescott is the only road his bus can use and	2/22/2022 8:26 PM

## City of Tampa 2045 Comprehensive Plan Vision Survey

it's so small who allowed those apartments to exit and enter don't we have a say so? Please rethink what your doing to my community.

114	Fix the transportation system first before overbuilding in SOG.	2/22/2022 8:06 PM
115	STOP OVER BUILDING IN SOG!!!!!!!!!!!!!!!!!!!!!!!!!!!!!! ( SOUTH OF GANDY) Make our parks a place to go for events, like Oldsmar park. They have live music events, movies in the park, vendors, etc. Our parks have NOTHING!!!!!!!!!!!!!!!!!!!!!!!!!!!!!! Most have crime at night instead of events. Especially in SOG!! We have a few nice parks down here that dont offer ANYTHING!! No events, no NOTHING!!!! Learn from the Mayor of Oldsmar in how to make your residents happy. Do things for your residents not just for downtown & the high end places.	2/22/2022 7:23 PM
116	2nd generation West Tampa native & mother was Ybor City native. I'm still waiting for old West Tampa to begin its comeback!!!	2/22/2022 7:09 PM
117	Please make Franklin St a pedestrian street again. String lights across the street and make it festive, even on a week night. It is also very sharable.	2/22/2022 5:15 PM
118	I live in Port Tampa , the end the no way out , please give a store to go, a gas station we have to travel to Gandy blvd for Public it can be 2 to 4miles up to Gandy	2/22/2022 3:53 PM
119	Will say it again...RESURFACE OUR FAILING ROADWAYS. S MacDill Ave, Interbay Blvd, S Himes Ave, residential streets in 33611, way more funding and immediate attention needs to be given to road resurfacing and sidewalks as well as ensuring the massive oak trees that take down power lines are trimmed up.	2/22/2022 1:54 PM
120	How about spending more time in East and West Tampa? We do not need more parks. We need leadership that truly recognizes it is a servant to the people. This requires better listening skills. You can not improve the urban core without improving East and West Tampa, but this should be done in away that does not displace people.	2/22/2022 1:29 PM
121	Greater social services investment, public transportation infrastructure, renewable energy investment and de-emphasis on cars, fossil fuels can potentially make Tampa a leader in the United States and a model for other major cities	2/22/2022 1:19 PM
122	Sidewalks for our children, more traffic lights with green arrows for safety.	2/22/2022 1:07 PM
123	Thank you so much for providing a comments section for all citizens. Therefore it shows this Comprehensive plan is very inclusive and well planned. Just hope local people from each neighborhood are really listened besides its neighborhood leaders that have their own personal agenda.	2/22/2022 12:28 PM
124	Sidewalks - we need them and we need more trees. Stop allowing the massive buildup of McMansions in south Tampa and too many apartments off of Westshore - the street cannot handle all of the traffic. Repair Henderson Blvd and Lois - put in a round about or something to fix all the accidents - I am sure some intelligent city traffic engineer can fix this intersection.	2/22/2022 12:25 PM
125	Stop catering to investors and start having the backs of the working class.	2/22/2022 12:13 PM
126	Stop over building	2/22/2022 12:00 PM
127	I'm and advid biker. stop wasting money with bike lanes (some painted green) down high traffic busy streets. Nobody uses these. You'd be crazy to. Much higher chance of getting killed riding in a bike lane sandwiched between two busy car lanes. When's the last time a study was conducted of bikers that actually use these lanes?	2/22/2022 11:04 AM
128	The key element that is Tampa is the BAY. Currently all the bridges that cross the bay leave it looking chaotic and broken, although there is not other way to get from one side to the other except by boat. What other choices do we have?	2/22/2022 10:26 AM
129	Rent is becoming outrageous the last year, im single and independent, will possibly have to look into roommates soon.	2/22/2022 10:00 AM
130	Stop over building!!!! Fix the roads and the flooding!! Create sidewalks!!	2/22/2022 9:36 AM
131	PLEASE make efforts to replant shade trees when developers raze lots and discourage the building of huge box structures on postage size lots, which contributes to flooding in south Tampa.	2/22/2022 9:31 AM

## City of Tampa 2045 Comprehensive Plan Vision Survey

132	Development must coincide with mass transit, jobs, grocery stores...	2/22/2022 9:23 AM
133	Please send an email when the plan is complete!	2/22/2022 9:16 AM
134	A lot of resources seem to go towards the richer areas of Tampa, but there needs to be more resources that go towards the up and coming neighborhoods (i.e. Seminole Heights, Tampa Heights). I know there are current projects to help make Florida Ave more pedestrian friendly, but it would be nice to have sidewalks throughout the residential side streets as well.	2/22/2022 8:57 AM
135	Reduce pollution from fireworks, use laser light and drone shows instead	2/22/2022 8:42 AM
136	This survey seems like an enormous waste of time that is merely intended to check the box on engaging the community. This didn't ask for actual opinions; rather it put out a strand of comments that no one should find oppositional. Actual public engagement would have asked questions like "what is your greatest concern about Tampa's growth?", "as tampa has grown over the past decade, where have you seen the greatest impact?", "do you feel like Tampa's transportation infrastructure is prepared for future growth?", "if you had reliable and comfortable transportation alternatives, would you use them?", "do you feel like your neighborhood has the types of businesses and services you and your neighbors need?"	2/22/2022 8:36 AM
137	Please stop the destruction of our green space for housing in Port Tampa.	2/22/2022 8:26 AM
138	Thanks	2/22/2022 8:26 AM
139	Stop letting developers control you with their money and attorneys	2/22/2022 8:19 AM
140	Please stop allowing zoning for more condos and apartments in S. Tampa. We do not have the infrastructure to support the volume of cars, etc. In the event of an evacuation, we'd be in serious trouble. The overdevelopment has to stop. Its not sustainable in any way.	2/22/2022 8:18 AM
141	Stop narrowing streets and adding walkways into streets. We could easily plan a road that is totally dedicated to pedestrian and bike traffic. By continuing to take away vehicle lanes to add bike and pedestrian paths we are ruining this city forever. Traffic is already significantly worse that it was just 2 or 3 years ago. As more people move here, we continuing to take away vehicle lanes and exaggerate the problem. Do a survey, do some research, almost nobody in Tampa commutes to work on a bike.	2/22/2022 8:15 AM
142	Growth should not go unchecked. Growth for growth sake isn't a plan, it is greed! South Tampa needs a huge park. Turning the area on Gandy between Dale Mabry and Lois into MORE apartments is criminal!!!! Please listen to the people that care because the developers don't!	2/22/2022 6:59 AM
143	Stop building apartments! Our schools, roads, and city services, even our mail carriers CAN NOT handle it!	2/22/2022 6:58 AM
144	I am not nimby. I understand we need housing. But don't let apartments go in without adequately compensating neighborhood for loss of retail space. You are allowing them to turn South Tampa into a bedroom community.	2/22/2022 6:52 AM
145	The city does a great job with parks and recreation. Keep up the good work.	2/22/2022 6:03 AM
146	Bicycle planning for safe passage to and from neighborhoods	2/21/2022 9:13 PM
147	Keep asking the community for feedback. Use that feedback to make decisions and show the community how their input was used.	2/21/2022 8:55 PM
148	Mandate that businesses have trash cans and are responsible for picking up litter. Some businesses currently don't even have a trash can in front of their store.	2/21/2022 8:47 PM
149	Develop a strong working relationship with the private sector to establish a vision for the city that its people and its capital will support. Most of the good (and bad) that happens in a city isn't a result of the city's comprehensive plan. Getting the market participants to share a vision exponentially increases it's chances of success and impact.	2/21/2022 8:29 PM
150	KEEP SINGLE FAMILY ZONING.	2/21/2022 8:25 PM
151	Traffic is already a problem. With Tampa being such a terrific city, combined with everyone moving to FL in general, I fear we're already behind the capacity to handle the traffic. For example, Westshore needs to be a two-lane with a turning lane in the middle. Howard should also be a two-lane with a turning lane in the middle from Bayshore to Kennedy, but there is no	2/21/2022 8:19 PM

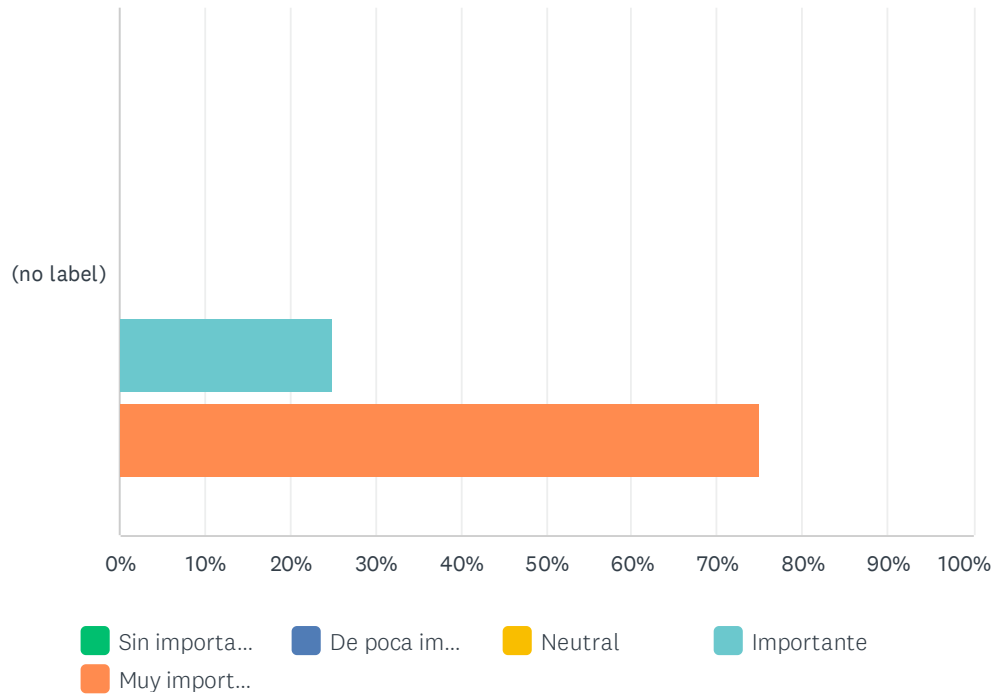

## City of Tampa 2045 Comprehensive Plan Vision Survey

room. Also, money needs to be spent to build out our schools - they are jammed. The parking lot across from Gorrie Elementary needs to be another school building!

152	As these projects kickoff, it is important to award contracts to local enterprises that won't take the money paid to them by the City of Tampa out of the Tampa area. Please let the taxpayers' money continue to work for our local area.	2/21/2022 6:18 PM
153	Stop allowing the flipping of homes into multimillion dollar McMansions	2/21/2022 5:53 PM
154	These questions are all pretty obvious. The real question is what you do to implement them. Transit will address many of them.	2/21/2022 5:49 PM
155	don't crawl under a rock ! and don't fuck this up !	2/21/2022 5:43 PM
156	thank you for your work!	2/21/2022 5:40 PM
157	We don't want the Rays. Only boomers watch baseball.	2/21/2022 10:40 AM
158	Connectivity and Walkability within the Urban core between Tampa Heights, Seminole Heights, Ybor, Channelside and Downtown is extremely important. Some of these neighborhoods are cut off by expressways, incomplete sidewalks and/or dangerous crossings. Connectivity is key!	2/21/2022 10:27 AM
159	Lasting positive impact.	2/20/2022 7:28 PM
160	South Tampa is being over developed and the hardship that is occurring to those of us that are settled here is distressing. I've lived in South Tampa my whole life and I've owned my property for 27 years. It's horrible how tough it is to get around and the awful roads hurt my cars.	2/20/2022 6:50 PM
161	These questions are written in a very high-level principal level way, ensuring most average citizens will not understand what you are asking or intending by them. You need to add specific examples tangible examples	2/20/2022 11:00 AM
162	Please include more bike routes separated from traffic according to Strong Towns suggestions. More architectural requirements for developers to match community styles.	2/20/2022 2:00 AM
163	Invite, encourage students from our universities and from various majors (medicine, the arts, engineering, business, etc.) to offer their ideas. We are after, talking about their future!	2/19/2022 6:54 PM
164	Stephan Benson is doing a great job communicating with the citizens! I'm looking forward to seeing what he accomplishes moving forward.	2/19/2022 6:05 PM
165	The alleyways should be paved and kept up.	2/19/2022 3:32 PM
166	No	2/19/2022 11:33 AM
167	Thank you for your hard work! We're depending on you getting this right!	2/18/2022 11:25 PM
168	Please read my comments :)	2/18/2022 7:33 PM
169	A future concern I have is traffic and congestion on the roads.	2/18/2022 5:38 PM
170	There should be a protected bikelane (with concrete, not flimsy bollards) "interstate system" that can get bikers safely around the main parts of the city. It needs to extend into Seminole heights and eventually to sulpher springs to activate that neighborhood as well. There should be ways to get under the bridge on MLK so that people north of the bridge can get down to armature works without crossing busy roads.	2/18/2022 2:08 PM
171	Thank you for the opportunity to express my thoughts	2/18/2022 11:04 AM

## Q1 Un sentido de lugar y comunidad: Aprovechar y apoyar la rica historia, la diversidad cultural y el carácter único de nuestros vecindarios en nuestra vibrante ciudad.

Answered: 4 Skipped: 0

	SIN IMPORTANCIA	DE POCA IMPORTANCIA	NEUTRAL	IMPORTANTE	MUY IMPORTANTE	TOTAL	WEIGHTED AVERAGE
(no label)	0.00% 0	0.00% 0	0.00% 0	25.00% 1	75.00% 3	4	4.75

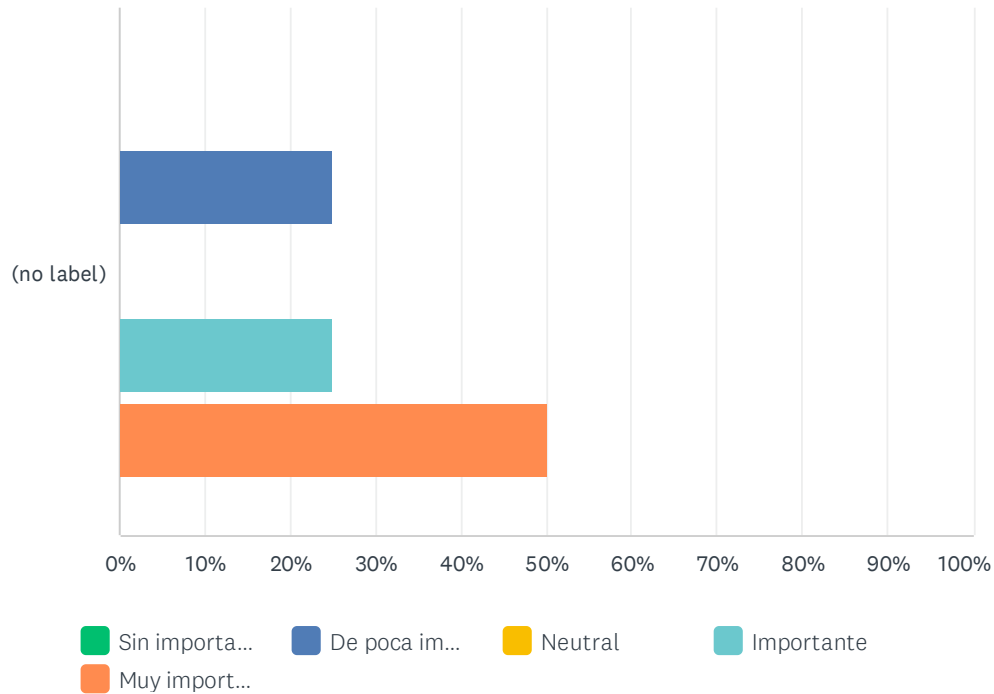

Q2 (Opcional) Comente por qué calificó esta declaración de esta manera o indique lo que cree que debería incluirse en el Plan en relación con esta idea.
